

## **BUCKS PARTNERSHIP FORUM: MISSION STATEMENT**

***“The role of the Partnership Forum is to improve the health and social welfare of the population of Buckinghamshire by building and maintaining productive partnerships so that organisations work effectively together.***

***It will do this by:***

- ***ensuring the effective involvement of the voluntary sector and from people who depend on services***
- ***helping public sector organisations to create informed plans and priorities***
- ***identifying the common strands between different plans and planning systems***
- ***looking for, and promoting, good examples of joint working and the effective use of resources***
- ***reviewing and monitoring the collective achievements of multi-sector working in Buckinghamshire in the field of health and social welfare***
- ***helping to understand the significance to the partnership process of key decisions made by individual organisations***

***The Forum relies on the shared and active commitment and participation of all its members to make a difference to the health and welfare of the people of Bucks and to the services that deliver this outcome.”***
