

10 : NOTICES OF MOTION

- 1 No new Notices of Motion have been received for this meeting of Council.
- 2 With regard to Mrs Crawford's Notice of Motion, submitted to the meeting of the Council on 19 July, the Overview and Scrutiny Committee on the Environment of Buckinghamshire is still in its early stages, in terms of its review of the roles and responsibilities, and has not yet therefore had an opportunity to fully explore the issues raised by Mrs Crawford in the Notice of Motion. The Committee therefore seeks the approval of Council to defer its response to the Notice of Motion until such time that the issues it raises have been fully considered alongside and as part of the Committee's wider Review and that this response be included in the Committee's final report which it intends to present to Cabinet on 17 December 2001.
