

THE PRIORITIES AND TARGETS

PRIORITY: IMPROVING THE HEALTH OF BUCKINGHAMSHIRE

We will:

- Promote the health and well-being of people in Buckinghamshire, recognising the effects of social, economic and environmental conditions
- Act to reduce coronary heart disease, cancer and accidents, and promote good mental health
- Take action on abuse of drugs

Targets by 2005

Target	How will we deliver?	Related Plans
Increased structured support for drug users, especially those under 19, and take-up more than doubled	Work together to establish a new drug treatment service for young people Lead: Drug Action Team	Public Service Agreement
Improved health through targeted actions	Partnership health improvement initiatives and projects, in particular where people are at highest risk. Particular areas of focus will be: access to primary care, secondary and emergency care services, older people, mental health, recruitment and retention of NHS staff. Focusing projects to reduce inequalities in geographical areas of greatest need. Leads: Primary Care Trusts, Local Implementation Teams	Health Improvement and Modernisation Plans
