

## **STATEMENT OF ACCOUNTS 2015-16**

### **1 Purpose**

- 1.1 Following on from the report to the July meeting of the Audit Committee on the draft statement of accounts, this report updates the members on the audit process and advises the committee of the changes that have been made to the accounts in accordance with the auditor's recommendations.
- 1.2 If the committee is satisfied with the revised accounts and that the auditor's comments have been correctly responded to, they are required to authorise the Chairman to sign them on the Committee's behalf, together with the Director with Responsibility for Finance, in order to comply with the 30<sup>th</sup> September's statutory deadline.

### **2 Recommendations/for decision**

- 2.1 Members of the committee are requested to consider the final Statement of Accounts for 2015-16 (Appendix A) and
- 2.2 If satisfied with the position they present, after considering the auditor's comments, they are recommended to authorise the Chairman to sign them on the Committee's behalf.
- 2.3 Delegate the authority to the Director with Responsibility for Finance, in consultation with the Chair or Vice Chair of the Committee, to make such changes as considered necessary to achieve sign off by the statutory 30 September deadline.

### **3 The Accounts Approval Process**

- 3.1 The Accounts and Audit Regulations state that the members should only approve the accounts when they have been made aware of the findings of the audit and hence make a better informed decision.
- 3.2 The auditor's comments and findings arising from their audit work over the last three months are reported in the Audit Results Report, which appears prior to this report on the agenda.
- 3.3 If the auditors have still not completed their work by the date of the meeting it is requested that the Committee delegate to the Head of Finance, in consultation with the Chair or Vice Chair, the ability to make such changes to the accounts that are considered necessary in order to achieve the statutory 30th September deadline.
- 3.4 A couple of amendments have been made to the accounts to revise misstatements and to better explain the nature of certain financial transactions to the reader.
- 3.5 The changes made to the accounts between the draft submitted for audit and this version are reported in the next section.

### **4 Changes / Revisions to the Accounts**

- 4.1 During the course of the audit it was identified that the current service pension costs had been charged to Non Distributed Costs rather than the individual service areas. The Statement of Accounts attached to this report has been amended to reflect the correct position.

- 4.2 Other minor changes have been made to Note 34.1 where there was a casting error and the prior year did not agree to the audited accounts from last year. Also, note 34.2 has been updated to reflect three exit packages that were agreed during 2015/16 but not due to be paid until 2016/17. These were originally omitted from the disclosure note.
- 4.3 The pensions note 38 has also had a couple of amendments to correctly reflect the actuary's report.
- 4.4 In the Related Party Transactions note of the draft statement of accounts submitted to the committee in July there were a number of members listed as having not returned their disclosure return. Since that meeting all but two of the current members have completed their disclosures. Completion of these disclosures is an audit requirement.
- 4.5 While the Council can choose whether it wishes to make amendments to its draft accounts for non-material errors or misstatements, the view this year has been that it will reflect all errors or misstatements in the accounts that are raised by external audit.
- 4.6 There is a requirement to report significant events that occur after the balance sheet date and before the sign off date. Since the committee in July, there have been no significant events that require reporting in the accounts.

## **5 Reasons for Recommendation**

- 5.1 The Accounts and Audit Regulations require that the Statement of Accounts are formally signed off by the Chair of the Audit Committee and the Director responsible for Finance by the 30<sup>th</sup> September each year.

## **6 Resource implications**

- 6.1 These are covered within the body of the report.

## **7 Response to Key Aims and Objectives**

- 7.1 None directly, although proper financial reporting and management will help with the delivery of the Authority's Key Aims and Outcomes.

## 1. Introduction

I am pleased to be able to present to you the statement of accounts for the year 2015/16.

The statement of accounts is published to present a true and fair view of the financial position and transactions of the Council. Wherever possible it has been written in plain language but inevitably it contains technical terms and a glossary to help explain some of these terms can be found at the back of this publication.

## 2. Statement of accounts explanations

The statement of accounts comprises:

- ❖ Statement of responsibilities
- ❖ Core financial statements
- ❖ Notes to the core financial statements
- ❖ Supplementary financial statements
- ❖ Notes to the supplementary financial statements
- ❖ Appendices

The objective of each of the accounting statements is:

### ❖ Statement of responsibilities

Identifies the officer who is responsible for the proper administration of the Council's financial affairs. The purpose is for the chief finance officer to sign a statement that the accounts present a true and fair view of the financial position of the Council at the accounting date and its income and expenditure for the year then ended.

### ❖ Core financial statements

*Movement in reserves statement* - shows the movement in the year on the different reserves held by the Council, analysed into (a) *usable reserves* - those that can be applied to fund expenditure or reduce local taxation and (b) *unusable reserves* - those that cannot be applied to fund expenditure or reduce local taxation. The *(surplus)/deficit on the provision of services* line shows the true economic cost of providing the Council's services, more details of which are shown in the comprehensive income and expenditure statement. These are different from the statutory amounts required to be charged to the general fund balance for council tax setting purposes. The *net (increase)/decrease before transfers to earmarked reserves* line shows the statutory general fund balance before any discretionary transfers to/ (from) earmarked reserves undertaken by the Council.

*Comprehensive income and expenditure statement* - shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Councils raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the movement in reserves statement.

*Balance sheet* - shows the values as at the balance sheet date of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories. The first category of reserves is usable reserves, i.e. those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the capital receipts reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is unusable reserves, i.e. those reserves that the Council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the revaluation reserve), where amounts would only become available to provide services if the assets are sold, and reserves that hold timing differences shown in the movement in reserves statement line *adjustments between accounting basis and funding basis under regulations*.

*Cash flow statement* - shows the changes in cash and cash equivalents of the Council during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.

#### ❖ Notes to the core financial statements

Provides support to the core financial statements, which informs the reader and gives sufficient information, to present a good understanding of the Council's activities.

#### ❖ Supplementary financial statements

*Collection fund* – this account reflects the statutory requirement for billing authorities to maintain a separate collection fund, which shows the transactions of the Council in relation to non-domestic rates and council tax, and illustrates the way in which these have been distributed.

#### ❖ Notes to the supplementary financial statements

Provides support to the supplementary financial statements, which informs the reader and gives sufficient information, to present a good understanding of the Council's activities.

#### ❖ Appendices

- Appendix 1 – annual governance statement

The annual governance statement is not part of the statement of accounts, but is required to be included alongside it in the same publication, and as such is not covered by (a) the chief finance officer's certification or (b) the external auditor's report.

The objective of this statement is to fulfill the statutory requirement for the Council to conduct an annual review of the effectiveness of its system of internal control.

### 3. General fund service revenue spending compared with budget

In 2015/16 the district general fund net underspend was £210,000. A summary of the financial position is shown below:

General Fund Revenue	2015/16	2015/16	General Fund Balances	2015/16	2015/16
	Budget	Actual		Budget	Actual
	£000	£000		£000	£000
Expenditure	88,564	88,528	Balance 1st April	(3,332)	(3,765)
Income	(69,311)	(67,623)	Net Balance from Fund	-	(210)
<b>Net Cost of Services</b>	19,253	20,905	<b>Balance 31st March</b>	<b>(3,332)</b>	<b>(3,975)</b>
Cost of Borrowing	2,191	906			
Other Costs	(5,722)	(1,363)			
Investment Interest	(2,024)	(2,804)			
Income from Grants	(4,443)	(8,599)			
<b>Net Expenditure</b>	9,255	9,045			
Local Taxpayers	(9,255)	(9,255)			
<b>Net Balance</b>	-	(210)			

The actual figures presented in the table above significantly vary from the budget for the year due to the year end accounting entries that are required covering IAS19, depreciation, impairment (see 5. Brief note of significant items in the core financial statements), revenue expenditure funded from capital under statute and contributions to and (from) reserves. These entries are not budgeted for as their exact values are not normally known until after the year end and also because they do not impact on the council tax requirement.

The main areas where variances from budget have been reported through the year in the Quarterly Financial Digest can be summarised as follows:

Actual Outturn	Forecast Outturn
£	£

**Top 5 Under Budget**

Domestic Refuse	(435,127)	(300,000)	Salary and fuel savings plus increased sale of bins income
Housing Benefits	(323,648)	-	Increased overpaid benefit recovered less increased rent allowance payments
Car Park Management	(222,062)	(233,000)	Increased service charge and P&D income
Leisure Administration & Management	(107,248)	(103,800)	Salary savings
Communications & Marketing	(84,597)	(20,000)	Savings in market research and strategy costs

**Top 5 Over Budget**

Legal Services	242,333	-	Agency staff costs, pension strain costs and increased consultancy fees
Engine Room	218,528	-	Initial investment in Salix energy schemes
Information Technology	205,241	60,000	Costs relating to Commercial AVDC plus loss of income from local authorities
Industrial Estates and Town Centre Properties	145,351	(94,200)	Costs associated with Exchange Street North
Environment & Health Admin	77,114	(30,000)	Pension strain costs

The graph below shows the net spend by portfolio.

The pie chart below shows how the £16.8 million the Council receives from the local taxpayer and from Government is apportioned.

In 2015/16 the Council used £3,367,000 of earmarked reserves in support of revenue spend and transferred £8,106,000 into reserves, £5,074,000 of which was committed but unspent new homes bonus.

#### 4. Capital spending

In 2015/16 the Council spent £8,494,000 on capital projects. The bulk of the expenditure during the year was spent on the works on the University Campus Aylesbury Vale which amounted to £5,998,000 (71%), whilst the refurbishment of Swan Pool accounted for £2,412,000 (28%). The remaining expenditure, £84,000, covered works on the Canal Society Clubhouse, renovations of the public realm and refurbishment of the depot.

In 2015/16 the Council received non-asset backed capital receipts of £2,429,000, £2,310,000 of which was from house sales as part of the stock transfer agreement. In addition, the Council received £119,000 from the sale of land. The Council's capital expenditure in 2015/16 was partly financed from two sources, capital reserves and capital receipts. The remainder of the expenditure was funded from long term borrowing. The ability to generate new external resources remains limited.

#### 5. Brief note of significant items in the core financial statements

The Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 sets out comprehensive requirements for group accounts. These require Councils to consider all their interests and to prepare a full set of group financial statements when they have material interests in subsidiaries, associates or joint ventures.

The Council partly or wholly owns a number of companies, all of which have the common goal of producing overall benefits for the residents and businesses of the vale. This may be through investment, commercial opportunity or simply by generating cash for the Council through dividend payments funded from profit. This may also be through the purchasing or reselling elements of Council services which may result in an overall better position for the Council.

The companies in which the Council have an interest are set out in the following table:

Company Name	Council Share	Company Status	Purpose
Aylesbury Vale Estates LLP	50%	Joint Venture	Managing our commercial estate
Aylesbury Vale Broadband Ltd	95%	Subsidiary	Delivering broadband in our more rural areas
Novae Consulting Ltd	100%	Subsidiary	Delivering our commercial consultancy work
Vale Commerce Ltd	100%	Subsidiary	Delivering the commercial ambitions of the Council under the brands of Incgen and Limecart

:

The statements are intended to present financial information about the parent (the Council) and the companies in which it has an interest by bringing together their results in a unified set of accounts.

## 6. Brief note explaining significance of any pension liability or asset

Any surplus or deficit on the Council's pension fund is required to be shown within the balance sheet. The effect of the Council's share of the pension fund administered by Bucks County Council has been assessed by the scheme's actuary as at 31 March 2016. The current valuation shows a deficit on the fund of £82,933,000 (£90,307,000 at 31 March 2015) based upon the nationally set criteria. The actual contributions payable by the Council are based upon the actuary's own assumptions in a valuation that is undertaken on a triennial basis. This valuation was last undertaken at 31st March 2016, with the next formal revaluation due as at 31st March 2019. The two valuations are carried out on different bases.

## 7. Brief note on the current borrowing facilities and capital borrowing

The Council is allowed to borrow providing they can demonstrate that the revenue costs are supportable and that it sets yearly borrowing limits, which have to be agreed by full Council. Aylesbury Vale District Council has, at any point in time, a number of cash requirements. Some services, such as the collection fund, have spare cash to invest whilst others, such as the capital programme, need cash to pay contractors. These cash flows, both positive and negative, are combined and managed in accordance with the approved treasury management strategy and practices. In day to day cash management, no distinction can be made between revenue cash and capital cash. External borrowing arises as a consequence of all the financial transactions of the Council and not simply those arising from capital spending.

## 8. Summary of sources of funds available to meet capital expenditure plans

The Council meets its capital expenditure plans through the use of capital receipts and contributions externally generated, and some internal revenue contributions. During 2015/16 there was a need to borrow long term as the ability to generate external receipts diminished.

## 9. An explanation of the impact of the current economic climate on the Council and the services it provides

The Council has carried forward healthy reserves (well above its minimum levels) into 2016/17. Despite continuing to receive a much lower level of formula grant, the Council limited the increase of its element of the council tax for 2016/17 to 1.99%. This reflected a government policy objective.

## 10. EU Referendum and the implications of Brexit

Following the result of the EU referendum and the decision to leave the European Union, there are potential implications on the Council. Although it is early days, the only noticeable impact is the reduction in interest rates which will affect the return we will get on our investments. As the process of Brexit gets underway AVDC will monitor the implications on the Council and will report the consequences to the appropriate authority.

As the Council enters into periods of much tighter local government funding, we have put in place a robust medium term financial strategy that sets out our planned savings to enable the budget to be balanced and to deliver affordable council tax levels covering a five year period. This is to ensure that resources will continue to be directed to ensure good quality services are provided to our residents in future.

**Andrew Small**  
**Director (with responsibility for finance)**  
 The Gateway  
 Gatehouse Road  
 Aylesbury  
 Bucks HP19 8FF

### The Council's responsibilities

The Council is required to:

- make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Director (with responsibility for finance)(the Director);
- manage its affairs: to secure economic, efficient and effective use of resources and safeguard its assets;
- approve the statement of accounts.

### Council approval

The statement of accounts for the year to 31 March 2016 has been prepared and I confirm that these accounts were approved by the audit committee at its meeting on 26 September 2016.

Councillor Kevin Hewson  
Chairman of Audit Committee  
26 September 2016

### The Director's responsibilities

The Director is legally and professionally responsible for the preparation of the Council's statement of accounts in accordance with proper practices as set out in the CIPFA/LASAAC *Code of Practice on Local Authority Accounting in the United Kingdom 2015/16* - the Code.

In preparing this statement of accounts, I have:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code.

The Director has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

### Director's certification

I certify that the statement of accounts presents a true and fair view of the financial position of the Council at the reporting date and its income and expenditure for the year ended 31 March 2016.

Andrew Small  
Director (with responsibility for finance)  
30 June 2016

## Movement in Reserves Statement

This statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The '*surplus/deficit on the provision of services*' line shows the true economic cost of providing the Council's services, more details of which are shown in the comprehensive income and expenditure statement. This is different from the statutory amounts required to be charged to the general fund balance for council tax setting purposes. The '*net (increase)/decrease before transfers to earmarked reserves*' line shows the statutory general fund balance before any discretionary transfers to/(from) earmarked reserves undertaken by the Council.

Council	General fund balance	Earmarked GF reserves	Capital receipts reserves	Capital grants unapplied	Total usable reserves	Unusable reserves	Total Council reserves
	£000	£000	£000	£000	£000	£000	£000
<b>Balance at 1 April 2014</b>	<b>(3,640)</b>	<b>(24,195)</b>	<b>(3,816)</b>	<b>(592)</b>	<b>(32,243)</b>	<b>(56,187)</b>	<b>(88,430)</b>

## Reconciliation of movement in reserves statement to balance sheet

31 March 2015		31 March 2016
Group only		Group only
£000		£000
(76,985)	Total reserves in the movement in reserves statement	(93,327)
-	Minority interest share of reserves of subsidiaries	10
<b>(76,985)</b>	<b>Total reserves in the balance sheet</b>	<b>(93,317)</b>

## Comprehensive Income and Expenditure Statement

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Councils raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the movement in reserves statement.

## Cash Flow Statement

The cash flow statement shows the changes in cash and cash equivalents of the Council during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.

## 1. Accounting Policies

### 1.1 General principles

The statement of accounts summarises the Council's transactions for the 2015/16 financial year and its position at 31 March 2016. The Council is required to prepare an annual statement of accounts by the Accounts and Audit (England) Regulations 2011 (SI 2011 no.817), which require the accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in The United Kingdom 2015/16 and Service Reporting Code of Practice 2015/16, supported by International Financial Reporting Standards (IFRS) and statutory guidance issued under section 12 of the 2003 Act.

### 1.2 Accruals of expenditure and income

All transactions of the Council are accounted for in the year in which they take place, not simply when the cash payments are made or received. In particular:

- Fees, charges and rents due from customers are accounted for as income at the date the Council provides the relevant goods or services;
- Supplies and services are recorded as expenditure when they are consumed - where there is a gap between the date supplies are received and their consumption, they are carried as stocks on the balance sheet;
- Interest receivable on investments is accounted for on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract;
- Where income and expenditure has been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the balance sheet. Where it is doubtful that debts will be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected; and
- Income and expenditure are credited and debited to the relevant service revenue account, unless they properly represent capital receipts or capital expenditure.

### 1.3 Cash and cash equivalents

Cash comprises cash in hand and call account deposits repayable without penalty on notice of not more than 24 hours. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. In the cash flow statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

### 1.4 Charges to revenue for non-current assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding fixed assets during the year:

- depreciation attributable to the assets used by the relevant service;
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the revaluation reserve against which the losses can be written off;
- amortisation of intangible fixed assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisations. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to either at least 4% of the underlying amount measured by the adjusted capital financing requirement or the asset life method where the MRP is determined by reference to the life of the asset and an equal amount charged each year. Depreciation, impairment losses and amortisations are therefore replaced by minimum revenue provision in the statement of movement on the general fund balance, by way of an adjusting transaction within the capital adjustment account for the difference between the two.

### 1.5 Employee benefits

#### 1.5.1 Benefits payable during employment

Short-term employee benefits are those due to be settled wholly within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits for current employees and are recognised as an expense for services in the year in which employees render service to the Council.

An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year end which employees can carry into the next financial year. The accrual is made at the wage and salary rates applicable in the following year, being the period in which the employee takes the benefit. The accrual is charged to the surplus or deficit on the provision of services, but is then reversed out through the movement in reserves statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

### 1.5.2 Termination benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits, and are charged on an accruals basis to the relevant service costs line in the comprehensive income and expenditure statement at the earlier of when the Council can no longer withdraw the offer of those benefits or when the Council recognises costs for a restructuring.

When termination benefits involve the enhancement of pensions, statutory provisions require the general fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the movement in reserves statement, appropriations are required to and from the pensions reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end.

### 1.5.3 Post-employment benefits

The majority of Council employees are members of the local government pension scheme, administered by Buckinghamshire County Council. The scheme provides defined benefits to members (retirement lump sums and pensions), earned as employees work for the Council.

The local government scheme is accounted for as a defined benefits scheme:

- The liabilities of Buckinghamshire County Council's superannuation fund attributable to the Council are included in the balance sheet on an actuarial basis using the projected unit method i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates etc. and projections of earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate based on the annualised yield at the 21 year point on the Merrill Lynch AA rated corporate bond curve, which has been chosen to meet the requirements of IAS19 and with consideration of the duration of the employer's liabilities. This approach has been updated from previous disclosures when the yield on the iBoxx Sterling Corporate Index was used as a standard assumption for most employers in the fund.
- The assets of Buckinghamshire County Council's superannuation fund attributable to the Council are included in the balance sheet at their fair value:
  - quoted securities – current bid price
  - unquoted securities – professional estimate
  - unitised securities – current bid price
  - property – market value
- The change in the net pensions liability is analysed into the following components:
  - service cost comprising:
    - current service cost – the increase in liabilities as a result of years of service earned this year (allocated in the comprehensive income and expenditure statement to the services for which the employees worked).
    - past service cost – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years (debited to the net cost of services in the comprehensive income and expenditure statement as part of non-distributed costs).
    - net interest on the defined benefit liability, i.e. net interest expense for the Council – the change during the year in the net defined benefit liability that arises from the passage of time (charged to the financing and investment income and expenditure line in the comprehensive income and expenditure statement).

- re-measurement comprising:
  - the return on plan assets – excluding amounts included in net interest on the net defined benefit liability (charged to the pensions reserve as other comprehensive income and expenditure).
  - actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation, or because the actuaries have updated their assumptions (charged to the pensions reserve as other comprehensive income and expenditure).
- contributions paid to Buckinghamshire County Council's pension fund – cash paid as employer's contributions to the pension fund in settlement of liabilities. This is not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the general fund balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the movement in reserves statement, this means that there are transfers to and from the pensions reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end. The negative balance that arises on the pensions reserve thereby measures the beneficial impact to the general fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

#### 1.5.4 Discretionary benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the local government pension scheme.

#### 1.6 Events after the balance sheet date

Events after the balance sheet date are those events, both favourable and unfavourable, that have occurred between the balance sheet date and the date when the statement of accounts is authorised for issue. Two types of event can be identified:

- those that provide evidence of conditions that existed at the balance sheet date – the statement of accounts is adjusted to reflect such events
- those that are indicative of conditions that arose after the balance sheet date – the statement of accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the statement of accounts.

#### 1.7 Financial instruments

##### 1.7.1 Financial liabilities

Financial liabilities are recognised on the balance sheet when the Council becomes a party to the contractual provisions of a financial instrument and are measured at fair value. Annual charges to the financing and investment income and expenditure line in the comprehensive income and expenditure statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument.

This means that for the borrowings the Council has, the amount presented in the balance sheet is the outstanding principal repayable plus accrued interest, and interest charged to the comprehensive income and expenditure statement is the amount payable for the year.

##### 1.7.2 Financial assets

Financial assets are classified into two types:

- loans and receivables – assets that have fixed or determinable payments but are not quoted in an active market
- available for sale assets – assets that have a quoted market price and/or do not have fixed or determinable payments.

### 1.7.2.1 Loans and receivables

Loans and receivables are recognised on the balance sheet when the Council becomes a party to the contractual provisions of a financial instrument and are measured at fair value. Annual credits to the financing and investment income and expenditure line in the comprehensive income and expenditure statement for interest receivable are based on the carrying amount of the liability multiplied by the effective rate of interest for the instrument.

This means that for the loans the Council has made, the amount presented in the balance sheet is the outstanding principal receivable plus accrued interest, and interest charged to the comprehensive income and expenditure statement is the amount receivable for the year.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the financing and investment income and expenditure line in the comprehensive income and expenditure statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

### 1.7.2.2 Available for sale assets

Available for sale assets are recognised on the balance sheet when the Council becomes a party to the contractual provisions of a financial instrument and are measured at fair value. Where the asset has fixed or determinable payments, annual credits to the financing and investment income and expenditure line in the comprehensive income and expenditure statement for interest receivable are based on the carrying amount of the liability multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income is credited to the comprehensive income and expenditure statement when it becomes receivable by the Council.

## 1.8 Government grants and other contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the comprehensive income and expenditure statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the balance sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line or taxation and non-specific grant income in the comprehensive income and expenditure statement.

Where capital grants are credited to the comprehensive income and expenditure statement, they are reversed out of the general fund balance in the movement in reserves statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the capital grants unapplied reserve. Amounts in the capital grants unapplied reserve are transferred to the capital adjustment account once they have been applied to fund capital expenditure.

### 1.8.1 Revenue support grant

Revenue support grant (RSG) is a general grant allocated by central government directly to local authorities as additional revenue funding. RSG is non-ring-fenced and is credited to taxation and non-specific grant income in the comprehensive income and expenditure statement

## 1.9 Interests in companies and other entities

The Council has a material interest in Aylesbury Vale Estates LLP (AVE), which requires it to prepare group accounts. In the Council's own single-entity accounts this interest is recorded as a financial asset at cost less any provision for losses.

## 1.10 Inventories and long-term contracts

Inventories (stocks) are included in the balance sheet at the lower of cost and net realisable value.

Long term contracts are accounted for on the basis of the comprehensive income and expenditure statement being charged in the year during which the cost of goods or services were received or provided.

## 1.11 Investment property

Investment properties are those (land or a building, or part of a building, or both) that are held solely to earn rentals or for capital appreciation or both. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's length. Properties are not depreciated but are revalued annually according to market conditions at the year end. Gains and losses on revaluation are posted to the financing and investment income and expenditure line in the comprehensive income and expenditure statement. The same treatment is applied to gains and losses on disposal.

Rentals and costs relating to investment properties are posted to the financing and investment income and expenditure line in the comprehensive income and expenditure statement and result in a gain or loss for the general fund balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the general fund balance. The gains and losses are therefore reversed out of the general fund balance in the movement in reserves statement and posted to the capital adjustment account and any sale proceeds credited to the capital receipts reserve.

## 1.12 Leases

### 1.12.1 Finance leases

The Council accounts for leases as finance leases when substantially all (determined for Aylesbury Vale District Council as being equal to or greater than 95%) the risks and rewards relating to the leased property transfer to the Council. Rentals payable are apportioned between:

- a charge for the acquisition of the interest in the property (recognised as a liability in the balance sheet at the start of the lease, matched with a tangible fixed asset – the liability is written down as the rent becomes payable); and
- a finance charge is made to net operating expenditure in the comprehensive income and expenditure statement as the rent becomes payable.

Fixed assets recognised under finance leases are accounted for using the policies applied generally to tangible fixed assets, subject to depreciation being charged over the lease term, if this is shorter than the asset's estimated useful life.

### 1.12.2 Operating leases

Leases that do not meet the definition of finance leases are accounted for as operating leases. Rentals payable are charged to the relevant service account on a straight-line basis over the term of the lease, which generally means that rentals are charged when they become payable.

## 1.13 Overheads and support services

The cost of support services are recharged to services based on use and in accordance with CIPFA's *Service Reporting Code of Practice 2015/16 – SeRCOP*.

The total absorption costing principle is used – the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- corporate and democratic core – costs relating to the Council's status as a multifunctional, democratic organisation; and
- non-distributed costs – the cost of discretionary benefits awarded to employees retiring early and any depreciation and impairment losses chargeable on non-operational properties.

These two categories are defined in SeRCOP and accounted for as separate headings in the comprehensive income and expenditure statement.

## 1.14 Prior period adjustments, changes in accounting policies and estimates and errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

## 1.15 Property, plant and equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and that are expected to be used during more than one financial year are classified as property, plant and equipment.

### 1.15.1 Recognition

Expenditure on the acquisition, creation or enhancement of fixed assets is capitalised on an accruals basis in the accounts. Expenditure in excess of £10,000 on fixed assets is capitalised. This excludes expenditure on routine repairs and maintenance of fixed assets which is charged direct to service revenue accounts.

### 1.15.2 Measurement

Assets are initially measured at cost, comprising all expenditure that is directly attributable to bringing the asset into working condition for its intended use. Assets are then carried in the balance sheet using the following measurement bases:

- assets surplus to requirements - fair value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV)
- other land and buildings - fair value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV)
- vehicles, plant and equipment – existing use value (EUV)
- infrastructure assets - historic cost
- community assets – historic cost or revalued basis
- assets under construction – historic cost

Assets included in the balance sheet at current value are revalued on a rolling basis within a five year time-frame. Increases in valuations are matched by credits in the revaluation reserve to recognise unrealised gains. Exceptionally, gains might be credited to the comprehensive income and expenditure statement where they arise from the reversal of an impairment loss previously charged to a service revenue account.

### 1.15.3 Impairment

The values of each category of assets and of material individual assets that are not being depreciated are reviewed at the end of each financial year for evidence of reductions in value. Where impairment is identified as part of this review or as a result of a valuation exercise, this is accounted for by:

- where there is a balance of revaluation gains for the asset in the revaluation reserve, the carrying amount of the asset is written down against the balance (up to the amount of the accumulated gains)
- where there is no balance on the revaluation reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant line(s) in the comprehensive income and expenditure account.

Where an impairment loss is charged to the comprehensive income and expenditure statement but there were accumulated revaluation gains in the revaluation reserve for that asset, an amount up to the value of the loss is transferred from the revaluation reserve to the capital adjustment account.

#### 1.15.4 Disposals and non current assets held for resale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an asset held for resale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the other operating costs line in the comprehensive income and expenditure statement. Gains in fair value are recognised only up to the amount of any previous losses recognised in the surplus or deficit on provision of services. Depreciation is not charged on non current assets held for resale.

If assets no longer meet the criteria to be classified as non current assets held for resale, they are reclassified back to non current assets and valued at the lower of their carrying amount before they were classified for resale, adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as held for resale, and their recoverable amount at the date of the decision not to sell.

When an asset is disposed of or decommissioned, the value of the asset in the balance sheet is written off to the comprehensive income and expenditure statement as part of the gain or loss on disposal. Receipts from disposals are credited to the comprehensive income and expenditure statement as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains in the revaluation reserve are transferred to the capital adjustment account. Amounts in excess of £10,000 are categorised as capital receipts. A proportion of receipts (75%) relating to housing mortgage receipts is payable to the government. The balance of receipts is required to be credited to the capital receipts reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow – the capital financing requirement. Receipts are appropriated to the reserve from the movement in reserves statement.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the capital adjustment account from the movement in reserves statement.

#### 1.15.5 Depreciation

Depreciation is provided in respect of all the relevant property, plant and equipment, other than investment properties, where a finite useful life has been determined. This is with the intention of writing off their balance sheet values in equal annual instalments over their remaining expected useful lives. This is commonly referred to as the 'straight line' method. An exception is made for assets without a determinable finite life (i.e. freehold land and certain community assets) and assets that are not yet available for use (i.e. assets under construction).

Revaluation gains are also depreciated, with an amount equal to the difference between the current value depreciation charge on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the revaluation reserve to the capital adjustment account.

#### 1.15.6 Componentisation

The objective of component accounting is to follow proper accounting practice by ensuring that property, plant and equipment is accurately and fairly included in the Council's balance sheet, and that the comprehensive income and expenditure statement properly reflects the consumption of economic benefits of those assets over their useful lives through depreciation charges.

In order to do this, the Council must first determine which of its assets have a material value. For Aylesbury Vale District Council materiality in this instance has been set as any asset with a carrying value equal to or greater than 20% of the total carrying value for any asset group.

Where an asset is deemed material then the Council must ensure that the overall value of an asset is fairly apportioned over significant components that need to be accounted for separately and that their useful lives and the method of depreciation are determined on a reasonable and consistent basis. For Aylesbury Vale District Council significance has been set at equal to or greater than 20% of the asset's cost.

**1.16 Provisions, contingent liabilities and contingent assets****1.16.1 Provisions**

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the authority may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the comprehensive income and expenditure statement in the year that the Council becomes aware of the obligation and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the balance sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

**1.16.2 Contingent liabilities**

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the balance sheet but disclosed in a note to the accounts.

**1.16.3 Contingent assets**

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the balance sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

**1.17 Reserves**

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the general fund balance in the movement in reserves statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service revenue account. The value is then appropriated from the reserve and credited to the general fund balance so that there is no charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council.

**1.18 Revenue expenditure funded from capital under statute**

Revenue expenditure funded from capital under statute (REFCUS) is expenditure which may be capitalised but which does not result in the creation of tangible assets controlled by the Council. REFCUS incurred during the year is written off as expenditure to the relevant service revenue account in the year. Examples include grants to third parties for capital purposes and expenditure on private sector housing renewal.

**1.19 VAT**

VAT is only included within the revenue and capital income and expenditure accounts to the extent that it is irrecoverable.

## 2. Accounting standards not yet adopted

The Code of Practice on Local Council Accounting in the United Kingdom 2015/16 (the Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. This applies to the adoption of the following new or amended standards within the 2016/17 Code:

- IAS1 Presentation of Financial Statements - This standard provides guidance on the form of the financial statements. The 'Telling the Story' review of the presentation of the local authority financial statements as well as the December 2014 changes to IAS1 under the International Accounting Standards Board (IASB) Disclosure Initiative will result in changes to the format of the accounts in 2016/17. The format of the comprehensive income and expenditure statement and the movement in reserves statement will change and introduce a new expenditure and funding analysis.
- Other minor changes due to the Annual Improvement to IFRSs cycles, IFRS11 Joint Arrangements, IAS16 Property, Plant & Equipment, and IAS19 Employee Benefits are minor and are not expected to have a material impact on the statement of accounts.

The Code requires implementation from 1 April 2016 and there is therefore no impact on the 2015/16 statement of accounts

## 3. Critical judgements in applying accounting policies

In applying the accounting policies set out in Note 1, the Council has had to make certain judgments about complex transactions or those involving uncertainty about future events. The critical judgments made in the statement of accounts are:

- There is a high degree of uncertainty about future levels of funding for local government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.
- The Council has a number of members who are trustees of the Aylesbury Vale Community Trust, an independent not-for-profit organisation that operated the leisure centres previously operated by the Council. It has been determined that the Council does not have control of the trust and it is not a subsidiary of the Council.

## 4. Assumptions made about the future and other major sources of estimation uncertainty

The statement of accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates. The items in the Council's balance sheet at 31 March 2016 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

- Business rates - Since the introduction of the business rates retention scheme effective from 1 April 2013, local authorities are liable for successful appeals against business rates charged to businesses in 2012/13 and earlier years in their proportionate share. Therefore a provision has been recognised for the best estimate of the amount that businesses have been overcharged up to 31 March 2016. The estimate has been calculated using the Valuation Office (VOA) ratings list of appeals and the analysis of successful appeals to date when providing the estimate of the total provision up to and including 31 March 2016.
- Council tax (surplus)/deficit - Assumptions are made on the likely (surplus)/deficit for the year in the January prior to the year end. The information forms part of the budget setting process for Aylesbury Vale District Council, Buckinghamshire County Council, Thames Valley Police Authority and Buckinghamshire and Milton Keynes Fire & Rescue Authority. If the actual (surplus)/deficit differs significantly from the estimated assumption position from January, there will be an impact in the following year's budget process. A higher deficit could mean more savings being required or an increased council tax.
- Debt impairment - At 31 March 2016, the Council had a balance of sundry debtors for £11,772,000. A review of significant balances suggested that an impairment for doubtful debts of 23% (£2,752,000) was appropriate. However, in the current economic climate it is not certain that such an allowance would be sufficient. If collection rates were to deteriorate, which was not the case during 2015/16, the Council would require additional funds to set aside as an allowance.

- Earmarked reserves - The Council has a large number of earmarked reserves, which are reviewed annually to assess the expected year end balance. The expected reserve balances form part of the budget setting process. Although, the reserve levels are not prescribed, major variations could have an impact on service budgets as expected funds may not be available, which could lead to savings being required in year.
- Pensions liability - Estimation of the net liability to pay pensions depends on a number of complex judgments relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied. The effects on the net pensions liability of changes in individual assumptions can be measured. The assumptions interact in complex ways.
- Property, plant and equipment - Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. In the current economic climate there will be increased pressure on all budgets, leading to difficult choices which might result in the Council being less able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.

If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls. It is estimated that the annual depreciation charge for buildings would increase by £79,200 for every year that useful lives had to be reduced.

- Provisions for liabilities including restructuring, redundancy and onerous contracts - no provision is made for redundancies as sections have to meet the cost from within their own budgets. If there was the need to make redundancies and they could not be met from the service budget then it would impact on the general fund surplus. Any impact would have to be met from the following year. It could be significant if there were a large number.

This list does not include assets and liabilities that have been carried at fair value based on a recently observed market price.

## 5. Events after the balance sheet date

The statement of accounts was authorised for issue by the Director on 26 September 2016. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2016, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

## 6. Adjustments

### 6.1 Adjustments between group accounts and Council accounts

2014/15		2015/16
Group		Group
£000		£000
663	Share of AVE LLP loss/(profit) for the year	(201)
	- Aylesbury Vale Broadband Ltd loss for the year	190
	Novae Ltd profit for the year	(7)
<b>663</b>		<b>(18)</b>

## 6.2 Adjustments between accounting basis and funding basis under regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are made by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

The following sets out a description of the reserves against which the adjustments are made.

- **General fund balance**  
The general fund is the statutory fund into which all the receipts of the Council are required to be paid and out of which all liabilities of the Council are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the general fund balance, which is not necessarily in accordance with proper accounting practice. The general fund therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment.
- **Capital receipts reserve**  
The capital receipts reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historic capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year end.
- **Capital grants unapplied**  
The capital grants unapplied account holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

Council and group	2015/16

The following paragraphs provide an explanation of those reserves whose balance is in excess of £1 million or where it was felt reporting would be beneficial.

**(a) Amenity areas**

The Council has established a reserve to hold commuted sums and sums received by way of section 106 agreements. The sums are invested and the interest transferred to the general fund to meet on-going revenue costs.

**(b) Property sinking reserve**

The Council has established a property sinking fund for the purpose of meeting large maintenance and refurbishment costs associated with operational buildings, particularly the offices and the new theatre.

**(c) Information technology**

The Council has established a reserve for the purpose of meeting the cost of investment in new technology.

**(d) New homes bonus**

The Council has established a reserve from payments received from the Government. The new homes bonus payments are an incentive scheme aimed at encouraging authorities to increase housing supply through new build and returning empty properties to use. At its meeting of the 17 July 2013, the Council agreed to a £5.4 million contribution to the East/West rail link, which would be met from this reserve.

**(e) Interest equalisation reserve**

The Council has established a reserve for the purpose of maintaining the level of interest transferred to the general fund annually. The reserve helps to counteract any fluctuations in interest rates.

**(f) Planning reserves**

The Council has established a number of reserves for the purpose of meeting fees and costs associated with major planning enquiries.

**(g) Business rates reserve**

The Council has established a reserve to smooth out the fluctuations in the retained proportion of business rates arising from new government financing arrangements.

**(h) Superannuation reserve**

This reserve has been established for the purpose of meeting back funding contributions and pension strain costs in respect of deleted posts.

**(i) Repairs and maintenance (corporate property) reserve**

The Council maintains a reserve for the purpose of providing for the future refurbishment of general fund property assets. This reserve receives an annual contribution from the comprehensive income and expenditure account.

**(j) LABGI (local authority business growth incentive) reserve**

The Council has created a reserve from the grant income received from the DCLG pending the allocation to specific areas that have been identified within the district.

**(k) Benefit subsidy reserve**

The Council has established a reserve for the purpose of meeting fluctuations in respect of housing benefit subsidy. Additional year end subsidy received during the following year will be available to meet future fluctuations once the final benefit subsidy position is known.

**8. Other operating income and expenditure**

(9,157)	Non-ringfenced government grants (note 30)	(8,599)
(1,428)	Capital grants and contributions	(2,277)
<b>(28,342)</b>		<b>(29,450)</b>

**11. Property, plant and equipment****11.1 Measurement bases used**

The gross carrying amount of assets has been determined on the following bases:

- other land and buildings are included in the balance sheet at the lower of net current replacement cost and net realisable value.
- vehicles, plant and equipment are included in the balance sheet at historical cost.
- community assets are included in the balance sheet at historical cost.
- assets under construction are included in the balance sheet at historical cost.

**11.2 Depreciation methods used**

Depreciation is calculated on a straight line basis over the useful life of an asset

**11.3 Useful lives or depreciation rates used**

The useful life of an asset is the period over which it is expected to deliver productive benefit to the Council. The useful lives used for depreciating the various assets are:

<u>Class type</u>	<u>Useful life</u>
Surface car parks	20 - 34 years
Multi-storey car parks	26 - 50 years
Sports pavilions	10 - 28 years
Other public buildings	8 - 43 years
Waste Bins	7 years
Equipment	5 years
Vehicles	3 years

**11.4 Capital commitments**

The Council had no outstanding capital commitments at 31 March 2016.

The Council had no construction contracts in effect at 31 March 2016.

### 11.5 Effects of changes in estimates

Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Council will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.

If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls. It is estimated that the annual depreciation charge for buildings would increase by £79,200 for every year that useful lives had to be reduced.

### 11.6 Revaluations

The Council carries out a rolling programme that ensures that all property, plant and equipment required to be measured at fair value is revalued at least once every five years. Valuations of land and buildings are carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Valuations of University Campus Aylesbury Vale and Swan Pool were carried out by Mark Aldis BSc(Hons) M.R.I.C.S. of Wilks, Head and Eve as at 31 March 2016.

The significant assumptions applied in estimating the fair values are:

- operational assets – the total value has been apportioned between land and building parts, with the building representing the depreciable amount;
- specialised assets – where no market-based evidence exists to arrive at fair value, the depreciated replacement cost (DRC) approach has been used;
- land assets – these have been assessed to fair value having regard to the cost of purchasing notional replacement sites in the same locality;
- assets held for sale – these have been assessed to fair value on the basis of market value.

## 11.7 Movement on property, plant and equipment

**12. Investment properties**

The following items of income and expense have been accounted for in the financing and investment income and expenditure line in the comprehensive income and expenditure statement:

2014/15		2015/16	
Council and group		Council and group	
£000		£000	
	(2) Rental income from investment property		(6)
78	Direct operating expenses arising from investment property	54	
<b>76</b>		<b>48</b>	

There are no restrictions on the Council's ability to realise the value inherent in its investment property or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property or carry out repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment properties over the year:

31 March 2015		31 March 2016	
Council and group		Council and group	
£000		£000

## 17.3 Fair values of assets and liabilities

Financial liabilities, financial assets represented by loans and receivables and long-term debtors and creditors are carried in the balance sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions:

- no early repayment or impairment is recognised;
- where an instrument will mature in the next 12 months, the carrying amount is assumed to approximate to fair value;
- the fair value of trade and other receivables is taken to be the invoiced or billed amount.

31 March 2015		
Council and group		
Carrying amount	Fair value	
£000	£000	
<b>Financial assets</b>		
28,315	28,315	Long term debtors
34,132	34,097	Short term investments
7,965	7,965	Cash and cash equivalents
<b>70,412</b>	<b>70,377</b>	
<b>Financial liabilities</b>		
(9,999)	(9,999)	Long term creditors
(5,017)	(5,017)	Short term borrowing
(23,761)	(26,823)	Long term borrowing
<b>(38,777)</b>	<b>(41,839)</b>	

31 March 2016			
Council		Group	
Carrying amount	Fair value	Carrying amount	Fair value
£000	£000	£000	£000
43,652	43,652	43,471	43,471
32,569	33,106	32,569	33,106
9,074	9,074	9,095	9,095
<b>85,295</b>	<b>85,832</b>	<b>85,135</b>	<b>85,672</b>
(12,475)	(12,475)	(12,475)	(12,475)
-	-	-	-
(23,593)	(26,685)	(23,593)	(26,685)
<b>(36,068)</b>	<b>(39,160)</b>	<b>(36,068)</b>	<b>(39,160)</b>

Short term debtors and creditors are carried at cost as this is a fair approximation of their value.

## 18. Short term debtors

31 March 2015		31 March 2016	
Council and group		Council	Group
£000		£000	£000
3,721	Central government bodies	1,576	1,576

(2,013)	Provision for impairment of bad debts	(2,752)	(2,752)
<u><b>12,584</b></u>		<u><b>11,264</b></u>	<u><b>11,291</b></u>

## 19. Short term loans

During 2012/13, the Council granted a loan to Hale Leys LLP (a newly created, wholly owned subsidiary of AVE LLP) to facilitate the purchase of the Hale Leys shopping centre in Aylesbury. By supporting the acquisition the Council became joint owners of the shopping centre.

The dividend receivable from AVE LLP in respect of 2011/12, plus an additional repayment of capital during 2012/13 was converted into a short term loan during 2012/13. An amount payable by AVE LLP for the purchase of 28 High Street, Winslow of £120,000 was converted into a short term loan during 2013/14 as was the dividend receivable of £439,000. Similarly, the dividends receivable in respect of 2014/15 of £104,000 and 2015/16 of £77,000 were also converted into short term loans.

The balances outstanding at the end of the year are as follows:

31 March 2015		31 March 2016	
Council and group		Council and group	
£000		£000	
2,900	Hale Leys LLP	2,900

### 25.1 Revaluation reserve

The revaluation reserve contains the gains arising from increases in the value of its property, plant and equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost;
- used in the provision of services and the gains are consumed through depreciation; or
- disposed of and the gains are realised.

The reserve contains only revaluation gains accumulated since 1 April 2007, the date that the reserve was created. Accumulated gains arising before that date are consolidated into the balance on the capital adjustment account.

2014/15			2015/16	
Council	Group		Council	Group
£000	£000		£000	£000
(10,961)	(13,358)	Balance at 1 April	(13,554)	(17,451)

<b>(2,593)</b>	<b>(4,093)</b>	<b>Surplus on revaluation of non-current assets not posted to the deficit on the provision of services</b>	<b>(557)</b>	<b>(942)</b>
<b>(13,554)</b>	<b>(17,451)</b>	<b>Balance at 31 March</b>	<b>(14,111)</b>	<b>(18,393)</b>

## 25.2 Available for sale financial instruments reserve

The available for sale financial instruments reserve contains the gains arising from increases in the value of investments that have quoted market prices or otherwise do not have fixed or determinable payments. The balance is reduced when investments with accumulated gains are:

- revalued downwards or impaired and the gains are lost; or
- disposed of and the gains are realised.

Council and group		Council and group
£000		£000
(51)	Balance at 1 April	-
51	Downward revaluation of investments	-
-	<b>Balance at 31 March</b>	-

## 25.3 Capital adjustment account

The capital adjustment account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the comprehensive income and expenditure statement (with reconciling postings from the revaluation reserve to convert fair value figures to a historical cost basis). The account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The account contains accumulated gains and losses on investment properties and gains recognised on donated assets that have yet to be consumed by the Council.

The account also contains revaluation gains accumulated on property, plant and equipment before 1 April 2007, the date that the revaluation reserve was created to hold such gains. Note 6 provides details of the source of all the transactions posted to the account, apart from those involving the revaluation reserve.

2014/15			2015/16	
Council and group			Council and group	
£000	£000		£000	£000

	(1,320)			
	<b>(81,772)</b>	<b>Balance at 31 March</b>		<b>(72,454)</b>

#### 25.4 Deferred capital receipts reserve

The deferred capital receipts reserve holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements, the Council does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the capital receipts reserve.

2014/15			2015/16

#### 25.5 Pensions reserve

The pensions reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the comprehensive income and expenditure statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the pensions reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2014/15			2015/16	
Council and group			Council and group	
£000	£000		£000	£000
	73,064	Balance at 1 April		90,307
(7,406)		Return on plan assets in excess of interest	1,401	
21,591		Change in financial assumptions	(12,225)	
(32)		Experience gain on defined benefit obligation	(6)	
	14,153	Remeasurement of net defined benefit		(10,830)
	6,832	Reversal of items relating to retirement benefits debited or credited to the (surplus)/deficit on the provision of services in the comprehensive income and expenditure statement		7,310
	(3,742)	Employer's pensions contributions and direct payments to pensioners payable in the year		(3,854)
	<b>90,307</b>	<b>Balance at 31 March</b>		<b>82,933</b>

## 25.6 Collection fund adjustment account

The collection fund adjustment account manages the differences arising from the recognition of council tax income in the comprehensive income and expenditure statement as it falls due from council tax payers compared with the statutory arrangements for paying across amounts to the general fund from the collection fund.

2014/15			2015/16	
Council and group			Council and group	
£000	£000		£000	£000
	1,204	Balance at 1 April		597
		Amount by which council tax income and non domestic rates income credited to the comprehensive income and expenditure statement is different from council tax and non domestic rates income calculated for the year in accordance with statutory requirements		(212)
	<b>597</b>	<b>Balance at 31 March</b>		<b>385</b>

## 25.7 Accumulated absences account

The accumulated absences account absorbs the differences that would otherwise arise on the general fund balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the general fund balance is neutralised by transfers (to)/from the account.

2014/15			2015/16

	- Land Searches	(142)
	- Individual Elector Registration	(45)
(53)	Homelessness	-
90	Other	-
<b>(562)</b>		<b>(1,120)</b>

## 31. Amounts reported for resource allocation decisions

The analysis of income and expenditure by service on the face of the comprehensive income and expenditure statement is that specified by the *Service Reporting Code of Practice*. However, decisions about resource allocation are taken by the Council's cabinet on the basis of budget reports analysed across portfolios. These reports are prepared on a different basis from the accounting policies used in the financial statement. In particular:

- no charges are made in relation to costs incurred with respect to the Right Here, Right Now project or the Council's contribution to the HS2 fighting funds as these are to be funded from reserves.
- no charges are made for enabling grants paid.
- income and expenditure relating to town centre properties and industrial estates are included within portfolio spend, but are shown within other operating income and expenditure in the comprehensive income and expenditure statement.

The income and expenditure of the Council's principal portfolios recorded in the budget reports for the year is as follows:

2015/16								
Council and group								
	Business Transformation	Economic Development Delivery	Environment & Waste	Finance, Resources & Compliance	Growth Strategy	Leader	Leisure, Communities & Civic Amenities	Total
	£000	£000	£000	£000	£000	£000	£000	£000

<b>(5,381)</b>	<b>(497)</b>		<b>(6,078)</b>	<b>(1,026)</b>

**33. Members' allowances**

The Council paid the following amounts to members of the Council during the year:

2014/15		2015/16	
Council and group		Council and group	
£000		£000	
316	Salaries	322	
130	Allowances	123	
11	Travel and other allowances	10	
<b>457</b>		<b>455</b>	

**34. Officers' remuneration****34.1 Senior officers' remuneration**

There is a requirement to disclose the individual remuneration of senior officers (those whose remuneration is more than £50,000 and are a designated head of a paid service and/or have responsibility for the management of the Council). The following table sets out the remuneration for senior officers whose salary is above £50,000 or where employed during the financial year, for those earning more than £150,000 then they must be named. The remuneration paid to the Council's senior employees is as follows:

		2015/16		
		Council and group		
Identifier		Salary (including fees & allowances)	Pension contributions	Total remuneration including pension contributions
		£000	£000	£000
Chief Executive - A Grant	1	143	33	176
Corporate Director	2	82	19	101
Sector Lead - Commercial AVDC	3	68	16	84
Sector Lead - Commercial Property	4	68	16	84
Corporate Director	5	67	15	82
Sector Lead - Customer Fulfilment	6	62	14	76
Sector Lead - Business Strategy & Governance	7	60	14	74
Sector Lead - Community Fulfilment	8	58	13	71
Sector Lead - Commercial People/IP	9	54	12	66
Sector Lead - Business Support Development & Enablement	10	41	9	50
Deputy Chief Executive - Resigned	11	27	6	33
		<b>730</b>	<b>167</b>	<b>897</b>

		2014/15		
		Council and group		
Identifier		Salary (including fees & allowances)	Pension contributions	Total remuneration including pension contributions
		£000	£000	£000
Chief Executive - A Grant	1	148	34	182
Deputy Chief Executive	11	99	23	122
Corporate Director	2	76	17	93
Head of Service - Legal - Interim - Resigned		68	16	84
Head of Service - IT	3	67	15	82
Head of Service - Communications	4	66	15	81
Corporate Director	5	63	14	77
Head of Service - Facilities - Resigned		17	4	21
Head of Service - Planning - Resigned		9	2	11
		<b>613</b>	<b>140</b>	<b>753</b>

### 34.2 Officers' remuneration

The Council's other employees receiving more than £50,000 remuneration for the year (excluding employer's pension contributions) were paid the following amounts:

2014/15		2015/16	
Council and group		Council and group	
Number of employees		Number of employees	
16	£50,000 - £54,999	12	
8	£55,000 - £59,999	-	
-	£60,000 - £64,999	4	
2	£65,000 - £69,999	-	
-	£75,000 - £79,999	1	
<b>26</b>		<b>17</b>	

The number of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the table below:

	Number of compulsory redundancies		Total number of exit packages by cost band		Total cost of exit packages in each band	
	2014/15	2015/16	2014/15	2015/16	2014/15	2015/16
	Council and group		Council and group		Council and group	
				£000	£000	
£0 - £20,000	17	10	17	10	217	110
£20,001 - £40,000	8	6	8	6	233	182
£40,001 - £60,000	6	3	6	3	295	140
£60,001 - £80,000	1	-	1	-	75	-
£80,001 - £100,000	2	-	2	-	169	-
	<b>34</b>	<b>19</b>	<b>34</b>	<b>19</b>	<b>989</b>	<b>432</b>

**35. External audit costs**

The Council has incurred the following costs in relation to the audit of the statement of accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Council's external auditors:

2014/15 Council and group £000		2015/16 Council and group £000

**36. Leases****Council as lessee****36.1 Finance leases**

The Council has acquired a number of buildings under finance leases, the majority of which are at a peppercorn rent. The assets acquired under these leases are carried as property, plant and equipment in the balance sheet at the following net amounts:

31 March 2015 Council and group £000		31 March 2016 Council and group £000
6,480	Other land and buildings	6,274
<b>6,480</b>		<b>6,274</b>

**36.2 Operating leases**

The Council has acquired its fleet of refuse collection vehicles by entering into operating leases with typical lives of seven years.

The future minimum lease payments due under non-cancellable leases in future years are:

2014/15 Council and group £000		2015/16 Council and group £000
842	Not later than one year	864
1,677	Later than one year and not later than five years	836
<b>2,519</b>		<b>1,700</b>

The expenditure charged to the environmental and regulatory services line in the comprehensive income and expenditure statement during the year in relation to these leases was:

2014/15 Council and group £000		2015/16 Council and group £000
865	Minimum lease payments	841
<b>865</b>		<b>841</b>

## Council as lessor

## 36.3 Finance leases

The Council has leased out University Campus Aylesbury Vale to Buckinghamshire New University (BNU) on a finance lease with a remaining term of 35 years.

The Council has a gross investment in the lease, made up of the minimum lease payments expected to be received over the remaining term. At the end of the lease term ownership of the property transfers to BNU.

The minimum lease payments comprise settlement of the long term debtor for the interest in the property acquired by BNU and finance income that will be earned by the Council in future years whilst the debtor remains outstanding. The gross investment is made up of the following amounts:

31 March 2015		31 March 2016	
Council and group		Council and group	
£000		£000	
Finance lease debtor (net present value of minimum lease payments):			
• Current			
			209
- • Non current			
			15,368
- Unearned finance income			
			14,405
<hr/>			
			29,982
<hr/>			

The gross investment in the lease and the minimum lease payments will be received over the following periods:

31 March 2015		31 March 2016	
Council and group		Council and group	
Gross investment in lease	Minimum lease payments	Gross investment in lease	Minimum lease payments
£000	£000	£000	£000
-	-	(879)	(209)
-	-	(3,517)	(930)
-	-	(25,586)	(14,438)
<hr/>		<hr/>	
-	-	(29,982)	(15,577)
<hr/>		<hr/>	

## 36.4 Operating leases

The Council leases out property under operating leases for the following purposes:

- for the provision of community services, such as sports facilities, tourism services and community centres.
- for economic development purposes to provide suitable affordable accommodation for local businesses.

The future minimum lease payments receivable under non-cancellable leases in future years are:

2014/15		2015/16	
Council and group		Council and group	
£000		£000	
(1,000)	Not later than one year	(1,367)	
(4,836)	Later than one year and not later than five years	(6,117)	
(7,199)	Later than five years	(11,857)	
<hr/>		<hr/>	
<b>(13,035)</b>		<b>(19,341)</b>	
<hr/>		<hr/>	

The minimum lease payments do not include rents that are contingent on events taking place after the lease was entered into.

**37. Capital expenditure and capital financing**

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the capital financing requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed.

<b>2014/15</b>		<b>2015/16</b>
<b>Council and group</b>		<b>Council and group</b>
£000		£000
30,976	<b>Opening capital financing requirement</b>	37,365
	<b>Capital investment</b>	
60	Property, plant and equipment	2,411
8,533	Assets under construction	6,083
-	- Long term investments	(1)
4,588	Revenue expenditure funded from capital under statute	385
	<b>Sources of finance</b>	
(4,164)	Capital receipts	(5,785)
(1,253)	Government grants and other contributions	(3,039)
(55)	Other	-
	Sums set aside from revenue:	
(1,320)	Minimum revenue provision	(1,536)
<b>37,365</b>	<b>Closing capital financing requirement</b>	<b>35,883</b>
	<b>Explanation of movements in year</b>	
6,389	Increase in underlying need to borrow (unsupported by government financial assistance)	(1,482)
<b>6,389</b>	<b>Increase in capital financing requirement</b>	<b>(1,482)</b>

**38. Defined benefit pension schemes****38.1 Participation in pensions schemes**

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement.

The Council participates in two post-employment schemes:

- The Local Government Pension Scheme, administered locally by Buckinghamshire County Council – this is a funded defined benefit final salary scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.
- Arrangements for the award of discretionary post-retirement benefits upon early retirement – this is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these pension liabilities, and cash has to be generated to meet actual pensions payments as they eventually fall due.

**38.2 Transactions relating to post-employment benefits**

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the general fund via the movement in reserves statement.

The following transactions have been made in the comprehensive income and expenditure statement and the general fund balance via the movement in reserves statement during the year:

	Local government pension scheme		Discretionary benefits arrangements	
	2014/15	2015/16	2014/15	2015/16
	Council and group		Council and group	
	£000	£000	£000	£000
Cost of services:				
• service cost	3,616	4,301	-	-
Financing and investment income and expenditure				
• net interest on the defined liability	3,138	2,931	-	-
Administration expenses	78	78	-	-
<b>Total post employment benefit charged to the comprehensive income and expenditure statement</b>	<b>6,832</b>	<b>7,310</b>	<b>-</b>	<b>-</b>
Movement in reserves statement				
• reversal of net charges made to surplus or deficit for the provision of services for post employment benefits in accordance with the code	(6,832)	(7,310)	-	-
Actual amount charged against the general fund balance for pensions in the year:				
• employers' contributions payable to scheme	3,379	3,510	-	-
• retirement benefits payable to pensioners	-	-	363	344

The cumulative amount of actuarial gains and losses recognised in the comprehensive income and expenditure statement during 2015/16 is a loss of £24,063,000 (a loss of £34,893,000 during 2014/15).

### 38.3 Assets and liabilities in relation to post-employment benefits

Reconciliation of the present value of the scheme liabilities (defined benefit obligation):

	Funded liabilities		Unfunded liabilities: discretionary benefits arrangements	
	2014/15	2015/16	2014/15	2015/16
	Council and group		Council and group	
	£000	£000	£000	£000

	<b>85,942</b>	<b>17,307</b>	<b>103,249</b>		<b>84,893</b>	<b>18,334</b>	<b>103,227</b>	

### 38.4 Basis for estimating assets and liabilities

Liabilities have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels etc. The local government pension scheme liabilities have been assessed by Barnett Waddingham, an independent firm of actuaries, estimates being based on the latest full valuation of the scheme as at 31 March 2016.

The significant assumptions used by the actuary have been:

2014/15 Council and group		2015/16 Council and group
	<b>Mortality assumptions</b>	
	<b>Longevity at 65 for current pensioners:</b>	
23.7	Men	23.8
26.1	Women	26.2
	<b>Longevity at 65 for future pensioners:</b>	
26.0	Men	26.1
28.4	Women	28.5
2.4%	Rate of Inflation	2.3%
4.2%	Rate of increase in salaries	4.1%
2.4%	Rate of increase in pensions	2.3%
3.3%	Rate for discounting scheme liabilities	3.6%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analysis below has been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

	Increase in assumption	Decrease in assumption
	Council and group	
	£000	£000
Rate for discounting scheme liabilities (increase or decrease by 0.1%)	(3,279)	3,341
Rate of increase in salaries (increase or decrease by 0.1%)	344	(342)
Rate of increase in pensions (increase or decrease by 0.1%)	3,036	(2,981)
Longevity (increase or decrease by 1 year)	5,871	(5,687)

### 38.5 Impact on the Council's cash flows

The liabilities show the underlying commitments that the Council has in the long run to pay post-employment (retirement) benefits. The total liability of £82,933,000 has a substantial impact on the net worth of the Council as recorded in the balance sheet. However, statutory arrangements for funding the deficit mean that the financial position of the Council remains healthy:

- the deficit on the local government scheme will be made good by increased contributions over the remaining working life of employees (i.e. before payments fall due), as assessed by the scheme actuary
- finance is only required to be raised to cover discretionary benefits when the pensions are actually paid.

The total contributions expected to be made to the local government pension scheme by the Council in the year to 31 March 2017 is £3,635,000.

## 38.6 Scheme history

	2011/12	2012/13	2013/14	2014/15	2015/16
	Council and group				
	£000	£000	£000	£000	£000
<b>Present value of liabilities</b>					
Local government pension scheme	148,598	162,752	171,170	197,718	190,044
Discretionary benefits	(673)	(924)	(3,992)	(4,162)	(3,884)
<b>Fair value of assets in the local government pension scheme</b>	(79,498)	(94,107)	(94,114)	(103,249)	(103,227)
<b>(Surplus)/deficit in the scheme:</b>					
• local government pension scheme	69,100	68,645	77,056	94,469	86,817
• discretionary benefits	(673)	(924)	(3,992)	(4,162)	(3,884)
<b>Total</b>	<b>68,427</b>	<b>67,721</b>	<b>73,064</b>	<b>90,307</b>	<b>82,933</b>

## 38.7 History of experience gains and losses

The actuarial gains identified as movements on the pensions reserve in 2015/16 can be analysed into the following categories, measured as a percentage of assets or liabilities at 31 March 2016:

	2011/12	2012/13	2013/14	2014/15	2015/16
	Council and group				
	%	%	%	%	%
Differences between the expected and actual return on assets	(10.72)	11.75	2.61	11.14	1.91
Experience gains and losses on liabilities	-	(0.81)	6.88	0.02	-

## 39. Nature and extent of risks arising from financial instruments

The Council's activities expose it to a variety of financial risks:

- credit risk – the possibility that other parties might fail to pay amounts due to the Council.
- liquidity risk – the possibility that the Council might not have funds available to meet its commitments to make payments.
- market risk – the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates and stock market movements.

The Council's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. Risk management is carried out by a central treasury team, under policies approved by the Council. The Council provides written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk and the investment of surplus cash.

## 39.1 Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

This risk is minimised through the annual investment strategy, which requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, as laid down by Fitch and Moody's Ratings Services. The annual investment strategy also imposes a maximum sum to be invested with a financial institution located within each category.

The credit criteria in respect of financial assets held by the Council are as detailed below:

The objective of the Council's treasury management policy is that it matches or betters the "average 7 day rate" for interest earned on investments whilst at all times protecting the Council's capital balances.

Investments are limited to the top 25 building societies together with UK banks and are only made to those institutions with high credit ratings and never for more than one year. A high credit rating is defined for this purpose as those banks or building societies with a short term rating of (A) or better according to the Fitch and Moody's Rating Services. Those building societies without Fitch ratings but ranked within the top 25 by size are also classed as prudent counterparties for investments purposes. Under the Local Government Act 2003 these are classed as non-specified institutions and should only be included on the Authorised Lending List after additional assurance has been obtained. Aylesbury Vale District Council imposes the additional condition that no investment should exceed 182 days with a non-specified institution and that the maximum amount lent to any single institution should not exceed £3 million if the assets of the organisation are more than £1 billion and £1 million if its assets are more than £½ billion.

No more than 70% of the Council's total investments should be invested with building societies without credit ratings.

Where possible, Aylesbury Vale District Council will further seek to reduce counterparty risk by placing investments with other local authorities and nationalised institutions. As these are ultimately backed by either the government or through taxation these are deemed to offer higher security than that offered at present by the financial sector. This strategy is limited by the need for these organisations to be seeking funding which coincides with our need to lend.

Customers for goods and services are assessed, taking into account their financial position, past experience and other factors, with individual credit limits being set in accordance with internal ratings with parameters set by the Council.

The Council's maximum exposure to credit risk in relation to its investments in banks and building societies of £32,569,000 cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Council's deposits, but there was no evidence at 31 March 2016 that this was likely to crystallise.

The following analysis summarises the Council's potential maximum exposure to credit risk on other financial assets, based on experience of default and uncollectability over the last five financial years, adjusted to reflect current market conditions.

<b>Council and group</b>						
	<b>Amount at 31 March 2016</b>	<b>Historial experience of default</b>	<b>Historial experience adjusted for market conditions at 31 March 2016</b>	<b>Estimated maximum exposure to default and uncollectability at 31 March 2016</b>	<b>Estimated maximum exposure at 31 March 2015</b>	<b>Estimated maximum exposure at 1 April 2014</b>
<u>Counterparty Rating</u>	£000	%	%	£000	£000	£000
	A	B	C	(A+C)		
AA-	2,505	0.001	0.001	-	0	0
A	13,035	0.017	0.017	2.2	2.5	2.4
A-	-	-	-	-	1.4	-
BBB+	2,003	0.031	0.031	0.6	-	-
BBB	3,005	0.031	0.031	0.9	0.7	-
BBB-	3,007	0.008	0.008	0.2	2.3	-
BB+	3,006	0.414	0.414	12.5	5.8	20.2
B+	3,004	1.741	1.741	52.3	-	-
B	-	-	-	-	8.8	50.2
Other rated	3,004	-	-	-	12.5	18.8
Customers	5,060	5.000	5.000	253.0	144.0	139.3
	<b>37,629</b>			<b>321.7</b>	<b>178.0</b>	<b>230.9</b>

No credit limits were exceeded during the reporting period and the Council does not expect any losses from non-performance by any of its counterparties in relation to deposits and customers.

The Council does not generally allow credit for customers, such that £4,505,000 of the £5,060,000 balance is past its due date for payment. The past due but not impaired amount can be analysed by age as follows:

31 March 2015		31 March 2016
<b>Council and group</b>		<b>Council and group</b>
£000		£000
495	Less than three months	670
223	Three to six months	917
206	Six months to one year	888
1,077	More than one year	2,030
<b>2,001</b>		<b>4,505</b>

### 39.2 Liquidity risk

The Council manages its liquidity position through the risk management procedures above as well as through cash flow management procedures required by the Code of Practice. In the event of an unexpected cash requirement the Council has ready access to borrowings from the money markets to cover any day to day cash flow need. The Council is also required to provide a balanced budget through the Local Government Act 1992, which ensures sufficient monies are raised to cover the annual expenditure. Therefore, there is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

All trade and other payables are due to be paid in less than one year.

### 39.3 Market risk

#### 39.3.1 Interest rate risk

The Council is exposed to risk in terms of its exposure to interest rate movements on its investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in interest rates would have the following effects:

- investments at variable rates – the interest income credited to the surplus or deficit on the provision of services will rise
- investments at fixed rates – the fair value of the assets will fall.

Changes in interest payable and receivable on variable rate investments will be posted to the (surplus)/deficit on the provision of services or other comprehensive income and expenditure lines and affect the general fund balance, subject to influences from government grants. Movements in the fair value of fixed rate investments will be reflected in the other comprehensive income and expenditure line.

The Council has strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the Council's prudential indicators and its expected treasury operations, including an expectation of interest rate movements. From this a prudential indicator is set which provides maximum and minimum limits for fixed and variable interest rate exposure. The treasury team will monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance, during periods of falling interest rates, fixed rate investments may be taken for longer periods to secure better long term returns.

The treasury management team has a strategy for assessing interest rate exposure that feeds into the setting of the annual budget and which is used to update the budget quarterly during the year. This allows any adverse changes to be accommodated. According to this assessment strategy, at 31 March 2015, if interest rates had been 0.25% higher with all other variables held constant, the financial effect would be:

	<b>Council and group</b>
	£000
Increase in interest receivable on variable rate loans	1,532
Increase in interest receivable on variable rate investments	28
Impact on surplus or deficit on the provision of services	<b>1,560</b>
Decrease in fair value of fixed rate borrowings liabilities (no impact on the surplus or deficit on the provision of services or other comprehensive income and expenditure)	14

The impact of a 0.25% fall in interest rates would mean that no interest would have been received.

### 39.3.2 Price risk

The Council does not invest in equity shares and is not exposed to losses arising from movements in the prices of the shares.

### 39.3.3 Foreign exchange risk

The Council has no financial assets or liabilities denominated in foreign currencies and thus has no exposure to loss arising from movements in exchange rates.

### 39.4 Environmental risk

The Council has taken out a rolling 10 year environmental warranty to safeguard against the risk of contaminated land that was transferred to the Vale of Aylesbury Housing Trust as part of the stock transfer. The risk of having to make use of the warranty is minimal.

## 40. Contingent liabilities

A contingent liability is a potential liability which depends on the occurrence or non occurrence of one or more uncertain future events. The Council has identified the following contingent liabilities as at 31 March 2016.

- NNDR appeals – The Council has made a provision for NNDR appeals based upon its best estimates of the actual liability as at the year end in known appeals. It is not possible to quantify appeals that have not yet been lodged with the Valuation Office so there is a risk to the Council that national and local appeals may have a future impact on the accounts.
- Refund of fees paid - A group of property search companies which were seeking to claim refunds of fees paid to the Council to access land charges data have been successful. The Council has paid £159,000 to settle the claim. This amount includes interest and costs. The claimants have also intimated that they may bring a claim against all English and Welsh local authorities for alleged anti-competitive behaviour. It is not clear what the value of any such claim would be against the Council. It is possible that additional claimants may come forward to submit claims for refunds, but none have been intimated at present.

## 41. Contingent assets

A contingent asset is an asset that may be received but only if a future event occurs that is not under the control of the Council. At 31 March 2016, the Council had no material contingent assets.

## 42. Related party transactions

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

**Central government**

Central government has effective control over the general operations of the Council – it is responsible for providing the statutory framework within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. council tax bills, housing benefits). Grants received from government departments are set out in the subjective analysis in Note 31 on reporting resources allocation decisions. Grant receipts outstanding at 31 March 2016 are shown in Note 30.

**Members**

Members of the Council have direct control over the Council's financial and operating policies. The total of members' allowances paid in 2015/16 is shown in Note 33. A review has been made of the Register of Members' Interests and of declarations of interests made by members during the year. In addition, members have been requested to sign a form declaring whether there were any related party transactions during the year. Councillors Michael Collins, Tuffail Hussain, Roger King, Edward Sims and Mark Winn have failed to make a return. No works and services were commissioned from companies in which members had an interest. Details of any declarations are recorded in the Register of Members' Interests, which is open to public inspection at The Gateway Offices, Gatehouse Road during office hours.

**Joint venture**

The Council has a 50% interest in Aylesbury Vale Estates LLP. Relevant transactions are disclosed within note 14 (investments) and note 15 (long term debtors) to the balance sheet. The accounts of the joint venture have been consolidated with the overall Council accounts in the group financial statements.

**Subsidiaries**

The Council partly or wholly owns a number of companies, all of which have the common goal of producing overall benefits for the residents and businesses of the vale.

The companies in which the Council have an interest are set out in the following table:

Company Name	Council Share	Company Status	Purpose
Aylesbury Vale Estates LLP	50%	Joint Venture	Managing our commercial estate
Aylesbury Vale Broadband Ltd	95%	Subsidiary	Delivering broadband in our more rural areas
Novae Consulting Ltd	100%	Subsidiary	Delivering our commercial consultancy work
Vale Commerce Ltd	100%	Subsidiary	Delivering the commercial ambitions of the Council under the brands of Incgen and Limecart

The accounts of the subsidiaries have been consolidated with the overall Council accounts in the group financial statements.

**Local enterprise partnerships**

The Council is a member of both the South East Midlands LEP (SEMLEP) and the Buckinghamshire Thames Valley LEP (BTVLEP). This puts the Council in a strong position to influence economic growth and ensures there is LEP impact in the vale, benefiting the Council's communities. During the year, the Council made a contribution to SEMPLEP of £7,000.

**Shared procurement partnership**

The Council is in partnership with Improvement and Efficiency South East (IESE), a special purpose vehicle established to deliver savings through improved procurement. Each year the Council makes a contribution to IESE of £75,000.

**Bucks Advantage**

Bucks Advantage is the local delivery vehicle for the Vale, jointly owned by the Council and Buckinghamshire County Council, and covers the BTVLEP area. No contribution was made during the year, although the Council processes payments on their behalf for which it is reimbursed on a quarterly basis.

**Aylesbury Vale Local Strategic Partnership**

Aylesbury Vale Local Strategic Partnership focuses on those community engagement activities not actioned by other bodies. No contribution was made during the year.

## Collection fund

The collection fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate collection fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the government of council tax and non-domestic rates.

## Notes to the collection fund

### C1. General

The collection fund is an agent's statement that reflects the statutory obligation of billing authorities to maintain a separate collection fund. The statements shows the transactions of the billing authority in relation to the collection form taxpayers of council tax and national non-domestic rates (NNDR) and its distribution to local government bodies and the government.

The Council has a statutory requirement to operate a collection fund as a separate account to the general fund. The purpose of the collection fund therefore is to isolate the income and expenditure relating to council tax and NNDR. The administrative costs associated with the collection process are charged to the general fund.

Collection fund surpluses declared by the billing authority in relation to council tax are apportioned to the relevant precepting bodies in the subsequent financial year. Deficits likewise are proportionately charged to the relevant precepting bodies in the following year. For Aylesbury, the council tax precepting bodies are Buckinghamshire County Council (BCC), Thames Valley Police Authority (TVPA) and Buckinghamshire and Milton Keynes Fire and Rescue Authority (BMKFRA).

In 2013/14, the local government finance regime was revised with the introduction of the retained business rates scheme. The main aim of the scheme is to give Councils a greater incentive to grow businesses in their area. It does, however, also increase the financial risk due to non-collection and the volatility of the NNDR tax base.

The scheme allows the Council to retain a proportion of the total NNDR received. Aylesbury Vale District Council's share is 40% with the remainder paid to our precepting bodies, central government 50%, BCC 9% and BMKFRA 1%.

NNDR surpluses declared by the billing authority in relation to the collection fund are apportioned to the relevant precepting bodies in the subsequent financial year in their respective proportions. Deficits likewise are proportionately charged to the relevant precepting bodies in the following year.

The national code of practice followed by local authorities in England stipulates that a collection fund income and expenditure account is included in the Council's financial statements. The collection fund balance sheet meanwhile is incorporated into the Council's consolidated balance sheet.

### C2. Calculation of council tax

Council tax derives from charges raised according to the value of residential properties, which have been classified into 9 valuation bands (A\* - H) for this specific purpose. Individual charges are calculated by estimating the amount of income required to be taken from the collection fund by the Council for the forthcoming year and dividing this by the council tax base (i.e. the equivalent number of band D dwellings).

The council tax base for 2015/16 was 67,902 (2014/15: 65,853). The tax base was approved under delegated authority by the Cabinet Member for Resources and was calculated as follows:

2014/15				2015/16		
Number of chargeable homes less exemptions and discounts	Factor	Band D equivalents	Band	Number of chargeable homes less exemptions and discounts	Factor	Band D equivalents
6	5/9	3	A*	7	5/9	4
2,456	6/9	1,637	A	2,577	6/9	1,718
10,428	7/9	8,111	B	10,903	7/9	8,480
19,541	8/9	17,370	C	20,116	8/9	17,881
11,807	9/9	11,807	D	12,231	9/9	12,231
9,945	11/9	12,155	E	10,154	11/9	12,410
7,106	13/9	10,264	F	7,170	13/9	10,357
5,626	15/9	9,377	G	5,666	15/9	9,443
363	18/9	726	H	359	18/9	718
<u>67,278</u>		<u>71,450</u>		<u>69,183</u>		<u>73,242</u>
		(717)	Allowance for non-collection			(1,172)
		(4,880)	Council tax support scheme			(4,168)
		<u>65,853</u>	<b>Council tax base</b>			<u>67,902</u>

### C3. Non-domestic rates

The Council collects national non-domestic rates (NNDR) for its area based on local rateable values provided by the Valuation Office Agency (VOA) multiplied by a uniform business rate set nationally by central government. In previous financial years the total amount due, less certain allowances, was paid to a central pool (the NNDR pool) administered by central government, which, in turn, paid to local authorities their share of the pool, such shares being based on a standard amount per head of the local adult population.

In 2013/14, the administration of NNDR changed following the introduction of a business rates retention scheme which aims to give Councils a greater incentive to grow businesses in their area but also increases the financial risk due to volatility and non-collection of rates. Instead of paying NNDR to the central pool, local authorities retain a proportion of the total collectible rates due. Aylesbury Vale District Council's share is 40% with the remainder paid to our precepting bodies, central government 50%, BCC 9% and BMKFRA 1%.

The business rates shares payable for 2015/16 were estimated before the start of the financial year as £24,183,000 to central government, £4,353,000 to BCC, £484,000 to BMKFRA and £19,347,000 to Aylesbury Vale District Council. These sums have been paid in 2015/16 and charged to the collection fund in the year.

When the scheme was introduced, central government set a baseline level for each authority identifying the expected level of retained business rates and a top-up or tariff amount to ensure that all authorities receive their baseline amount. Tariffs due from authorities payable to central government are used to finance the top-ups to those authorities who do not achieve their targeted baseline funding. In this respect, Aylesbury Vale District Council paid a tariff of £16,022,000 from the general fund in 2015/16.

In addition to the local management of business rates, authorities are expected to finance appeals made in respect of rateable values as defined by VOA and hence business rates outstanding as at 31 March 2016. As such, authorities are required to make a provision for these amounts. Appeals are charged and provided for in proportion of the precepting shares. The total provision charged to the collection fund for 2015/16 has been calculated as £288,000 (2014/15: £0).

The total non-domestic rateable value at 31 March 2016 was £130,075,176 (31 March 2015: £130,470,959). The national non-domestic rate multiplier for the year was 48.0p for small businesses (2014/15: 47.1p) and 49.3p for all other businesses (2014/15: 48.2p).

### C4. Contribution to collection fund surpluses and deficits

The Council has a statutory requirement to prepare an estimate each January of the surplus or deficit expected to arise at the end of the financial year. In January 2015 it was estimated that the collection fund would have a surplus of £2,552,000, which was payable during 2015/16.

**Accrual**

Income and expenditure are shown in the accounts as sums due to and from the Council during the year when they are earned or incurred and not when the money is received or paid.

**Budget**

A budget is a financial statement that expresses the Council's service delivery plans and capital programme in monetary terms.

**Capital expenditure**

Expenditure on the acquisition of a fixed asset that will be used to provide services beyond the current accounting period or expenditure that adds value to an existing asset.

**Capital programme**

This is a financial summary of the capital projects that Aylesbury Vale District Council intends to carry out over a specified period of time.

**Capital receipt**

The proceeds from the sale of land or property. Capital receipts can be used to finance new capital expenditure but cannot be used to fund revenue expenditure.

**CIPFA**

This is the Chartered Institute of Public Finance and Accountancy.

**Collection fund**

A separate fund recording the expenditure and income relating to council tax and non-domestic rates.

**Community assets**

This is land and property that Aylesbury Vale District Council intends to hold forever. It generally has no determinable useful life and there is often a restriction regarding its sale.

**Contingent liability**

A sum due to be paid which may arise in the future but which cannot be determined in advance.

**Council tax**

This is one of the main sources of income to the Council. Council tax is levied on households within its area by the billing authority and the proceeds are paid into the collection fund for distribution to precepting authorities and for use by the billing authority's own general fund.

**Creditor**

This applies to money the Council owes to third parties for goods and services it has received but not paid for at the end of the accounting period.

**Debtor**

This applies to money that is owed to the Council from third parties for goods and services it has provided but not yet been paid for at the end of the accounting period.

**Depreciation**

This is a charge made to the revenue account each year that reflects the reduction in value of fixed assets used to deliver services.

**Exceptional items**

Material items which derive from events or transactions that fall within the normal activities of the Council and which need to be disclosed separately by virtue of their size or incidence to give fair presentation to the accounts.

**Extraordinary items**

Material items possessing a high degree of abnormality which derive from events or transactions that fall outside the normal activities of the Council and which are not expected to recur.

**Finance lease**

This is a lease, usually of buildings, which is treated as capital borrowing.

**Fixed assets**

Tangible assets that yield benefits to the Council and its services for a period of more than one year.

**Government grants**

Grants made by the central government towards either revenue or capital expenditure to help with the costs of providing services and capital projects. Some government grants have restrictions on how they may be used whilst others are general purpose.

**Gross expenditure**

The total cost of providing the Council's services before taking into account income from fees, charges and government grants.

**Housing benefits**

This is the national system for giving financial assistance to individuals towards certain housing costs. The cost of the service is subsidised by central government.

**Impairment**

This is a reduction in the value of a fixed asset as shown in the balance sheet to reflect its true value.

**Income**

This is the money that the Council receives or expects to receive from any source; fees, charges, sales, grants and interest.

**Infrastructure assets**

Inalienable fixed assets, expenditure on which is recoverable only by continued use of the asset created e.g. pedestrianisation.

**Intangible assets**

These are non-financial fixed assets that do not have any physical substance but are identifiable and are controlled by the Council through custom or legal rights e.g. computer software.

**Inventories**

These are items of stores that the Council has bought to use on a continuing basis but has not yet used.

**Liability**

A liability arises when the Council owes money to others and it must be included in the financial statements. There are two types of liability:

- a current liability is a sum of money that will or might be payable during the next accounting period e.g. creditors or cash overdrawn.
- a deferred liability is a sum of money that will not be payable until some point after the next accounting period or is paid off over a number of accounting periods.

**Local services support grant**

A general grant paid by central government to local authorities as a contribution towards the cost of their services.

**Long term investments**

Long term investments are investments intended to be held for use on a continuing basis in the activities of the Council. They should be classified as long term only where an intention to hold the asset for longer than one year can be clearly demonstrated.

**National non-domestic rate (NNDR)**

A levy on businesses, based on a national rate in the pound set by the government multiplied by the 'rateable value' of the premises they occupy. NNDR is collected by Aylesbury Vale District Council on behalf of central government and paid into a national 'pool'. The 'pool' is then redistributed among all local authorities and police authorities on the basis of population.

**Operating lease**

This is a lease where ownership of the fixed asset remains with the lessor.

**Property, plant and equipment assets**

These are fixed assets owned by the Council and used or consumed in the direct delivery of services.

**Precept**

The levy made by precepting authorities on billing authorities, requiring the latter to collect income from council tax payers on their behalf. Precepts are paid from the collection fund.

**Provision**

This is a sum of money that has been put aside in the accounts for liabilities or losses that are due but where the amount due or timing of the payment is not known with any certainty.

**Rateable value**

The annual assumed rental value of a property that is used for business purposes.

**Reserves**

A reserve results from an accumulation of surpluses, deficits and appropriations over past years. Reserves of a revenue nature are available and can be spent or earmarked at the Council's discretion.

**Revenue expenditure**

The day to day expenses associated with the provision of services.

**Revenue expenditure funded from capital under statue**

This is capital expenditure that does not create an asset that belongs to the Council. The value is written off to revenue in the year. An example of this type of expenditure is an improvement grant to another organisation.

**Useful life**

This is the period over which an organisation will derive benefits from the use of a fixed asset.

# **ANNUAL GOVERNANCE STATEMENT**

**APRIL 2015 – MARCH 2016**

## 1. Scope of Responsibility

Aylesbury Vale District Council (AVDC) is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. Aylesbury Vale District Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, Aylesbury Vale District Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, which includes arrangements for the management of risk.

Aylesbury Vale District Council's arrangements for ensuring good corporate governance are embedded in its constitution, policies and procedures. It has not approved and adopted a separate single code of corporate governance. However the principles to which the Council operates are intended to be consistent with those contained in the CIPFA / SOLACE Framework *Delivering Good Governance in Local Government*. Copies of the Council's principal policies and codes of practice can be consulted on its website ([www.aylesburyvaledc.gov.uk](http://www.aylesburyvaledc.gov.uk)). A list of the more significant documents is attached at Appendix A.

This statement explains how Aylesbury Vale District Council has complied with the principles of corporate governance and also meets the requirements of regulations 4(2) and 4(3) of the Accounts and Audit Regulations, which requires all relevant bodies to prepare an annual governance statement in accordance with proper practices in relation to internal control.

## 2. The Purpose of the Governance Framework

The governance framework comprises the systems, processes, culture and values, by which the authority is directed and controlled and its activities through which it accounts to, engages with and leads the community. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an on-going process designed to identify and prioritise the risk to the achievement of Aylesbury Vale District Council's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

## 3. The Governance Framework

The governance framework has been in place at Aylesbury Vale District Council for the year ended 31 March 2016 and up to the date of approval of the Annual Governance Report and Statement of Accounts.

### 3.1. Identifying, Communicating and Reviewing the Council's Vision

Aylesbury Vale District Council's statement of its long-term vision for the Vale:

*"To secure the economic, social and environmental wellbeing of the people and businesses in the area."*

To enable the Council to realise this vision, the focus is on working:

- To enable essential infrastructure for growth and sustainability of the area be it physical or social
- To ensure fair and speedy access to essential services and their referral to partners
- To provide a healthy and dynamic institution for making effective decisions about the area, to which everyone can contribute
- To stimulate, innovate and enable economic growth of the area, its regeneration and the attraction of inward investment
- To provide or commission services and products that customers and businesses have agreed add value to their lives

The Council has an ambitious agenda to meet the financial pressures facing the public sector and is committed to supporting the local economy and transforming the district through its Commercial AVDC programme. Key Plans include:

- Medium Term Financial Plan 2015/16-2019/20
- Commercial AVDC Business Transformation Programme
- Capital Programme
- Housing and Homeless Strategy 2014-2017
- Vale of Aylesbury Local Plan (under development)

### **3.2. Ensuring Effective Management of Change and Transformation**

The approach adopted to achieve organisational change is through the Commercial AVDC programme. This will see each service fundamentally reviewed in terms of what is delivered, to whom, by who, at what cost and what the recipient should be expected to pay for it.

The work being undertaken within the Commercial AVDC programme is being overseen and directed by the Cabinet member for Business Transformation and is being subjected to scrutiny by Finance and Services Scrutiny Committee. To ensure greater accountability, a separate Programme Board has been established and meets regularly.

### **3.3. Measuring the Quality of Services for Users and Value for Money**

Projected budgetary pressure resulting from the Government's public sector efficiency agenda have made reduction of the Council's cost base through either efficiency, cuts or by increasing its income, the top strategic priority. The extent of the reduction in available funding is predicted to be such that this will fundamentally reshape the size and structure of the organisation. The Council is currently undertaking a review of Business Intelligence and Performance Management systems to ensure they are aligned to the changing organisational structure and priorities.

The Council has a sound understanding of its costs and performance and the factors influencing these. Cost and performance information is used in financial and service planning to make policy and service provision decisions and to identify efficiency savings.

The Council regularly reviews costs to assess whether they are commensurate with the range, level and quality of services provided. It actively seeks and evaluates new ways of delivering services to achieve efficiencies and works with partners and other service providers to compare and evaluate processes, costs and outcomes.

Managers and budget holders are able to access financial reports through the finance system. Summary reports are prepared for Corporate Board and Members. These show current expenditure, forecast predicted outturn for the year and highlight any areas where unexpected variances are apparent.

To promote best practice and value for money in procurement, the Council has entered into a joint arrangement with Improvement and Efficiency Social Enterprise' (iESE). iESE is a sector wide organisation with considerable cross cutting experience and knowledge of various procurement approaches. The performance of this arrangement is being kept under review by the Finance and Services Scrutiny Committee.

### **3.4. Roles and Responsibilities of Members and Officers**

The Council's Constitution sets out the roles of and relationships between the full Council, the Cabinet and Scrutiny and other Committees in the policy and decision making process and sets out their legal requirements. It also sets out a record of what responsibility each Council body or individual has for particular types of decisions or for decisions relating to particular areas or functions. The Constitution requires that all decisions taken by or on behalf of the Council will be made in accordance with the principles set out in the Constitution. The Leader is responsible for determining the scheme of delegation for executive functions which is included in the Constitution.

The Cabinet structure and the membership of the committees was reviewed following the May 2015 elections having regard to the political balance rules and some changes were made. The effect of which was to consolidate some of the portfolios resulting in a reduction of Cabinet Members from eight to seven. The Leader intends to keep the individual workloads under review, but at present is satisfied with the current arrangements.

To encourage participation and accountability one hour is set aside for questions from members at every ordinary meeting of the full Council. There is also provision for public participation at meetings and a facility for the public to make statements relevant to a matter on the agenda at Council, Cabinet and other committees. Full Council meetings and Strategic Development Management Committee are now webcast.

The Constitution sets out how the public can access the decision making process. Cabinet publishes a plan 28 days before each meeting setting out key decisions to be taken at the meeting. Notice is also given of the intention to hold a meeting or part of a meeting in private to enable confidential or exempt information to be discussed.

Minutes and papers for Council, Cabinet and Committee meetings which are open to the public are freely available on the Council's web site. The only papers not available will be those that are exempt under the Council's procedures rules as set out in the Constitution.

The Transition Board which comprises the Corporate Team and senior managers ensures that the senior officers work as a team to enable the Council to best serve the people who live and work in the Vale. All managers are involved in Manager Group meetings which receive information on corporate issues and projects. The series of "Let's Get Talking" sessions continued in 2015/16 where Directors and Cabinet members meet with staff across the Council to discuss current issues and give staff the opportunity to ask questions.

### **3.5. The Standards of Behaviour for Members and Staff**

Member behaviours are governed by a code of conduct which is set out in the Constitution. The code covers disclosable pecuniary interests as required by the Localism Act 2011 and also retains the requirements to disclose personal and prejudicial interests and those to register gifts and hospitality received in a member's official capacity together with interests in outside bodies, charities and pressure groups. The Code of Conduct was adopted by full Council in July 2012.

All members of the Council have completed a register of their pecuniary and personal interests. Copies of guidance produced by the Department for Communities and Local Government on the revised code have been provided to every member and they have also received information from the Monitoring Officer highlighting the key aspects.

The Constitution also includes protocols covering member/officer relations, member involvement in commercial transactions and a members planning code of good practice.

There is a three stage procedure for dealing with complaints that Members have broken the code of conduct. A code of conduct for employees was approved in 2013 in conjunction with trade unions and employee representatives. This covers all aspects of conduct at work from how to treat colleagues to any conflicts of interest and dealing with matters such as accepting gifts and hospitality.

### **3.6 Financial Regulations and Schemes of Delegation**

The Financial Regulations and Procedures, including the scheme of delegation, provide the framework for managing the authority's financial affairs. They apply to every member and officer of the authority and anyone acting on its behalf. They are linked to the other regulatory governance documents forming part of the Council's Constitution, for example, Contracts Procedure Rules.

The Council's Financial Regulations and detailed Financial Procedures were reviewed and updated during February/March 2016 to ensure alignment with best practice and to reflect the authority's commercial approach to financial management. They set out clear roles and responsibilities for members, the Section 151 Officer and senior managers within a modern financial control environment. The Contract Procedure Rules have also been revised during the year. The revised Financial Regulations will be taken to Cabinet for approval in July 2016.

Compliance with financial procedures is assessed as part of internal audits.

### **3.7 Role of the Chief Financial Officer**

The Council largely mirrors the recommendations made by CIPFA with regards to the role of the Chief Financial Officer and his or her position and status within the organisation. For this purpose the Chief Financial Officer is the Director with responsibility for Finance (Section 151 Officer).

The Director with responsibility for Finance has a key position within the organisation and sits as a member of the Transition Board, this being the main officer decision making body of the organisation responsible for developing, implementing and delivering the strategic objectives of the organisation.

All material financial decisions must be approved by the Director with responsibility for Finance or his deputy and the decision making structure of the organisation is designed to ensure that this happens through the report approval framework. Processes, systems, internal controls and risks are maintained and frequently reviewed in order to ensure that good financial management exists within the organisation and that value for money is achieved.

The Director with responsibility for Finance is professionally qualified and skilled and is provided with the necessary resources to provide a finance function that is fit for purpose and suitably equipped to meet organisational and stakeholder needs.

### **3.8 Role of the Audit Committee, Scrutiny Committees and Standards Committee**

The Audit Committee is a key component of the Council's governance framework providing independent assurance to the members of the adequacy of the Council's governance, risk management and internal control frameworks. The Committee receives regular internal and external audit reports and is effective in contributing to improving the internal control environment of the Council. The Audit Committee terms of reference comply with CIPFA's guide.

The Audit Committee's Annual Report, including the annual assessment of the effectiveness of the committee, will be discussed at their meeting in July 2016. It will be circulated to all members, who will have the opportunity to raise questions at full Council. It will also be published on the Council's website.

An annual report on the work of the Scrutiny Committees is presented to Council each year and for 2016 will be considered by full Council on 18 May 2016. The annual report will summarise the issues considered by the Scrutiny Committees during the course of 2015/16 and will continue to provide opportunities for members of the public and the wider Council membership to suggest possible topics for review.

The Standards Committee comprises seven district councillors plus two councillors from town or parish councils and three independent persons who are not entitled to vote. The two parish/town council representatives have been nominated by the Aylesbury Vale Association of Local Councils and the three independent persons have been appointed following public advertisement and interview.

The Annual Report of the Standards Committee for 2015/16 will be submitted to the full Council on 18 May 2016. This sets out the work of the Committee over the year, including information on the Committee's Role and Terms of Reference, an overview of its activities during the year and a report on the monitoring of complaints and compliance with the Code of Conduct. The Annual Report is published on the Council's website.

### **3.9 Compliance with Relevant Laws and Regulations, Internal Policies and Procedures**

Ensuring compliance with established policies, procedures, laws and regulations involves a range of measures which include:

- Awareness, understanding and training carried out by internal officers and external experts
- The drawing up and circulation of guidance and advice on key procedures, policies and practices
- Proactive monitoring of compliance by relevant key officers including the Section 151 Officer (Director with responsibility for Finance) and the Monitoring Officer

Compliance with new or revised policies is monitored by the relevant key officers and is incorporated in the Service Risk Assurance Process.

Business Assurance Services (internal audit) develops a risk based annual audit plan which includes consideration of compliance across all areas of AVDC. Reports are produced for management, recommendations for improvements agreed and implementation monitored through to completion. Internal and external audit updates and reviews are reported to the Audit Committee.

Under Section 5 of the Local Government and Housing Act 1989 the Monitoring Officer is required to report to the Council where, in his/her opinion, a proposal, decision or omission by the Council, its Members or Officers is, or is likely to be, unlawful and also to report on any investigation by the Local Government Ombudsman. It has not been necessary for the Monitoring Officer to issue a formal report for the year 2015/16.

The Section 151 officer also has a legal responsibility to issue formal reports if they have particular concerns about the financial arrangements or situation of the Council. No such formal reports have been issued during the 2015/16 financial year.

### **3.10 Risk Management Arrangements**

The Council has in place a process for identifying, assessing, managing and reviewing the key areas of risk and uncertainty that could impact on the achievement of the Council's objectives and service priorities. Strategic risks for the Council have been identified and monitoring arrangements in place through quarterly review with the Transition Board.

A Service Risk Assurance process in place for all services and risk registers are in place for major projects.

As a result of the Commercial AVDC programme and the substantial changes facing the Council the risk management arrangements are being reviewed to ensure they are appropriate going forward.

### 3.11 Whistle-blowing and Complaints Procedures

The Whistleblowing Policy and reporting procedures are available on the Council's website. This forms part of the Anti Fraud and Corruption Policy Strategy. There have been no whistle-blowing reports in 2015/16. There has been no use of the Regulation of Investigatory Powers Act during 2015/16.

There is a Customer Comment, Compliments and Complaints Policy which includes a public document explaining the process. There are also detailed procedures for staff who are dealing with a complaint. All staff are required to complete the Customer Comment, Compliments and Complaints e-learning module.

In 2014/15 the Council maintained the British Standards Institute Complaints Standard. However it was decided not to continue with this certification in 2015/16 due to the cost. The process for complaints, however, remains the same as when the council had the certification.

The Standards Committee considers any complaints made against councillors relating to breaches of the code of conduct. Details of how to make a complaint and the committee's procedure for dealing with member complaints are available on the Council's website and hard copies of a complaints leaflet have been distributed to information points throughout the District. There were no complaints against councillors which lead to a full investigation in 2015/16.

### 3.12 Anti Fraud and Corruption

Business Assurance Service and the Director responsible for Finance are responsible for developing and maintaining the Council's anti-fraud and corruption strategies.

CIPFA's "Code of Practice on managing the risk of fraud and corruption" supports organisations seeking to ensure they have the right governance and operational arrangements in place to counter fraud and corruption. During the year Business Assurance Services performed a fraud benchmarking assessment of the current state of the Council's fraud governance structures and processes against the CIPFA code.

The Council has reached a basic level of performance against the CIPFA Code of Practice on Managing the Risk of Fraud and Corruption. This includes having adequate arrangements in place against most of the performance criteria that are fundamental to the management of fraud and corruption risks. There remain a number of areas where performance should be improved before a good standard of performance can be evidenced. Having considered all principles set out in the CIPFA code and the gaps, a high level action plan has been developed to strengthen the Council's position in managing the risk of fraud. Progress on implementation of actions, which include a review of the Council's Anti Fraud and Corruption Policy in 2016/17, is reported to the Audit Committee.

### 3.13 Member and Officer Development Needs

An all-party Member Development Steering Group (MDSG) is in place to oversee, monitor and help progress delivery of learning and development for elected Members to meet individual and corporate needs, and to achieve value for money. The MDSG has continued its work, with some changes in membership, following the 2015 District Council elections. A Member Induction Programme was successfully delivered to newly elected Councillors following the 2015 elections. This included training on the Code of Conduct and ethical standards.

The MDSG undertook surveys of Members in July-August 2015 asking them to identify their future development and support needs. The survey results have been used to put together a Member Development Programme (MDP) which covers a range of issues including scrutiny skills, casework/advocacy, the local Member role in planning applications and enforcement, public speaking, effectively communicating with the media, housing matters and safeguarding.

AVDC has a comprehensive training and development programme. Details of the programme are available to all staff and Members on the Intranet. This takes into account both the organisation development needs as well as individual needs. The eLearning hub is now well established with a wide range of learning and development opportunities, alongside more traditional classroom programmes. We continue to work collaboratively with other public sector organisations across Buckinghamshire to deliver management and leadership training. This has the benefits of staff being able to receive training in a timely manner and also learn from other organisations.

As part of the Commercial AVDC programme the Council is developing a new behavioural framework for officers and will be reviewing the processes for annual performance review in 2016/17.

The Council operates a joint coaching scheme with Buckinghamshire County Council (BCC). Staff can self nominate or be referred to the scheme by their managers; they are then able to choose a coach from BCC or AVDC. This has been well used over the last 12 months.

The apprenticeship programme has been further developed offering training opportunities to young people. Nine teams have employed apprentices during 2015/16.

### 3.14 Communication and Consultation with the Public and Other Stakeholders

The Council recognises and welcomes the importance of consulting effectively with local people and other stakeholders who have an interest in life in the district.

The Council uses a wide range of channels to both consult and communicate with the community and other stakeholders. Consultation methods range from quantitative self-completion questionnaires to focus groups depending on the target audience and the objectives of each consultation project. Regular communication channels include the residents' magazine delivered to all households, a proactive media relations programme (radio, TV, newspapers), parish and community noticeboards, poster sites and targeted literature. Social media including text messaging, Twitter, Facebook and web casting are being used proactively.

AVDC launched its new website in August 2015. The website is clear, easy to use and available on any device at any time. The website was developed in consultation with residents, customers and council services to ensure the site provides what is needed in this advancing digital environment.

### 3.15 Information Governance Arrangements

Information governance is overseen by the Information Governance Group (IGG) which is chaired by the Director with responsibility for Finance who fulfils the role of Senior Information Risk Owner (SIRO). This group comprises of managers from key departments who are empowered to take decisions on information management. The IGG's key responsibility is to ensure that the Information Management Strategy is maintained and that actions are taken to implement the strategy and kept it up to date.

### 3.16 Governance Arrangements for Partnerships

Article 1 of the constitution commits the Council to providing community leadership in partnership with local people and businesses and effective and transparent decision-making, and to improving the delivery of services in consultation with the community. The Council has identified its significant partnerships and there are appropriate governance arrangements in place.

The significant partnerships are:

- Local Enterprise Partnerships - South East Midlands LEP (SEMLEP) and Buckinghamshire Thames Valley LEP (BTVLEP). AVDC is in overlapping LEP arrangement as they both have a natural geographical fit with the Vale and reflect the common 'travel to work areas' and shared workforce, housing, skills and infrastructure issues. AVDC has had a seat on both of the LEP Boards, which is helpful in being in a strong position to influence and ensure there is LEP impact in the Vale and its economic growth, benefitting AVDC's communities.
- Buckinghamshire Advantage (50% share) is the delivery arm of the Buckinghamshire Thames Valley Local Enterprise Partnership's (BTVLEP). It also develops a number of separate capital projects and infrastructure investment. It is currently working closely with Aylesbury Vale District Council and the Buckinghamshire County Council, on the Aylesbury Woodlands scheme. Woodlands is an extensive site to the east of Aylesbury, and includes commercial premises, leisure facilities, road infrastructure and housing. An outline planning application for the scheme was submitted in March 2016.
- Shared Procurement Partnership with Improvement and Efficiency Social Enterprise' (iESE). A special purpose vehicle established to deliver savings through improved procurement.
- Aylesbury Vale Estates (AVE) (50% share). AVE is a limited liability partnership between AVDC and Akeman LLP, a private sector organisation with considerable experience of estates management and property development. The main aims are to improve AVDC's commercial estate and support the local economy, whilst maintaining a future income for the Council.
- Aylesbury Vale Broadband (95% share). Its aim is to develop a future proof fibre network to deliver superfast broadband in hard to reach, rural areas of Aylesbury Vale.

- Vale Commerce (100% share) is a limited liability company wholly owned by Aylesbury Vale District Council which aims to:
  - generate a substantial income stream for the Council
  - support improvement in the local economy
  - help foster an enterprise management perspective within the Council
  - showcase the Council's determination to become more self-sufficient
 Vale Commerce will market and deliver services under two distinct customer brands; Limecart for consumers and Incgen for businesses.
- Novae Consulting (100% share) delivering the Council's commercial consultancy work.

During the spring of 2016, a guide to working with our companies was approved by Cabinet. This clearly sets out the working arrangements between the Council and the companies in which it owns or holds shares, including for example, processes for company set up, how directors should be appointed and how Council staff should work with the companies.

#### 4. Review of Effectiveness

Aylesbury Vale District Council has responsibility for conducting, at least annually, a review of effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the executive managers within the authority who have responsibility for the development and maintenance of the governance environment, the Business Assurance Manager's (internal audit) annual report, and also by comments made by the external auditors and other review agencies and inspectorates.

The governance framework described above facilitates the identification of any areas of the Council's activities where there are significant weaknesses in the financial controls, governance arrangements or the management of risk. The annual review of effectiveness has considered the following areas:

- the authority
- the executive
- the audit committee / finance and scrutiny committees
- the standards committee
- Internal audit
- Chief Financial Officer
- other explicit review/assurance mechanisms

##### 4.1 Internal Audit

The Council's internal audit (known as Business Assurance Service) operates under regulation 6 of the Accounts and Audit Regulations and in accordance with the CIPFA Public Sector Internal Audit Standards.

The Head of Internal Audit (Business Assurance Services Manager) is required to deliver an annual internal audit opinion and report that can be used by the organisation to inform its Annual Governance Statement. The annual internal audit opinion must conclude on the overall adequacy and effectiveness of the organisation's framework of governance, risk management and control (i.e. the Council's system of internal control).

This is achieved through the completion of a risk-based plan of work, agreed with management and approved by the Audit Committee, which is designed to provide a reasonable level of assurance. The opinion does not imply that Internal Audit has reviewed all risks relating to the organisation.

Where recommendations for the improvement of controls or systems are made at the end of an internal audit review, these are agreed with the responsible managers together with details of the required action and an expected date for implementation. Any concerns regarding overdue actions are reported to the Audit Committee as part of the regular progress reports.

Based on the results of the work undertaken during the year, the Head of Internal Audit's overall opinion is that governance, risk management and control in relation to business critical areas is generally satisfactory. However, there are some weaknesses in the framework of governance, risk management and control which potentially put the achievement of the Council's objectives at risk. Improvements are required in those areas to enhance the adequacy and effectiveness of governance, risk management and control.

The weaknesses identified relate to design and operation of financial controls following the implementation of a new financial system during the year. Action is being taken to address the weaknesses and improve the Council's financial control environment.

## 5. Significant Governance Issues and Action Plan

During 2015 the Council implemented a new finance system. The objective was to improve automated work-flow and establish a system which was widely used by budget managers across the Authority. The system went live in June 2015.

Internal audit work highlighted a number of weaknesses relating to the design of financial controls and processes and the way they were operating within the new financial system. Some of the issues identified were relevant to the overall financial control environment. Weaknesses were also identified in the reconciliation processes between the corporate finance and other systems, such as the revenues and benefits system.

A detailed plan has been developed to address the weaknesses identified and prompt action has been taken by management. Progress is being monitored by the Financial Review Programme Board and is reported to the Audit Committee.

## 6. Approval of the Annual Governance Statement

We have been advised on the implications of the result of the review of the effectiveness of the governance framework by Audit Committee and plan to address weaknesses and ensure continuous improvement of the systems in place.
