ENVIRONMENT AND LIVING SCRUTINY COMMITTEE – FUTURE WORK PROGRAMME

1. Purpose

1.1 To set the provisional future work programme for the Environment and Living Scrutiny Committee for the next 12-15 months.

2 Recommendation

The Committee is asked to:-

- 2.1 Consider the issues raised at the recent Work Programme planning meeting and agree whether or not any of the 18 issues identified should be prioritised for inclusion within the work programme from February 2014.
- 2.2 Delegate authority to the Deputy Chief Executive and the Senior Scrutiny and Democratic Services Officer, in consultation with the Committee Chairman, to prepare a work programme after taking account of the issues raised at the meeting.

3. Executive summary

- 3.1 The Environment and Living Scrutiny Committee was formed in July 2012 and initially set a work programme in September 2012 covering the period until the end of 2013.
- 3.2 A work programme planning meeting was held on 28 November 2013, which was attended by Councillors Fealey, Mrs Brandis, Foster and Stuchbury, at which Members were asked to identify issues that were within the Committee's terms of reference and would be suitable to look at as either a single report to the whole Committee or as a more "in-depth" review over a number of meetings. Members who were not able to attend the meeting were also free to suggest future topics and these were also included within the identified issues below.
- During an interactive planning session, 18 issues were identified for possible inclusion onto the work programme. Information on these issues is detailed at Appendix 1. Officers have given an undertaking to provide a brief commentary on the issues, which will be circulated at the meeting on 16 December 2013.
- 3.4 As further background information, Appendix 2 also details the range of issues discussed over the last two years by the Scrutiny Committee.
- 3.5 Members are requested to consider all of the information submitted to this meeting and agree a provisional work programme for the next 12-15 months. To assist in this process a prioritisation guide is attached at Appendix 4, which asks Members to assess whether the issues put forward are strategic, add value to the work of the Council, or impact on section(s) of the community.

4. Resource Implications

4.1 Members will no doubt bear in mind that the Work Programme needs to be manageable both from the Committee's perspective and resourcing work by Officers including representatives from partner organisations.

5. **Response to Key Aims and Objectives**

5.1 The work of overview and scrutiny, particularly on making recommendations on matters which affect the area or its residents all support the key aims and objectives that Aylesbury Vale District Council is striving to achieve.

•	District Valuer (raised by Councillor Vick) – review to get a better understanding of the determination process done to assess the viability of providing affordable housing and infrastructure with developments.			
	(The profit on a development is still considerable despite land, building and marketing costs etc. Whilst some developments built to our preferred standards and specification may not achieve the normal levels of profit for a traditional developer, they should still hold very significant profit margins. I believe therefore that they are viable, and we should look at whether the current business model for the developers, or their level of profit, is perhaps becoming out of date with the modern requirements for truly sustainable communities)			
Licensing				
•	Introducing a licensing scheme for Houses in Multiple Occupancy (HMOs) – scrutiny would like to comment on this when it is considered by Cabinet.
