Buckinghamshire & Milton Keynes Fire Authority

MEETING	Overview and Audit Committee
DATE OF MEETING	24 September 2014
OFFICER	David Skinner, Director of Finance and Assets
LEAD MEMBER	Councillor Andy Dransfield
SUBJECT OF THE REPORT	Adoption of the Audited Statement of Accounts
EXECUTIVE SUMMARY	The Authority must prepare, in accordance with proper practices in relation to accounts, a statement of accounts for each year. The statement of accounts must be adopted by the Committee no later than 30 September in the year immediately following the end of the year to which the statement relates.
ACTION	Decision.
RECOMMENDATIONS	That Members consider the matters raised by the Audit Commission and agree that the Statement of Accounts for the financial year ended 31 March 2014 can be signed by the Chairman of this Committee.
RISK MANAGEMENT	No direct impact.
FINANCIAL IMPLICATIONS	No direct impact.
LEGAL IMPLICATIONS	The Statement of Accounts must, following consideration, be approved by the Committee
HEALTH AND SAFETY	No direct impact.
EQUALITY AND DIVERSITY	No direct impact.
USE OF RESOURCES	No direct impact.
PROVENANCE SECTION	None.

Annual Financial Statements for the year ending 31 March 2014

Buckinghamshire & Milton Keynes Fire Authority **MAKING YOU SAFER PREVENTING PROTECTING RESPONDING**

Table of Contents

The Annual Financial Statements contains the Statement of Accounts and additional accompanying statements.

The Statement of Accounts comprises the Statement of Accounting Policies, the Financial Statements (Movement in Reserves Statement, Comprehensive Income and Expenditure Statement, Balance Sheet and Cash Flow Statement) and the Notes to the Core Financial Statements. In addition the Statement of Accounts also includes the Firefighters' Pension Fund Account and Notes to the Firefighters' Pension Fund Accounts.

The Auditor's Report and the Explanatory Foreword are outside the scope of the Statement of Accounts. These parts of the Annual Financial Statements are also outside the scope of the responsible financial officer's true and fair certification.

Introduction

Welcome to our Annual Financial Statements

This document sets out the financial activities of Buckinghamshire & Milton Keynes Fire Authority (the Authority) for the year ended 31 March 2014. It shows the financial detail of the services we have provided together with explanatory notes, the resources consumed and the financial position at the end of the year compared with the previous year.

These statements are prepared for the Authority as a single entity. The Authority does not form part of a wider reporting group.

Buckinghamshire Fire and Rescue Service is a relatively small fire authority with limited resources both financially and in terms of numbers of personnel, but is constantly seeking to improve its services to the public, its performance and the value for money it delivers to its tax payers.

The economic pressures facing the country and the difficult financial decisions taken are reflected in the pressures and decisions that are being made by the Authority. These are explained in further detail in the Explanatory Foreword. The Authority fully recognises that there is every likelihood that financial constraints will become tighter in the future and we are already planning for that eventuality. We are proactively working with our partners and the community to reduce the risks facing our communities.

Ernst and Young LLP reported in 2013 in its value for money conclusion that the Authority had "proper arrangements to secure economy, efficiency and effectiveness in its use of resources". They also recognised that the Authority "continues to be able to demonstrate that it is low cost and performing well against its own corporate priorities as well as comparatively against other fire authorities".

Further details about the Authority and of the progress made in achieving our aims and targets are set out in the Annual Report which is available on our website.

http://www.bucksfire.gov.uk/BucksFire/Where+to+find+information/Our+priorities+and+how+we+ are+doing/

Adrian Busby Chairman of Buckinghamshire & Milton Keynes Fire Authority

David Skinner BA CPFA

David Skilliner BA CPFA

Director of Finance and Assets & Chief Finance Officer, Buckinghamshire & Milton Keynes Fire Authority

Explanatory Foreword

In compiling these accounts we have followed the Chartered Institute of Public Finance and Accountancy's Code of Practice on Local Authority Accounting in the United Kingdom 2013/14: Based on International Financial Reporting Standards (the Code).

The accounts are drawn up in accordance with the accounting policies set out in detail in the Statement of Accounting Policies.

The responsibility for the proper administration of the Authority's financial affairs is vested in the statutory officer (referred to as the Section 112 Officer). This is the Director of Finance and Assets & Chief Finance Officer who is required by law to confirm that the Authority's system of internal controls can be relied upon to produce an accurate Statement of Accounts.

The Statement of Accounts contains four main statements. Each of the four main statements is accompanied by supplementary notes providing additional detail to figures presented. The four main statements are:

- Movement in Reserves Statement this statement shows the changes in the financial resources over the year. The total usable reserves held as at 31 March 2014 was £12.771m (as at 31 March 2013 was £12.062m);
- Comprehensive Income and Expenditure Statement this statement shows the gains and losses that contributed towards the changes in resources shown in the Movement in Reserves Statement. The deficit on the provision of services for 2013/14 was £10.389m (2012/13 was a deficit of £11.680m);
- Balance Sheet this statement shows how the resources available are held in the form of assets and liabilities. The net assets figure is balanced by the Total Reserves figure (see also Movement in Reserves Statement); and
- Cash Flow Statement this statement shows how the movement in resources has been reflected in cash flows. The starting point for this statement is the net surplus/deficit on the provision of services (see also Comprehensive Income and Expenditure Statement). The net decrease in cash and cash equivalents during the year was £12.954m (net increase of £2.447m in 2012/13). Please refer to Notes 14 and 17 for details of the movement.

These four statements are supported by notes to the accounts, which provide supplementary information to aid the understanding of these statements.

The Statement of Accounts also contains information regarding the Firefighters' Pension Fund Account.

Service Expenditure

The budget for 2013/14 was set at a full Authority meeting in February 2013, figures were based on the final financial settlement announced by Central Government earlier that month. It was agreed that there would be no increase in the level of Council Tax and a grant of £177k was received in lieu. The levy for a council tax band D property to cover the services provided remained at £59.13.

The remainder of total expenditure was funded through Central Government Grants, National Non-Domestic Rates (NNDR) redistribution and income for the recovery of costs from other agencies including grants for specific responsibilities such as Urban Search and Rescue Operations (USAR/New Dimensions). The Authority's council tax for a band D property is in the lowest quartile for fire authorities in the country. The budget proposed for 2013/14 was a financial estimation based upon the priorities set as part of our Integrated Risk Management Planning process. The employee costs took account of the continued work plan to make efficiencies year on year under our "Moving Forward Agenda" whilst still ensuring resources were sufficient and in the right place with no reduction in our response capability.

Specific items taken into account in setting the budget for 2013/14 included inflation and the increasing revenue cost for the capital programme. Amounts were also set aside as contingency to cover protected pay and other costs associated with the moving forward agenda, also unknowns such as a national fire-fighters pay award. During the budget setting process, savings and growth bid packages were submitted to challenge and authorisation by Members.

We fund our capital programme through a mixture of government grant and revenue funding. For 2013/14, we limited the programme to the value of the grant received so as to avoid the cost of new borrowing impacting on the revenue budget. The programme was targeted therefore, to fund only the essential refurbishment of our fire stations, the replacement of fire specialist equipment and our investment in new technology. We also continued our programme of installing smoke alarms in the homes of the most vulnerable people within our community.

Income and Expenditure 2013/14

The following table shows revenue expenditure and income against the budget for 2013/14 as a whole:

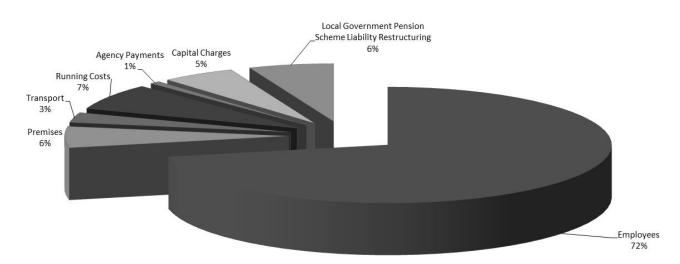

2012/13 R	estated		2013/	14
Actual	Budget		Actual	Budget
£000	£000		£000	£000
23,549	23,560	Employees	22,402	23,243
1,732	1,732	Premises	1,844	1,783
983	1,285	Transport	866	1,107
1,735	2,303	Running Costs	2,258	2,959
254	288	Agency Payments	237	316
1,848	1,916	Capital Charges	1,651	1,730
-	-	Local Government Pension Scheme Liability Restructuring	1,900	-
30,101	31,084	Expenditure	31,158	31,138
(1,172)	(1,172)	Capital Grants Received	(1,191)	(1,191)
(962)	(1,449)	Other Income	(1,302)	(1,397)
27,967	28,463	Net Expenditure	28,665	28,550
(17,832)	(17,842)	Council Tax	(16,639)	(16,393)
(1,177)	(1,177)	Revenue Support Grant	(6,978)	(6,934)
(1,161)	(1,179)	General Grants	(1,220)	(1,166)
(10,252)	(10,252)	Non-domestic rates redistribution	(4,531)	(4,495)
2,455	1,987	Contribution to/(from) Reserves	703	438
(27,967)	(28,463)	Income	(28,665)	(28,550)
-	-	Total (Under)/Overspend	-	-

The funding shown is higher than the budget due to the statutory year-end Council Tax adjustment and a number of small additional grants received in year.

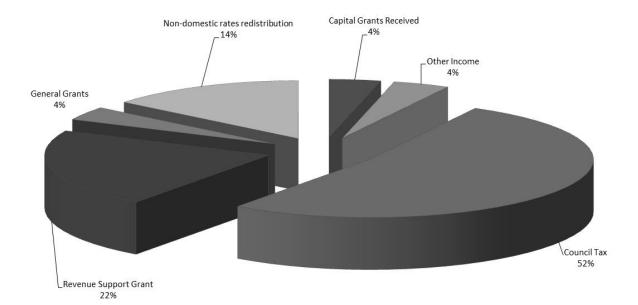

Additional information regarding the year's performance and future direction can be found in our Annual Report and Public Safety Plan:

http://www.bucksfire.gov.uk/BucksFire/Where+to+find+information/Our+priorities+and+how+we+ are+doing/

Breakdown of Expenditure 2013/14

Breakdown of Income 2013/14

During 2013/14 gross expenditure was £31,158m and gross income was £31.861m. After contributions to/from reserves there was a net income of £0.703m.

The net surplus for the year 2013/14 was due to a number of factors:

- More efficient and effective ways of working at the driving school, training unit and operational training
- Staffing levels were below the budgeted establishment in a number of areas
- The over-achievement of interest earned on cash balances

Surpluses realised as and when they have arisen throughout the year have been set aside into earmarked reserves in preparation for future economic pressures. Further details of these can be found in Note 23.

Movement in Reserves

The breakeven position is inclusive of transfers to/from reserves. Excluding these movements would show an underspend of £0.703m. The treatment of this underspend is shown in the table below:

	£000
Revenue outturn before contributions to reserves	(703)
Required Transfers to/(from) Reserves	
Other Capital Grants Unapplied (c/fwd)	251
Sub Total - Budgeted Contributions to Reserves	251
Transfers to/(from) Reserves	
Invest to Save Reserve	13
Moving Forward Reserve	(1,083)
Asset Management Reserve	(124)
Redundancy and Early Retirement Reserve	169
Vehicle Reserve	18
Funding Pressures Reserve	(817)
Control Room Reserve (Revenue)	676
Revenue Contribution to Capital	1,600
Sub Total - Additional Contributions to Reserves	452
Net Charge to the General Fund Balance (General Reserve)	

Reserve balances and a description the purpose of each reserve can be seen in Note 23.

The Comprehensive Income and Expenditure Statement shows the Authority's actual financial performance for the year, measured in terms of the resources consumed and generated over the last 12 months.

The Authority is required to raise council tax on a different accounting basis to that of the CIES, the main differences being:

- Capital investment is accounted for as it is financed, rather than when the fixed assets are consumed.
- Retirement benefits are charged as amounts become payable to pension funds and pensioners, rather than as future benefits are earned.

A reconciliation from council tax funded expenditure to the deficit for the year on the Comprehensive Income and Expenditure Statement is shown in the table below:

	£000£
Council Tax Net Expenditure (Surplus)/Deficit	-
Employees	
IAS 19 Pension Charges	10,318
Employee Absence Account	(23)
Capital Charges	
Depreciation	2,022
Impairment	113
Minimum Revenue Provision	(335)
Capital Receipts	
Income	
Capital Grant	(939)
Statutory Precept Adjustment	(64)
Other Adjustments	
Transfers to/from Reserves	(703)
(Surplus)/Deficit for the year on the Comprehensive Income and Expenditure Statement	10,389

The General Fund Balance compares the Authority's spending against the council tax that it raised for the year and other income received, taking into account the use of reserves built up in the past and contributions to reserves earmarked for future expenditure.

The Capital Account Summary

Capital expenditure is not shown in the Comprehensive Income and Expenditure Statement but is budgeted for and reported separately.

The approved capital expenditure budget for 2013/14 was £4.002m (including £1.085m relating to schemes brought forward from 2012/13). A total of £0.938m was spent on capital schemes and equipment as follows:

Land and Buildings	Plant, Vehicles and Equipment	Assets Under Construction	Intangible Assets	Total
£000	£000	£000	£000	£000
278	567	51	43	939

Further detail of the expenditure is shown in Note 11.

The largest proportion of capital expenditure during the year was on equipment. This covered a large number of items of operational equipment. The £0.278m spent on land and buildings relates to enhancements and major refurbishments at a number of fire stations.

During 2013/14, £0.051m was spent on capital schemes that were not completed as at 31 March 2014. This relates to an ICT project still in progress at the end of the year.

The Authority received £1.190m of capital grant from central government to help fund the capital programme. The Authority's loans are borrowed from the Public Works Loan Board (PWLB) and during 2013/14 no new loans were taken out. The Authority's total borrowing for capital purposes stands at £8.265m with loan repayments spread over the years 2016-2056.

Significant Transactions

Restructuring of the Local Government Pension Scheme Liability

The Authority currently makes employers contributions to the Local Government Pension Scheme. These contributions are paid each month as a fixed percentage of pensionable remuneration. The total contribution rate required from 2014/15 is 19.9%. Part of this contribution relates to the current individual employee (13.3%) and the balance (6.6%) is paid to cover the cost of the deficit based on the initial results of the latest Actuarial Valuation (March 2013).

During 2013/14 the Authority paid £1.900m in order to reduce the deficit down to zero (meaning that the employer contribution rate from 2014/15 would reduce to 13.3%). This resulted in ongoing revenue savings of £0.228m for 2014/15, and this figure will rise in future years. The average repayment over the nine year deficit recovery period would have been £0.274m per annum. This means that the interest cost over the nine year period saved by paying the deficit up-front is approximately £0.550m.

The £1.900m payment is disclosed separately with the Net Cost of Services in the Comprehensive Income and Expenditure Statement. The payment was funded by a transfer of £1.083m from the Moving Forward Reserve and £0.817m from the Funding Pressures Reserve (see Note 23).

Reserves Balances

The level of reserves held by the Authority as at 31 March 2014 are shown in the table below:

31 March 2013		31 March 2014
£000		£000
(3,700)	General Fund Balance	(3,700)
(3,700)	Sub Total Non Earmarked General Fund Balance	(3,700)
(150)	Fire Control Reserve	(150)
(500)	Invest to Save Reserve	(513)
(1,083)	Moving Forward Reserve	-
(1,000)	New Dimensions Reserve	(1,000)
(124)	Asset Management Reserve	-
(180)	Redundancy and Early Retirement Reserve	(349)
-	New Burdens Reserve	-
(51)	Vehicle Reserve	(69)
(2,000)	Funding Pressures Reserve	(1,183)
(684)	Control Room Reserve (Revenue)	(1,360)
(650)	RDS Pension Contributions Reserve	(650)
(300)	Continuing Projects Reserve	(300)
(6,722)	Sub Total Earmarked Reserves - Revenue	(5,574)
(40)	Usable Capital Receipts Reserve	(46)
(800)	Control Room Capital Grant Unapplied	(800)
(51)	Other Capital Grants Unapplied	(302)
(749)	Revenue Contribution to Capital	(2,349)
(1,640)	Sub Total Earmarked Reserves - Capital	(3,497)
(12,062)	Total Usable Reserves	(12,771)

Further information on these reserves is set out in Note 23.

Contingent Liabilities

At 31 March 2014, the Authority had two contingent liabilities:

- The Authority is still awaiting the formal notification of the outcome of a case involving Retained Duty System (RDS) firefighters. The Authority could potentially be liable to pay backdated employer contributions relating to RDS pensions. If the Authority is liable, the amount to be paid would then be dependent on the number of firefighters who decide to backdate their employee contributions. Not enough certainty around the outcome exists at this moment in time for a provision to be required. The Authority created a reserve of £650k in 2011/12 to provide for potential future costs that may be incurred.
- The Authority is awaiting formal notification as to whether or not it will be charged interest in relation to the pension top-up grant that was over-claimed between April 2007 and March 2014. No amount has been recognised in the accounts due to the uncertainty as to whether interest will be applied, and if so, the rate applicable.

Pension Fund Liability

The accounting treatment for pensions follows International Accounting Standard 19 (IAS19), the purpose of which is to ensure that organisations' accounts reflect the net position of their pension funds and account for the liability to pay accumulated employee benefits in the future. In 2013/14, the Authority's share of the three Pension Fund's net liabilities increased by £20.206m to £217.632m (for 2012/13 the net liability was £197.426m).

Effectively, the Pension Funds are in deficit by £217.632m compared with what is needed to pay the pensions of current scheme members, and the effect is to reduce the overall net worth of the Authority by that amount. However, statutory arrangements for the funding of the deficit, whereby the deficit will be made good by employer contributions over the remaining working life of employees as assessed by the scheme's actuaries, mean that the financial position of the Authority remains healthy. The actuary for the Local Government Pension Scheme is Barnett Waddingham and the actuary for both firefighters schemes are the Government Actuary's Department (GAD).

Treasury Management

Up until 31 March 2013, Buckinghamshire County Council (BCC) provided the day to day operation of the Authority's treasury management function under a Service Level Agreement (SLA). This included the management of the Authority's cash flows, its banking, money market and capital market transactions.

As of 1 April 2013, the Authority ceased the Treasury Management SLA with BCC and brought all treasury services in-house. This has enabled the Authority to achieve a higher investment yield, with minimal impact on security and liquidity.

The Authority has outstanding PWLB Loans at 31 March 2014 of £8.265m.

Statement of Responsibilities for the Statement of Accounts

The Authority's Responsibilities

The Authority is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Authority, that officer is the Director of Finance and Assets & Chief Finance Officer;
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- Approve the Statement of Accounts.

The Responsibilities of the Director of Finance and Assets

The Director of Finance and Assets & Chief Finance Officer is responsible for the preparation of the Authority's Statement of Accounts, in accordance with proper practices as set out in the CIPFA / LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Director of Finance and Assets & Chief Finance Officer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent; and
- complied with the Code.

The Director of Finance and Assets & Chief Finance Officer has also:

- kept proper accounting records which were up to date; and
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate of the Director of Finance and Assets

I hereby certify that this Statement of Accounts presents a true and fair view of the financial position of the Authority as at 31 March 2014 and its income and expenditure for the financial year 2013/14.

David Skinner BA CPFA

Director of Finance and Assets & Chief Finance Officer, Buckinghamshire & Milton Keynes Fire Authority

Date:

Approval of the Statement of Accounts

I hereby confirm that this Statement of Accounts has been approved by the Combined Fire Authority at its meeting of the Audit Committee held on 24 September 2014

David Watson Chairman, Buckinghamshire & Milton Keynes Fire Authority's Audit Committee

Date:

Independent Auditor's Report to Members of Buckinghamshire and Milton Keynes Fire Authority

To be added after the conclusion of the audit

To be added after the conclusion of the audit

To be added after the conclusion of the audit

Statement of Accounting Policies

i. General Principles

The Statement of Accounts summarises the Authority's transactions for the 2013/14 financial year and its position at the year-end of 31 March 2014. The Authority is required to prepare an annual Statement of Accounts by the Accounts and Audit (England) Regulations 2011, which is required to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2013/14 and the Service Reporting Code of Practice 2013/14, supported by International Financial Reporting Standards (IFRS) and statutory guidance issued.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

ii. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Authority transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority;
- Revenue from the provision of services is recognised when the Authority can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority;
- Supplies are recorded as expenditure when they are consumed where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet;
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made;
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract;
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

iii. Acquisitions and Discontinued Operations

There were no acquired or discontinued operations during the year.

iv. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that are readily convertible to known amounts of cash with insignificant risk of change in value. Cash equivalents include cash on deposit that is held for short-term cash flow management rather than investment purposes.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Authority's cash management.

v. Exceptional Items

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Authority's financial performance. There were no exceptional items during 2013/14.

vi. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance.

Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

vii. Charges to Revenue for Non-Current Assets

Services and support services are debited with the following amounts to record the cost of holding fixed assets during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- amortisation of intangible fixed assets attributable to the service.

The Authority is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisations. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement.

This contribution is referred to as the Minimum Revenue Provision (MRP):

- debt relating to capital expenditure incurred prior to 1 April 2008 will be calculated broadly on the basis of 4% of the Authority's Capital Financing Requirement
- debt relating to capital expenditure incurred from 1 April 2008 will be calculated broadly on the asset life (equal instalments) method. The amount is dependent upon the estimated life of the asset for which the debt has been raised.

Depreciation, revaluation and impairment losses and amortisations are therefore replaced by the contribution in the General Fund Balance by MRP, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

A discretionary charge is also made to the revenue account to contribute towards the Revenue Contribution to Capital reserve. This will be used to help fund the capital programme in future years due to the reducing levels of capital grant funding that are expected to be available.

viii. Employee Benefits

Benefits Payable During Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Authority. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Authority to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis to the appropriate service in the Comprehensive Income and Expenditure Statement when the Authority is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post Employment Benefits

Employees of the Authority are members of three separate pension schemes:

- Uniformed Firefighters 1992 Pension Scheme (Old Scheme) and the 2006 New Firefighters' Pension Scheme (New Scheme);
- The Local Government Pensions Scheme, administered by Buckinghamshire County Council.

<u>Uniformed Firefighters - 1992 Pension Scheme (Old Scheme) and the 2006 New Firefighters' Pension</u> <u>Scheme (New Scheme)</u>

The funding arrangements for the Firefighters' Pension Scheme in England changed by statute with effect from 1 April 2006 and are contained within the Firefighter's Pension Scheme (Amendment) (England) Order 2006 (SI 2006/1810). Before 1 April 2006 the 1992 Scheme did not have a percentage of pensionable pay type of employer's contribution: rather each fire authority was responsible for paying the pensions of its own former employees on a pay-as-you-go basis. Under the new funding arrangements the schemes remain unfunded but will no longer be on a pay-as-you-go basis as far as the individual fire authority is concerned.

Authorities no longer meet the pension outgoing directly: instead they pay an employer's pension contribution based on a percentage of pay into the Pension Fund and the amounts that must be paid into and paid out of the Pension Fund are specified by regulation.

Subject to scrutiny and approval by the Secretary of State and Parliament, under the new arrangements the Pension Fund will be balanced to nil at the end of the year by either paying over to the DCLG the amount by which the amounts receivable by the Fund for the year exceed the amounts payable, or by receiving cash in the form of a pension top-up grant from the DCLG equal to the amount by which the amount payable from the pension fund for the year exceeded the amount receivable.

The New Scheme offers defined retirement benefits to all whole time and retained firefighters joining the service after 1 April 2006.

All whole time firefighters who were part of the pension scheme prior to the 1 April 2006 were given the option to transfer to the new scheme on preferential terms up to 31 March 2007. Any new employees must join the new scheme.

Injury Awards

In the Old Scheme, injury payments are included within the closing defined benefit obligation.

In the New Scheme, injury awards and awards payable on the death of a firefighter attributable to a qualifying injury are not part of the Firefighters' Pension Scheme. Injury awards are paid from the authority's operating account, not from the pension fund.

The Local Government Pension Scheme

The Local Government Scheme is accounted for as a defined benefits scheme:

- The liabilities of the pension fund attributable to the Authority are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees;
- Liabilities are discounted to their value at current prices, using a discount rate of 4.5% (based on the indicative rate of return on the iBoxx 15 year corporate bond index).

The assets of the pension fund attributable to the Authority are included in the Balance Sheet at their fair value:

- quoted securities current bid price;
- unquoted securities professional estimate;
- unitised securities current bid price;
- property market value.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Authority also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

ix. Events After the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period the Statement of Accounts is adjusted to reflect such events
- those that are indicative of conditions that arose after the reporting period the Statement
 of Accounts is not adjusted to reflect such events, but where a category of events would have
 a material effect, disclosure is made in the notes of the nature of the events and their
 estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts. There were no such events disclosed in these statements.

x. Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Authority has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus the accrued interest shown under short-term borrowing); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate. There were no repurchase or early settlements during 2013/14.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Authority has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement. There were no premiums paid or discounts received during 2013/14.

Financial Assets - Loans and Receivables

Loans and receivables are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment

Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Authority has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

xi Foreign Currency Translation

Where the Authority has entered into a transaction denominated in a foreign currency, the transaction is converted into sterling at the exchange rate applicable on the date the transaction was effective.

xii. Heritage Assets

The Authority does not hold any heritage assets.

xiii. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Authority when there is reasonable assurance that:

- the Authority will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Authority are not credited to the Comprehensive Income and Expenditure Statement until there is reasonable assurance that the conditions attached to the grant or contribution will be satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which there is not reasonable assurance that the conditions will be satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

xiv. Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Authority as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Authority.

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Authority's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Authority can be determined by reference to an active market. In practice, no intangible asset held by the Authority meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line(s) in the Comprehensive line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds) the Capital Receipts Reserve.

xv. Interests in Companies and Other Entities

The Authority has no material interests in companies or other entities which would require it to prepare group accounts.

xvi. Inventories and Long Term Contracts

Inventories are generally included in the Balance Sheet at the lower of cost and net realisable value. The cost of inventories is assigned using the First In First Out (FIFO) costing formula.

Where inventories are held for distribution at no charge or for a nominal charge they are measured at the lower of cost and current replacement cost. Replacement cost is defined as the cost the authority would incur to acquire the asset at the Balance Sheet date.

Long term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

xvii. Investment Property

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's-length. Properties are not depreciated but are revalued annually according to market conditions at the yearend. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal. Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds) the Capital Receipts Reserve.

xviii. Jointly Controlled Operations and Jointly Controlled Assets

The Authority does not have any jointly controlled operations or jointly controlled assets.

xix. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Authority as Lessee

Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Authority are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment applied to write down the lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the authority at the end of the lease period).

The Authority is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease).

The Authority as Lessor

Finance Leases

Where the Authority grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Authority's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property applied to write down the lease debtor (together with any premiums received), and
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Operating Leases

Where the Authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

In 2003/04 the Authority entered into a sale and leaseback agreement. The initial cost of the lease was matched by an increase in the value of land and buildings within fixed assets.

xx. Overheads and Support Services

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA Service Reporting Code of Practice 2013/14 (SeRCOP). The total absorption costing principle is used – the full cost of overheads and

support services are shared between users in proportion to the benefits received, with the exception of:

• Corporate and Democratic Core – costs relating to the Authority's status as a multifunctional, democratic organisation.

These two cost categories are defined in SeRCOP and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of Net Expenditure on Continuing Services.

xxi. Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Authority and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred. The Authority's de-minimis level for capital expenditure is £6k.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management

The Authority does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Authority). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Authority.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in the Donated Assets Account. Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement.

Assets are then carried in the Balance Sheet using the following measurement bases:

- assets under construction depreciated historical cost
- all other assets fair value, determined as the amount that would be paid for the asset in its existing use (existing use value EUV).

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value. Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.

Assets included in the Balance Sheet at fair value are revalued annually to ensure that their carrying amount is not materially different from their fair value at the year-end. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- dwellings and other buildings straight-line allocation over the useful life of the property as estimated by the valuer
- vehicles, plant, furniture and equipment straight-line allocation over the useful life of the asset

Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately. In applying the principals of componentisation the de-minimis value of a property has been set at £500,000 and individual components at £50,000, i.e. 10% of the overall asset below which any component will not be calculated separately. The components that have been identified as relevant

to the authority are weatherproofing (to include windows, roofs, bay doors and doors), mechanical and electrical and finally yards and drill towers (i.e. external elements). Where the life expectancy of any component would exceed the life expectancy of the main structure then the life expectancy of the component will be limited to that of the main structure.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals

Amounts received for the disposal of any assets previously qualifying as Capital Expenditure are categorised as capital receipts. Capital receipts are required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment, or set aside to reduce the Authority's underlying need to borrow. Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

xxii. Private Finance Initiative (PFI) and Similar Contracts

The Authority has not entered into any PFI or similar contracts

xxiii. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Authority a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Authority may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the authority becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the authority settles the obligation.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

xxiv. Reserves

The Authority sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Authority – these reserves are explained in the relevant policies.

xxv. Revenue Expenditure Funded from Capital under Statute

This does not apply as the Authority does not incur expenditure which may be capitalised under statutory provision and which does not result in the creation of a non-current asset.

xxvi. VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

Critical Judgements in Applying the Accounting Policies

The accounts are prepared with the underlying assumptions of the accruals basis and the going concern basis i.e. the Authority will continue its operations for the foreseeable future. This means in particular that, despite the high degree of uncertainty resulting from reducing levels of funding in future years, the Comprehensive Income and Expenditure Account and Balance Sheet assume no intention to curtail significantly the scale of the operation. At this stage there is no indication that the assets of the Authority might be impaired as a result of a need to close facilities and reduce the level of service provision.

Use of Estimates and Judgements

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actually results could be materially different from the assumptions and estimates. The items in the Authority's Comprehensive Income and Expenditure Statement for 2013/14 and the Balance Sheet at 31 March 2014 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

- Depreciation (and amortisation of intangible assets) the remaining useful lives of all assets are estimated. The Authority relies on the expertise of an external valuer to determine the lives of all building assets. The lives of vehicles, plant and equipment and intangible assets are based on historical experience and professional estimates. If the estimates were to differ from the actuals this would affect the level of depreciation and amortisation charged to the Comprehensive Income and Expenditure Statement, as well as the carrying amounts of noncurrent assets in the Balance Sheet. The carrying amounts of non-current assets as at 31 March 2014 was £31.879m. Total depreciation and amortisation for the year was £2.022m;
- Revaluations and Impairments the value of non-current assets are reviewed annually by a qualified valuer based on the latest guidance from the Royal Institute of Chartered Surveyors and the recently observed market information. If the estimates were to differ from the actual results this would result in a higher or lower carrying amount for non-current assets in the Balance Sheet. Revaluations charged to the Revaluation Reserve during the year were £2.756m upwards. Impairment charged to the Comprehensive Income and Expenditure Statement was £0.012m;
- Pensions Liability the valuation of the liability is based on a number of actuarial assumptions (see Note 28). This figure is provided by an external actuary. If the estimate was to differ from the actual it would result in a higher or lower pension liability and reserve figure on the Balance Sheet. The total pension liability as at 31 March 2014 was £217.632m;
- Financial Assets and Liabilities further details about the assumptions made and the potential impact can be found in Note 29; and
- Estimates are made as to the amount of time spent by firefighters in carrying out Community Safety activities based on technical officer advice as to work volumes and activities. This estimate is used to determine how much of the direct costs of firefighters is apportioned to Community Fire Safety in the Comprehensive Income and Expenditure Statement. If the actual results were to differ from the estimate the effect would be limited to the apportionment between Community Fire Safety and Fire Fighting and Rescue Operations. There would be no net impact on the total surplus or deficit reported.

Estimates are also used to allocate the cost of support services to the relevant headings with the Comprehensive Income and Expenditure Statement. The process by which this is done is set out below:

The cost of support services and service management has been fully charged to service expenditure headings. In line with CIPFA guidance, the cost of corporate management is not charged to service expenditure headings. Corporate management relates to those activities and costs incurred in the general running of the Authority. It includes a proportion of the senior officer management team and such items as the cost of external audit. Costs are apportioned based on a range of criteria including accommodation space occupied, IT services employed and technical officer assessments of volumes and activities.

Democratic representation and management includes all Members' allowances and costs, officer time in support of Members and certain subscriptions to local authority associations. Where support services are recharged a number of methods are used depending on the nature of the costs:

- Buildings are apportioned based on the floor space occupied by the service
- Central departments such as Finance and Accountancy Services, Property, Procurement and Transport are all apportioned based on the recipient service's controllable budget;
- Human Resources, Equality and Diversity, Performance Planning and Publicity are apportioned based on staff full time equivalent numbers as at the end of the year; and
- ICT support costs are apportioned based on the number of workstations within each service.

If the actual results were to differ from the estimates the effect would be limited to the apportionment between headings in the Comprehensive Income and Expenditure Statement. There would be no net impact on the total surplus or deficit reported, nor on the level of reserves held.

Changes in Accounting Estimates

There have been no changes in accounting estimates during 2013/14.

Standards Issued But Not Yet Adopted

The following standards issued but not yet adopted by the Code are:

- IFRS 10 Consolidated Financial Statements
- IFRS 11 Joint Arrangements
- IFRS 12 Disclosures of Interests in Other Entities
- IAS 27 Separate Financial Statements
- IAS 28 Investments in Associates and Joint Ventures (as amended in May 2011)
- IAS 32 Financial Instruments: Presentation Offsetting Financial Assets and Financial Liabilities (as amended in December 2011)
- IAS 1 Presentation of Financial Statements (as amended in May 2011)

It is not anticipated that any of the revised standards will have a material impact on the amounts disclosed.

Movement in Reserves Statement

These statements show the movement in the year on the different reserves held by the Authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The (Surplus) or Deficit on the Provision of Services line shows the true economic cost of providing the Authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement (CIES). These are different from the statutory amounts required to be charged to the General Fund Balance for council tax setting purposes. The Net (Increase) / Decrease before Transfers to Earmarked Reserves line shows the Statutory General Fund Balance before any discretionary transfers to/from earmarked reserves undertaken by the Authority. Further detail on each reserve is shown in the notes to the accounts as referenced.

Restated	General Fund Balance	Earmarked Reserves	Total Usable Reserves	Unusable Reserves	Total Authority Reserves

Comprehensive Income and Expenditure Statement

The Comprehensive Income and Expenditure Statement shows the economic cost in the year of providing services in accordance with accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

Cash Flow Statement

This statement shows the changes in cash and cash equivalents of the Authority during the reporting period. The Cash Flow Statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as: operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income or from the recipients of the services provided by the Authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital to the Authority.

2012/13 Restated		2013/14
£000	Cash Flow Statement	£000
(11,680)	Net surplus or deficit on the provision of services	(10,288)
15,706	Adjust for non-cash movements	11,664
(1,192)	Adjust for items that are investing or financing activities	(1,199)
2,834	Net Cash Flow from Operating Activities	177
(340)	Investing Activities	(12,851)
(47)	Financing Activities	(280)
2,447	Net Increase or decrease in cash and cash equivalents	(12,954)
12,882	Cash and Cash equivalents at the beginning of the reporting period	15,329
15,329	Cash and Cash equivalents at the end of the reporting period	2,375

Notes to the Cash Flow Statement can be found in Note 32.

Director of Legal and Governance	79,469	5,949	-		- 85,418	15,283	100,701	
Totals	573,874	16,127	-		- 590,001	116,193	706,194	

All posts other than the Deputy Chief Fire Officer include a back-dated pay award relating to a number of months in 2012/13. The salaries excluding the pay award are:

- Chief Fire Officer and Chief Executive £140,000
- Chief Operating Officer £118,000
- HR Director £86,000
- Director of Finance & Assets and Chief Finance Officer £82,500
- Director of Legal and Governance £78,000

<u>Notes</u>

1 This post was from 1 April 2013 – 30 September 2013 only

For comparison, the following table sets out the remuneration disclosures for senior officers during 2012/13:

Post Holder	Salary including Fees and Allowances	Benefits in Kind e.g. Car Allowance	Compensation for Loss of Office	Bonuses	Total Remuneration Excluding Pension Contributions	Pension Contributions	Total Remuneration Including Pension Contributions	Notes
Chief Fire Officer and Chief Executive	146,132	629	-	-	146,761	29,954	176,715	1
Deputy Chief Fire Officer	110,458	629	-	-	111,087	23,031	134,118	2
ACO Risk / Chief Operating Officer	107,652	-	-	-	107,652	22,099	129,751	3
ACO Response	3,000	45	188,464	-	191,509	321	191,830	4
HR Director	86,000	1,913	-	-	87,913	16,633	104,546	
Director of Finance and Assets & Chief Finance Officer	82,500	4,320	-	-	86,820	15,961	102,781	
Director of Legal and Governance	40,969	3,731	-		- 44,700	7,866	52,566	5
Totals	576,711	11,267	188,464		- 776,442	115,865	892,307	

<u>Notes</u>

- 1 The salary shown above includes a back-dated pay award relating to a number of months in 2011/12. The salary excluding the pay award was £140,000.
- 2 The salary shown above includes a back-dated pay award relating to a number of months in 2011/12. The salary excluding the pay award was £107,500.
- 3 The salary shown above includes a back-dated pay award relating to a number of months in 2011/12. The post-holder was ACO Risk until 31/12/2012 and became the Chief Operating Officer from 01/01/2013 onwards.
- 4 This post was deleted after 06/04/2012.
- 5 This shows the salary information from 01/09/2012. Prior to this date the service of the Director of Legal and Governance were purchased from Buckinghamshire County Council under a Service Level Agreement. The full year salary is £78,000.

Exit Packages

In 2013/14 there were ten exit packages provided at a total cost of £0.192m.

3 - Provision for Doubtful Debt

The provision for doubtful debts is £35,851 as at 31 March 2014 (£35,851 as at 31 March 2013). This is considered a prudent level to hold against debts that may not be recovered. All existing debts have been considered for recoverability and the provision is adequate to ensure any doubtful debts could be covered. Debts totalling £593 were written off during the year.

4 - Leases and Lease Type Arrangements

The operating leases held by the Authority apply to lease vehicles and radio communications equipment. The lease rentals paid during the year amounted to £341k (£483k in 2012/13). The estimated un-discharged obligations under the operational lease agreements are shown in the table below:

31 March	2013		31 March	2014
Vehicles Plant and Equipment	Land and Buildings	Years Operational Lease Remaining	Vehicles Plant and Equipment	Land and Buildings
£000	£000		£000	£000
183	118	0 - 1 years	118	116
100	320	2 - 5 years	166	361
-	762	6 years and onwards	-	684
283	1,200	Total	284	1,161

The finance lease held by the Authority is for the sale and leaseback of the Gerrards Cross houses with London Quadrant (previously Opus Housing). The Authority has included the finance lease as a long term liability. The finance lease is detailed in Note 22.

5 - Capital Financing Requirement

The table below shows the effect of capital expenditure on the Authority's capital financing requirement.

2012/13 £000		2013/14 £000
9,353	Opening Capital Financing Requirement	9,004
	Capital Investment	
1,558	Property Plant and Equipment	896
-	Intangible Assets	43
	Sources of Finances	
-	Capital Receipts	-
(1,558)	Government Grants and Contributions	(939)
(349)	Revenue Funding including MRP	(335)
-	Voluntary Minimum Revenue Provision	-
-	Other Adjustments	
9,004	Closing Capital Financing Requirement	8,669
	Explanation of movements in year	
(349)	Increase in the underlying need to borrow (supported by Government financial assistance)	(335)
(349)	Increase/(Decrease) in Capital Financing Requirement	(335)

6 - Members Allowances

Total allowances paid in 2013/14 to 23 Members amounted to £61k (2012/13 amounted to £61k and 21 Members). Of the 23 Members, 17 were still Members as at 31 March 2014 and the remaining 6 ceased to be Members of the Authority during the year.

Detailed information on individual allowances is available on the Authority website <u>http://www.bucksfire.gov.uk/NR/rdonlyres/AAC53F50-6365-407D-8C36-</u> <u>44395A396E01/0/Allowances201314.pdf</u> and on request.

7 - Audit Fees

Fees paid during the year to Ernst & Young LLP, the Authority's external auditor, for work on external audit and on inspection are set out in the table below. The 2013/14 fee contains rebates totalling £10k relating to previous years fees.

2012/13		2013/14
£000£	Audit Fees	£000£
42	External Audit Services	32
42	Total	32

8 - Revenue Grants

Section 31 grants received from the Department for Communities and Local Government (DCLG) by the Authority are detailed below. The grants are not ring-fenced but are given for specific streams of work. As the grants are not ring-fenced, they are shown within Taxation and Non-Specific Grant Income in the Comprehensive Income and Expenditure Statement.

	2013/14
Revenue Grants Applied	£000
New Dimension (Urban Search and Rescue)	(940)
Firelink	(239)
Other Fire Revenue Grant	(41)
Control Room	-
Total	(1,220)
	New Dimension (Urban Search and Rescue) Firelink Other Fire Revenue Grant Control Room

The New Dimension grant funds the national resilience capability provided by the Urban Search and Rescue team. Firelink funding contributes to the cost of communications within the control room.

9 - Related Parties

The Authority is required to disclose material transactions with related parties: bodies or individuals that have the potential to control or influence the Authority, or to be controlled or influenced by the Authority. Disclosure of these transactions allows readers to assess the extent to which the Authority might have been constrained in its ability to operate independently, or might have secured the ability to limit another party's ability to bargain freely with the Authority.

Central Government

Central Government is responsible for providing the statutory framework within which the Authority operates and prescribes the terms of many of the transactions that the Authority has with other parties. It also provided direct financial support in 2013/14 to the Authority.

Other Public Bodies

Buckinghamshire County Council provides Internal Audit Services, Pensions Services and SAP Systems Support. The Authority provides accommodation to the Southern Counties Ambulance Service. The Authority also has a joint procurement service arrangement with Royal Berkshire Fire and Rescue Service. These are undertaken on a commercial basis and will therefore not have a controlling influence on either body.

The Authority has entered into local public service agreements with all six councils within its geographic boundaries. The Authority is using these agreements to build capacity within its Community Fire Safety department so that it can contribute along with its partners to the shared vision of creating a safer Buckinghamshire and Milton Keynes.

The Authority is currently reviewing the provision of a shared control room function with other fire authorities. Any agreement will be undertaken on a commercial basis and will therefore not have a controlling influence on either body.

Members of the Authority

Members have direct control over the Authority's financial and operational policies. However, any contracts entered into are in full compliance with the Authority's standing orders and any decisions are made with proper consideration of declarations of interest. Details of any material interests are recorded in the Register of Members' Interests, which is open to public inspection. All Members have been asked to declare any related party transactions. From the replies provided there are no such transactions to be declared.

Senior Officers of the Authority

Senior Officers have control over the day-to-day management of the Authority. All Senior Officers have been asked to declare any related party transactions. From the replies provided there are no such transactions to be declared.

Assisted Organisations

The Authority provides funding to the Safety Centre Milton Keynes. The Authority is one of a number of funders. An officer of the Authority is one of seven trustees of the centre, which is a registered charity. The Authority does not have a significant influence over the running of the centre.

Companies and Joint Ventures

The Authority does not have any interests in companies outside of its normal contractual arrangements.

10 - Funding

The Authority's net revenue expenditure is funded by local authority precepts, general government grants and non-domestic rates redistribution from the national pool.

2012/13		2013/14
£000	Funding	£000
(4,093)	Aylesbury Vale District Council	(3,900)
(2,651)	Chiltern District Council	(2,531)
(5,024)	Milton Keynes Council	(4,536)
(1,944)	South Buckinghamshire District Council	(1,823)
(4,120)	Wycombe District Council	(3,849)
(17,832)	Total Precepts	(16,639)
(207)	Revenue Support Grant	(6,800)
(970)	Council Tax Freeze Grant	(178)
(1,161)	General Revenue Grants (Note 8)	(1,221)
(1,172)	Capital Grants	(1,191)
(3,510)	Total General Government Grants	(9,390)
(10,252)	Non Domestic Rates redistribution	(4,362)
(10,252)	Total Non Domestic Rates redistribution	(4,362)
(31,594)	Total Funding	(30,391)

In 2013/14 there were 274,056 Band D properties and in 2012/13 there were 299,737 Band D properties. The decrease is due to the impact of the Council Tax Support Scheme on the way the figures are calculated.

Revenue Support Grant and Non Domestic Rates are distributed from central government based on a formula allocation. The split between the two elements was adjusted in 2013/14.

11 - Non Current Assets

b) Basis of Valuation

All land and buildings were initially revalued during the year with an effective revaluation date of 1 April 2013. The valuations were updated as at 31 March 2014 to ensure the balance sheet accurately reflected the end of year values. Valuations were provided by an external valuer, Ian S Pitt BSc (Hons) MRICS of Bruton Knowles. All valuations were prepared in accordance with the RICS Appraisal Valuation Manual and International Financial Reporting Standards. The basis of valuation adopted is Existing Use Value (EUV). For specialised properties the Depreciated Replacement Cost method was used to arrive at the EUV whilst non-specialised properties have been valued using the Comparable Method of valuation to arrive at the EUV. The one investment property was valued at Market Value.

The following significant assumptions were applied in arriving at the fair values:

- Values reported are based on a desktop exercise;
- The Authority owns the freehold, which is not subject to any unusual or onerous restrictions;
- Properties are unaffected by any matters that would be revealed by a local search;
- All parts are assumed to be in good repair and condition and all properties are free from hazardous materials; and
- Where the remaining useful life of a property is at least 20 years it is on the assumption that it will be maintained reasonably.

c) Valuation Information

The following statement shows the progress of the Authority's programme for the revaluation of assets.

Year of Valuation	Land and Buildings	Vehicles, Plant and Equipment	Assets Under Construction	Total
	£000	£000	£000	£000
2013/14	25,586	-	-	25,586
Valued at Historic Cost		4,724	112	4,836
Total	24,799	4,724	112	30,422

d) Depreciation Lives

The Authority policy of depreciating assets is on a straight line basis over their remaining useful lives as below:

- Red Fleet Vehicles 1 to 15 years
- White Fleet Vehicles 1 to 7 years
- Plant and Equipment 1 to 25 years
- Buildings 3 to 52 years
- Intangibles 1 to 8 years

e) Commitments under Capital Contracts

At 31 March 2014, the Authority has entered into a number of contracts for the acquisition or enhancement of Property, Plant and Equipment or Intangible Assets.

Capital Contract	Contractor	Amount Outstanding as at 31
		March 2014 £000
Aerial Replacement Vehicle	Northfire	565
Total		565

All commitments will be honoured during 2014/15.

Prior year comparators can be seen in the table below:

Capital Contract	Contractor	Amount Outstanding as at 31 March 2013 £000
Great Holm - Boiler	Tencer Itd	47
High Wycombe Drill Tower	Bolt & Heeks	69
Asset Management System I.C.T - BFRS WAN Edge Circuits Total	Redkite Updata Infrastructure UK Ltd	13 40 169

.

12 - Investment Property

An office building at Bletchley Fire Station is classified as an investment property, as it is currently held solely for the purpose of generating rental income.

2012/13		2013/14
£000	Investment Property	£000
100	Opening Balance	100
-	Transfer from Land and Buildings	-
-	Revaluation	-
-	Impairment	<u> </u>
100	Closing Balance	100

13 - Movement of Intangible Fixed Assets

Intangible Assets are recognised as non-financial fixed assets that do not have physical substance but are identifiable and are controlled by the entity through custody or legal rights. These represent the purchase of computer software and licences and other software systems and are amortised to the Comprehensive Income and Expenditure Statement on the basis of the cost and estimated useful life.

Movement of Intangible Assets	£000
Gross Book Value as at 31 March 2013	365
Accumulated Amortisation	(123)
Net Book Value as at 1 April 2013	242
Additions in year	43
Reclassifications	30
Amortisation for the year	(51)
Net Book Value as at 31 March 2014	264

No assets were internally generated. All assets have finite useful lives and are amortised on a straight-line basis between 1 to 8 years. Amortisation will be included within Community Fire Safety and Fire Fighting and Rescue Operations within the Comprehensive Income and Expenditure Statement.

14 - Short Term Investments

The Authority holds a number of short term investments in order to manage liquidity. In 2012/13, all investments were held by Buckinghamshire County Council. These were available on an instantaccess basis and so were disclosed within cash equivalents. All amounts disclosed for 2013/14 had maturities of more than 90 days (but less than one year) at the time they were placed.

2012/13		2013/14
£000	Short Term Investments	£000
-	Short Term Investments	13,108
-	Total	13,108

15 – Inventories

_

2012/13 £000	Inventories	2013/14 £000
42	Workshops	40
143	Stores	140
66	Fuel	54
1	Catering	1
252	Total	235

All inventories are purchased at cost. No inventory items are purchased on deferred settlement terms or acquired by an exchange of goods and services. Inventories are distributed at cost or cost plus and do not use LIFO as a cost formula. All inventory items of a similar nature and similar use to the Authority use the same cost formula.

16 - Short Term Debtors

2012/13 £000	Short Term Debtors	2013/14 £000
908	Central Government Bodies	1,731
457	Other Local Authorities	824
-	NHS Bodies	16
186	Other Entities and Individuals	218
134	Payments in Advance	216
(36)	Provision for Doubtful Debts	(36)
1,649	Total	2,969

17 - Cash and Cash Equivalents

Cash and cash equivalents are short term highly liquid investments with a maturity of less than 90 days. A large proportion of the cash on deposit disclosed in 2012/13 will now be shown under short term investments in 2013/14 (see Note 14).

2012/13		2013/14
£000£	Cash and cash equivalents	£000
(3)	Cash at bank	127
8	Cash in hand	-
15,324	Cash on deposit	2,248
15,329	Total	2,375

18 - Short Term Borrowing and Creditors

The interest owing and shown as short term borrowing represents the Public Works Loan Board (PWLB) interest accrued to the 31 March 2014 in accordance with the Code.

2012/13 Restated		2013/14
£000	Short Term Borrowing and Creditors	£000
(101)	Short Term Borrowing	(101)
(1,748)	Central Government Bodies	(2,121)
(374)	Other Local Authorities	(451)
-	Public Corporations and Trading Funds	-
(997)	Other Entities and Individuals	(718)
(132)	Receipts in Advance	(212)
(3,251)	Total	(3,502)

19 - Provisions

The following table shows the movements on the Authority's provisions.

	Accumulated Absences	Part Time Workers	Voluntary Redundancy and Special Payments	Other Provisions	Total
	£000	£000	£000	£000	£000
Balance as at 1st April 2013	(676)	(171)	(151)	(75)	(1,073)
Additional provisions made in 2013/14	(653)	-	(352)	-	(1,005)
Amounts used in 2013/14	676	26	143	33	878
Balance as at 31 March 2014	(653)	(145)	(360)	(42)	(1,200)

Accumulated Absences Account

This provision shows the value of the outstanding leave entitlement held by employees of the Authority as at the balance sheet date. Any increase or decrease in the provision is offset by the Accumulated Absences Account (see Note 24a) so that this accounting adjustment does not impact on the level of usable reserves.

Part Time Workers

This provision was established in 2009/10 (£250k) to provide for the back pay for Retained Duty System (RDS) staff following an equal pay court case. As at 31st March 2014, £105k of the provision had been used to cover claims paid to date. There are still further claims expected, but the Authority considers the remaining provision to be sufficient to meet the total liability outstanding.

Voluntary Redundancy and Special Payments

This provision was established in 2010/11 to provide for the additional costs of redundancy and related payments as a result of restructuring within the Authority. A number of additional provisions have been made during the year to cover potential one-off special payments relating to back-dated employer pension contributions and a number of other one-off special payments.

Other Provisions

This provision was established in 2012/13 to reflect costs associated with the decision to proceed with a review of the white fleet (non-operational vehicles) within the Authority

20 - Long Term Borrowing

The Authority undertakes long term borrowing, principally as a means of financing expenditure on fixed assets. No additional principal was borrowed nor repaid during the year. The interest owing and shown as short term borrowing in Note 18 represents the Public Works Loan Board (PWLB) interest accrued to the 31 March 2014 in accordance with the Code.

2013/14
£000£
(8,265)
(8,265)
_

The interest rates applicable as at 31 March 2014 were between 3.90% and 5.32%.

Long term external borrowing by repayment dates is shown in the table below:

2012/13		2013/14
£000	Repayments Dates	£000£
(883)	Maturing in less than 5 years	(1,468)
(1,205)	Maturing in 5 to 10 years	(1,620)
(2,000)	Maturing in 10 to 15 years	(1,000)
(1,376)	Maturing in 15 to 20 years	(1,376)
-	Maturing in 20 to 25 years	-
(2,801)	Maturing in over 25 years	(2,801)
(8,265)	Total	(8,265)

21 - Capital Grants Received in Advance

The balance on this account represents capital grants received by the Authority where the grant conditions had not been met as at the Balance Sheet date. In 2012/13 the Authority received a grant from the Environment Agency to part fund the purchase of a new environment protection unit in 2013/14. The conditions of this grant were not fulfilled during 2013/14 so the grant continues to be treated as a capital grant received in advance.

2012/13		2013/14
£000	Capital Grants Received in Advance	£000£
(24)	Environment Agency	(24)
(3)	Other Grants	
(27)	Total	(24)
	•	

22 - Finance Lease

In 2003/04 the Authority entered into a sale and leaseback agreement with Opus Housing Association (now London Quadrant) in respect of the Gerrards Cross Houses for a period of 40 years. The initial cost of the lease is matched by an increase in the value of land and buildings within fixed assets. The rentals payable under this arrangement in 2013/14 were £108,612, charged as £61,612 to the Income and Expenditure account finance costs and £47,000 write down of obligation to the lessor.

	Land and Buildings
Outstanding obligations under Finance Lease	£000
Payable in 2014/15	47
Payable between 2015/16 and 2018/19	188
Payable after 2018/19	1,638
Total liabilities as at 31st March 2014	1,873

Comparative information for 2012/13

Rentals payable under this arrangement were £104,335, charged as £57,335 to the Income and Expenditure account finance costs and £47,000 write down of obligation to the lessor.

Outstanding obligations under Finance Lease	Land and Buildings £000
Payable in 2013/14	47
Payable between 2014/15 and 2017/18	188
Payable after 2017/18	1,685

Sub Total Earmarked Reserves - Capital		(987)	(653)	(1,640)	(1,857)	(3,497)
Total Usable Reserves	-	(10,026)	(2,036)	(12,062)	(709)	(12,771)

A – General Fund Balance

This is a non-earmarked reserve and is kept at a prudent level in order to cover unforeseen eventualities and liabilities.

B – Fire Control Reserve

This was originally established in 2004/05 to assist with issues relating to regional control rooms. No proposal to remove this money has been made at this stage due the uncertainty surrounding the provision of control room services.

C – Invest to Save Reserve

This reserve provides one-off funding for initiatives that will help to generate long-term efficiencies within the Authority. The savings generated are used to top-up the reserve in order to fund further projects.

D – Moving Forward Reserve

This reserve was fully utilised in 2013/14 in order to contribute towards the repayment of the deficit on the Local Government Pension Scheme, which will generate a net revenue saving over the relevant period.

E – New Dimensions Reserve

This reserve has been setup to mitigate the risk of reduction or cessation of grant funding associated with Section 31 grants for Urban Search and Rescue and Incident Response Units.

F – Asset Management Reserve

This reserve was setup in 2010/11 to provide funding for the implementation of a new asset management system. This reserve was fully utilised in 2013/14.

G – Redundancy and Early Retirement Reserve

This reserve is used to fund the cost of redundancy and early retirements incurred as part of the Moving Forward Agenda. The net underspend for 2013/14 (after all other reserves movements) was transferred to this reserve to provide for future restructuring costs.

H – New Burdens Reserve

This reserve represents unused New Burdens grant set aside from previous years. This reserve was fully utilised during 2012/13.

I – Vehicle Reserve

This reserve is used to contribute towards the cost of replacing pool cars as they reach the end of their useful lives.

J – Funding Pressures Reserve

This reserve was created to assist with future pressures resulting from changes in Government grant funding. An additional £1.000m was added to the reserve in 2012/13 to reflect the increased uncertainty regarding future funding settlements. The amount utilised in 2013/14 was the remaining amount required to pay off the deficit on the Local Government Pension Scheme (see also the Moving Forward Reserve [D])

K – Control Room Reserve (Revenue)

This reserve contains the funding received in 2011/12 to contribute towards the revenue costs of combining control room services in future years. An additional transfer was made to this reserve in 2013/14 to cover the anticipated savings not fully realised in 2014/15 due to the delay in project go-live.

L – RDS Pension Contribution Reserve

This reserve has been setup to cover any potential costs that may be incurred in relation to backdated Retained Duty System (RDS) pensions. Not enough certainty exists at the moment to create a provision, but additional information is disclosed within Note 27 - Contingent Liabilities.

M – Continuing Projects Reserve

This reserve has been created to cover any potential overspends on a number of large scale projects currently being undertaken by the Authority.

N – Usable Capital Receipts Reserve

This reserve receives monies from the sale of capital assets and uses these monies towards the purchase of new assets.

O – Control Room Capital Grant Unapplied

This reserve contains the funding received in 2011/12 to contribute towards the capital costs of combining control room services in future years.

P – Other Capital Grants Unapplied

This reserve contains capital grant funding received and committed in 2013/14, but where delivery of the goods/service will take place in 2014/15.

Q - Revenue Contribution to Capital

This reserve represents funding set aside to contribute towards future capital expenditure in order to mitigate the need to fund the expenditure through additional borrowing.

24 - Unusable Reserves

a) Accumulated Absences Account

The Accumulated Absences Account mitigates any effect on the General Fund of having to include a provision for any outstanding leave owed to employees at the end of each financial year. There is a requirement that authorities are only required to fund holiday pay and similar benefits when they are used, rather than when employees earn the benefits. Amounts are transferred to this account until the benefits are used. The carrying balance is relatively high as the authority operates a January to December leave year.

2012/13 £000	Accumulated Absences Account	2013/14 £000
672	Opening Balance	676
(672)	Reversal of provision for accumulated absences for previous year	(676)
676	Accumulated absences for the year	653
676	Closing Balance	653

b) Capital Adjustment Account

It is a statutory requirement to have a Capital Adjustment Account. The balance on this account provides a balancing mechanism between the different rates at which assets are depreciated under the Code and are financed through the capital controls system.

2012/13 £000	Capital Adjustment Account	2013/14 £000
(21,963)	Opening Balance	(19,944)
1,806	Depreciation	2,022
26	Depreciation variance Historic to Current	120
(349)	Minimum Revenue Provision	(335)
2,081	Impairments	113
13	Assets written off on disposal	6
	Revenue contributions	
	Usable capital receipts	
(1,120)	Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	(939)
(438)	Application of grants to capital financing from the Capital Grants Unapplied Account	
	Movement in the Donated Assets Account credited to the Comprehensive Income and Expenditure Statement	
(19,944)	Closing Balance	(18,957)

c) Collection Fund Adjustment Account

It is a statutory requirement to have a Collection Fund Adjustment Account. The balance on this account represents the timing differences between statutory accounting requirements and full accruals accounting for council tax.

2012/13 £000	Collection Fund Adjustment Account	2013/14 £000
(221)	Opening Balance	(211)
10	Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements	(233)
-	Amount by which NNDR income credited to the Comprehensive Income and Expenditure Statement is different from NNDR income calculated for the year in accordance with statutory requirements	169
(211)	Closing Balance	(275)

d) Pensions Reserve

It is a statutory requirement to have a Pensions Reserve. This reserve represents a balancing figure, reported by the actuary, to allow for the liabilities of both the Local Government Pension Scheme and the Firefighter's Pension Fund, as required under IAS19.

2012/13 £000	Pensions Reserve	2013/14 £000
184,322	Opening Balance	197,426
11,709	Appropriations to and from (-) revenue	10,318
1,395	Actuarial gains (-) / losses relating to pensions	9,888
197,426	Closing Balance	217,632

e) Revaluation Reserve

It is a statutory requirement to have a Revaluation Reserve. This reserve records unrealised revaluation gains arising since the 1st April 2007 from the holding of fixed assets. As and when assets are revalued or revaluations are reversed then adjustments are made to this account. The revaluation reserve is also written down to the capital adjustment account over the remaining useful lives of the assets with revaluation reserve balances.

2012/13 £000	Revaluation Reserve	2013/14 £000
(437)	Opening Balance	(1,274)
(1,035)	Upward Asset revaluations	(3,644)
224	Downward Asset revaluations	
-	Impairment losses recognised in the Revaluation Reserve	
(26)	Depreciation difference - historic cost to current value	(120)
-	Other adjustments	
(1,274)	Closing Balance	(5,038)

25 - Donated Assets Account

In 2010/11 the Authority recognised on the Balance Sheet the value of the New Dimension Assets made available to it by the Government. The fair value of the assets was recognised within Vehicles, Plant and Equipment and a credit was recognised in the Donated Assets Account. In 2011/12 the Authority agreed to accept ownership of the assets and comply with the conditions set out in the transfer agreement. The balance on the Donated Assets Account was transferred to the Comprehensive Income and Expenditure Statement. Contra entries were made in the Movement in Reserves Statement and the Capital Adjustment Account to ensure that there is no impact on the General Fund.

The donated assets are now included within Vehicles, Plant and Equipment and will be depreciated over their remaining useful life on a straight-line basis. As at 31 March 2014 the balance on this account was zero. The account will remain at a zero balance unless any new donations of assets are made to the Authority.

26 - Contingent Assets

As at 31 March 2014, the Authority does not have any contingent assets.

27 - Contingent Liabilities

At 31 March 2014, the Authority had two contingent liabilities:

- The Authority is still awaiting the formal notification of the outcome of a case involving Retained Duty System (RDS) firefighters. The Authority could potentially be liable to pay backdated employer contributions relating to RDS pensions. If the Authority is liable, the amount to be paid would then be dependent on the number of firefighters who decide to backdate their employee contributions. Not enough certainty around the outcome exists at this moment in time for a provision to be required. The Authority created a reserve of £650k in 2011/12 to provide for potential future costs that may be incurred.
- The Authority is awaiting formal notification as to whether or not it will be charged interest in relation to the pension top-up grant that was over-claimed between April 2007 and March 2014. No amount has been recognised in the accounts due to the uncertainty as to whether interest will be applied, and if so, the rate applicable.

28 - Pension Schemes

As part of the terms and conditions of employment of its officers and other employees, the Authority offers retirement benefits. Although these will not actually be payable until employees retire, the Authority has a commitment to make the payments that need to be disclosed at the time that employees earn their future entitlement. The Authority participates in three pension schemes:

- The Local Government Pension Scheme for non-firefighter staff administered locally by Buckinghamshire County Council is a funded defined benefit final salary scheme, administered in accordance with the Local Government Pension Scheme (1997) as amended. The Authority and employees pay contributions into a fund, calculated at a level intended to balance the pension liabilities with investment assets. It is contracted out of the State Second Pension;
- The Fire Fighter Pension Scheme for uniformed fire fighters is an unfunded defined benefit statutory scheme, administered by Buckinghamshire County Council in accordance with the Fire Pension Scheme Orders (1992) as amended. It is contracted out of the State Second Pension. There are no investment assets held to back the liabilities of the scheme and cash has to be generated to meet actual pensions payments as they eventually fall due; and
- The Fire Fighter Pension Scheme for uniformed fire fighters (retained and new entrants from 1st April 2006) is an unfunded defined benefit statutory scheme, administered by Buckinghamshire County Council in accordance with the Fire Pension Scheme Orders (2006) as amended. It is contracted out of the State Second Pension. There are no investment assets held to back the liabilities of the scheme and cash has to be generated to meet actual pension payments as they eventually fall due.

Under the Firefighters' Pension Fund Regulations 2006 if the amounts receivable by the pension fund are less than amounts payable, the fire authority must annually transfer an amount required to meet the deficit to the Pension Fund. Subject to scrutiny and approval by Parliament and the Secretary of State up to 100% of this cost is met by central government top-grant. If however the pension fund is in surplus for the year, the surplus is required to be transferred from the pension fund to the Fire Authority which must then repay the amount to central government.

a) Transactions relating to retirement benefits

The Authority recognises the cost of retirement benefits in the Net Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge required to be made against council tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out in the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement.

Current Year 2013/14

Comprehensive Income and Expenditure Statement	LGPS	1992 Firefighters	2006 Firefighters	Total
	£000	£000	£000	£000
Cost of Services

Curtailment	(76)	-	-	(76)
Estimated benefits paid (net of transfers in)	(162)	5,451	3	5,292
Past Service Costs	-	-	-	-
Contribution by Scheme participants	(245)	(1,119)	(224)	(1,588)
Injury Pension payments	-	189	-	189
Present Value of scheme liabilities as at 31 March	(22,910)	(183,585)	(5,057)	(211,552)

Reconciliation of fair value of the scheme assets 2013/14

Reconciliation of fair value of the scheme assets	LGPS	1992 Firefighters	2006 Firefighters	Total
	£000	£000	£000	£000
Fair Value of scheme assets as at 1 April	14,126	-	-	14,126
Interest on Assets	702	-	-	702
Return on assets less interest	329	-	-	329
Other actuarial gains/(losses)	(304)	-	-	(304)
Administration expenses	(17)	-	-	(17)
Contributions by employer including unfunded	2,609	-	-	2,609
Contributions by Scheme participants	233	-	-	233
Estimated benefits paid plus unfunded net of transfers in	(542)	-	-	(542)
Fair Value of scheme assets as at 31 March	17,136	-	-	17,136

Prior year 2012/13

Reconciliation of fair value of the scheme assets	LGPS	1992 Firefighters	2006 Firefighters	Total
	£000	£000	£000	£000
Fair Value of scheme assets as at 1 April	10,742	-	-	10,742
Expected return on scheme assets	682	-	-	682
Actuarial gain / loss (-)	3,579	-	-	3,579
Employer Contributions	3,016	-	-	3,016
Contribution by Scheme participants	1,588	-	-	1,588
Estimated benefits paid (net of transfers in)	(5,481)	-	-	(5,481)
Fair Value of scheme assets as at 31 March	14,126	-	-	14,126

The expected return on scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields at the Balance Sheet date. Expected returns on equity investments reflect the long-term real rates of return experienced in the respective markets.

c) Scheme history

Reconciliation of present value of the scheme liabilities	2009/10	2010/11	2011/12	2012/13	2013/14
	£000	£000	£000	£000	£000
Present Value of Liabilities					
LGPS	(20,106)	(15,831)	(20,037)	(22,910)	(25,002)
1992 Firefighters Scheme	(186,736)	(140,866)	(171,253)	(183,585)	(205,349)
2006 Firefighters Scheme	(1,969)	(2,156)	(3,774)	(5,057)	(4,417)
Present Value of scheme liabilities as at 31 March	(208,811)	(158,853)	(195,064)	(211,552)	(234,768)
Fair Value of Assets					
LGPS	8,923	10,696	10,742	14,126	17,136
Total Assets - BMKFA estimated allocation of LGPS assets	8,923	10,696	10,742	14,126	17,136
LGPS Experience adjustments on scheme assets Surplus/Deficit (-) in the scheme	1,716	530	(1,131)	1,578	-
LGPS	(11,183)	(5,135)	(9,295)	(8,784)	(7,866)
1992 Firefighters Scheme	(186,736)	(140,866)	(171,253)	(183,585)	(205,349)
2006 Firefighters Scheme	(1,969)	(2,156)	(3,774)	(5,057)	(4,417)
Total	(199,888)	(148,157)	(184,322)	(197,426)	(217,632)

The liabilities show the underlying commitments that the Authority has in the long run to pay retirement benefits. The total liability of £217.632m has a substantial impact on the net worth of the Authority as recorded in the balance sheet, resulting in a negative overall balance of £180.482m. However, statutory arrangements for funding the deficit mean that the financial position of the Authority remains healthy:

- the deficit on the Local Government Scheme will be made good by increased contributions over the remaining working life of employees, as assessed by the Scheme Actuary every three years;
- Finance is only required to be raised to cover firefighter's pensions when the pensions are actually paid.

The total contributions expected to be made to the Local Government Pension Scheme by the Authority in the year to 31st March 2015 is £0.463m. Expected contributions for the 1992 Firefighters' Pension Scheme in the year to 31st March 2015 is £1.958m, with expected contributions of £0.280m for the 2006 scheme.

d) Basis for estimating assets and liabilities

Liabilities have been assessed on an actuarial basis using the Projected Unit Method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc.

Both the Firefighters' and Local Government schemes have been assessed by Barnett Waddingham, an independent firm of actuaries, based on the latest valuations (31 March 2013 for the Local Government scheme and the 31 March 2005 for the Firefighters' scheme).

The main assumptions used in their calculations have been:

	LGPS 2013/1		Firefighters 1992		Firefighters 2006	
	2012/13	4	2012/13	4	2012/13	4
Mortality Assumptions						
Longevity at 65 for current						
pensioners						
Men	20.10	23.60	21.60	23.40	21.60	23.40
Women	24.10	26.00	24.20	25.70	24.20	25.70
Longevity at 65 for future						
pensioners						
Men	22.10	25.80	23.50	25.60	23.50	25.60
Women	26.00	28.30	26.00	28.00	26.00	28.00
Financial Assumptions						
Rate of Inflation (RPI)	3.40%	3.70%	3.40%	3.60%	3.40%	3.60%
Rate of Inflation (CPI)	2.60%	2.90%	2.60%	2.80%	2.60%	2.80%
Rate of salary inflation	4.80%	4.70%	4.90%	4.60%	4.90%	4.60%
Rate of pensions inflation	2.60%	2.90%	2.60%	2.80%	2.60%	2.80%
Rate for discounting scheme liabilities	4.60%	4.50%	4.60%	4.50%	4.60%	4.50%
Take up of option to convert annual pension into retirement lump sum	50.00%	50.00%	50.00%	50.00%	50.00%	50.00%

The Local Government Pension Scheme's assets consist of the following categories by proportion of Buckinghamshire and Milton Keynes Fire Authority's estimated allocation. The prior year figures have been restated to enable comparison with the more detailed breakdown required under the revised IAS 19 standard:

Restated 31 Mai	ch 2013		31 March 20	014
£000	%	LGPS	£000	%
565	4%	Gilts	857	5%
9,889	70%	UK Equities	3,256	19%
n/a	n/a	Overseas Equities	7,026	41%
n/a	n/a	Private Equity	1,371	8%
1,271	9%	Other Bonds	1,714	10%
1,130	8%	Property	1,371	8%
141	1%	Cash	171	1%
1,130	8%	Alternative Assets	n/a	n/a
n/a	n/a	Hedge Funds	685	4%
n/a	n/a	Absolute Return Portfolio	685	4%
14,126	100%	Total	17,136	100%

The Firefighters Pension Schemes have no assets to cover their liabilities.

e) Sensitivity Analysis

The following tables show a sensitivity analysis on the major assumptions used in the valuations:

LGPS Sensitivity Analysis	£000	£000	£000
Adjustment to discount rate	+0.1%	0.0%	-0.1%
Present value of total obligation	24,485	25,002	25,530
Projected service cost	861	882	903
Adjustment to long term salary increase	+0.1%	0.0%	-0.1%
Present value of total obligation	25,100	25,002	24,905
Projected service cost	882	882	882
Adjustment to pension increases and deferred revaluation	+0.1%	0.0%	-0.1%
Present value of total obligation	25,440	25,002	24,574

Adjustment to discount rate	+0.1%	0.0%	-0.1%
Present value of total obligation	4,338	4,417	4,498
Projected service cost	809	829	848
Adjustment to long term salary increase	+0.1%	0.0%	-0.1%
Present value of total obligation	4,440	4,417	4,394
Projected service cost	829	829	829
Adjustment to pension increases and deferred revaluation	+0.1%	0.0%	-0.1%
Present value of total obligation	4,476	4,417	4,359
Projected service cost	849	829	809
Adjustment to mortality age rating assumption	+1 year	None	- 1 Year
Present value of total obligation	4,268	4,417	4,568
Projected service cost	801	829	857

29 - Financial Instruments

a) Financial Instruments Balances

The borrowings and investments disclosed in the Balance Sheet are made up of the following categories of financial instruments:

	Long Term		Current	
	31 March 2013	31 March 2014	31 March 2013	31 March 2014
	£000	£000	£000	£000
Financial liabilities at amortised cost	(10,185)	(10,138)	(1,407)	(1,633)
Total Borrowings	(10,185)	(10,138)	(1,407)	(1,633)
Loans and receivables	-	-	15,638	15,922
Total Investments	-	-	15,638	15,922

b) Financial Instruments gains and losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement and the Movement in Reserves Statement in relation to financial instruments are made up as follows.

		Financial Liabilities 2013/14	Financial Assets 2013/14			
2012/13	Financial Instruments Gains and Losses	Liabilities measured at amortised cost	Loans and receivables	Available for sale assets	Fair value through the CIES account	Total
£000		£000	£000	£000	£000	£000
380	Interest expense	380	-	-	-	380
-	Losses on derecognition	-	-	-	-	-
	Impairment losses	-	-	-	-	-
380	Interest payable and similar charges	380	-	-	-	380
(76)	Interest income	-	(142)	-	-	(142)
-	Gains on derecognition	-	-	-	-	-
(76)	Interest and investment income	-	(142)	-	-	(142)
-	Gains on revaluation	-	-	-	-	-
-	Losses on revaluation	-	-	-	-	-
-	Amounts recycled to the CIES after impairment	-	-	-	-	-
-	Surplus arising on revaluation of financial assets	-	-	-	-	-
304	Net gain/loss (-) for the	380	(142)	-	-	238

A reconciliation of the net gain on Loans and Receivables to Investment Income as shown in the Comprehensive Income and Expenditure Statement is given below.

2012/13 £000		2013/14 £000
-	Financial Instruments gain	-
(16)	Rental income from investment properties	(16)
-	Movement in fair value of investment properties	-
(60)	Interest on investments	(126)
(76)	Total Investment income received in the CIES	(142)

c) Fair value of assets and liabilities carried at amortised cost

Financial liabilities and financial assets represented by loans, finance leases and receivables are carried on the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments, using the following assumptions:

- The fair values for financial liabilities have been determined by reference to the Public Works Loans Board (PWLB) redemption rules and prevailing PWLB redemption rates as at each balance sheet date, and include accrued interest. It should be noted that the redemption rules applying to PWLB debt changed on 1 November 2007, and are less favourable than the previous procedures.
- No early repayment or impairment is recognised;
- Where an instrument will mature in the next 12 months, the carrying amount is assumed to be approximate to fair value;
- The fair value of trade and other receivables is taken to be invoiced or billed amounts.

The fair values calculated are as follows:

	31 March 2013		31 March 2014	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	£000	£000	£000	£000
PWLB Debt at amortised cost	(8,265)	(10,518)	(8,265)	(9,810)
Finance Lease	(1,920)	(1,920)	(1,873)	(1,873)
Creditors	(1,407)	(1,407)	(1,633)	(1,633)
Total Financial Liabilities	(11,592)	(13,845)	(11,771)	(13,316)
Cash and cash equivalents	15,324	15,324	2,248	2,248
Short Term Investments	-	-	13,108	13,108
Debtors	314	314	566	566
Total Loans and Receivables	15,638	15,638	15,922	15,922

The differences between the carrying amount and the fair value of PWLB debt are due to the fixed rate of interest on the loans being different from the prevailing rate at 31 March 2014. All creditors and other payables are due to be paid in less than one year.

d) Nature and extent of risk arising from financial instruments

The Authority's activities expose it to a variety of financial risks, the key risks are:

- Credit risk the possibility that other parties might fail to pay amounts due to the Authority;
- Liquidity risk the possibility that the Authority might not have funds available to meet its commitments to make payments;
- Re-financing risk the possibility that the Authority might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms; and
- Market risk the possibility that financial loss might arise for the Authority as a result of changes in such measures as interest rates movements.

e) Overall procedures for managing risk

The Authority's overall risk management procedures focus on the unpredictability of financial markets, and implementing restrictions to minimise these risks. The procedures for risk management are set out through a legal framework set out in the Local Government Act 2003 and the associated regulations. These require the Authority to comply with the CIPFA Prudential Code, the CIPFA Treasury Management in the Public Services Code of Practice and Investment Guidance issued through the Act. Overall these procedures require the Authority to manage risk in the following ways:

- by formally adopting the requirements of the Code of Practice;
- by approving annually in advance prudential indicators for the following three years limiting;
 i.) the Authority's overall borrowing
 - ii.) the maximum and minimum exposures to fixed and variable rates
- by approving an investment strategy for the forthcoming year setting out its criteria for investing and compliance with the Government Guidance.

These are required to be reported and approved at or before the Authority's annual council tax setting budget. These items are reported with the annual Treasury Management Strategy which outlines the detailed approach to managing risk. Actual performance is also reported annually to Members. The Authority maintains written principles for overall risk management as well as the investment of surplus cash through the Treasury Management Policy approved by the Authority.

f) Credit risk and Liquidity Risk

Investment Policy

In accordance with guidance from the DCLG and CIPFA, and in order to minimise the risk to investments, the Authority has below clearly stipulated the minimum acceptable credit quality of counterparties for inclusion on the lending list. The creditworthiness methodology used to create the counterparty list fully accounts for the ratings, watches and outlooks published by all three ratings agencies with a full understanding of what these reflect in the eyes of each agency. Using the Capita ratings service potential counterparty ratings are monitored on a real time basis with knowledge of any changes notified electronically as the agencies notify modifications.

Furthermore, the Authority's officers recognise that ratings should not be the sole determinant of the quality of an institution and that it is important to continually assess and monitor the financial sector on both a micro and macro basis and in relation to the economic and political environments in which institutions operate. The assessment will also take account of information that reflects the opinion of the markets. To this end the Authority will engage with its advisors to maintain a monitor on market pricing such as credit default swaps (CDS) and overlay that information on top of the credit ratings. This is fully integrated into the credit methodology provided by the advisors, Capita in producing its colour codings which show the varying degrees of suggested creditworthiness.

Other information sources used will include the financial press, share price and other such information pertaining to the banking sector in order to establish the most robust scrutiny process on the suitability of potential investment counterparties.

The aim of the strategy is to generate a list of highly creditworthy counterparties which will also enable diversification and thus avoidance of concentration risk. The intention of the strategy is to provide security of investment and minimisation of risk.

Creditworthiness Policy

This Authority applies the creditworthiness service provided by Capita. This service employs a sophisticated modelling approach utilising credit ratings from the three main credit rating agencies - Fitch, Moody's and Standard and Poor's. The credit ratings of counterparties are supplemented with the following overlays:

- · credit watches and credit outlooks from credit rating agencies
- CDS spreads to give early warning of likely changes in credit ratings;
- sovereign ratings to select counterparties from only the most creditworthy countries.

This modelling approach combines credit ratings, credit watches and credit outlooks in a weighted scoring system which is then combined with an overlay of CDS spreads for which the end product is a series of colour coded bands which indicate the relative creditworthiness of counterparties. These colour codes are used by the Authority to determine the suggested duration for investments. The Authority will therefore use counterparties within the following durational bands:

- Yellow 5 years
- Purple 2 years
 - 1 year (only applies to nationalised or semi nationalised UK Banks)
- Orange 1 year

Blue

- Red 6 months
- Green 3 months
- No colour not to be used

The Capita creditworthiness service uses a wider array of information than just primary ratings and by using a risk weighted scoring system, does not give undue preponderance to just one agency's ratings.

Typically the minimum credit ratings criteria the Authority use will be a short term rating (Fitch or equivalents) of short term rating F1, long term rating A-, viability rating of A-, and a support rating of 1 There may be occasions when the counterparty ratings from one rating agency are marginally lower than these ratings but may still be used. In these instances consideration will be given to the whole range of ratings available, or other topical market information, to support their use.

All credit ratings will be monitored weekly. The Authority is alerted to changes to ratings of all three agencies through its use of the Capita creditworthiness service.

• If a downgrade results in the counterparty / investment scheme no longer meeting the Authority's minimum criteria, its further use as a new investment will be withdrawn immediately.

• in addition to the use of credit ratings the Authority will be advised of information in movements in credit default swap spreads against the iTraxx benchmark and other market data on a weekly basis.

Extreme market movements may result in downgrade of an institution or removal from the Authority's lending list. Sole reliance will not be placed on the use of this external service. In addition this Authority will also use market data and market information, information on government support for banks and the credit ratings of that supporting government. The Authority will also invest in AAA rated money market funds during the year.

Country Limits

In 2013/14, the Authority determined that it would only use approved counterparties based within the United Kingdom during the year.

Counterparty Limits

The Authority has determined that the maximum balance that can be invested with a single counterparty at any point in time will be no more than 30% of the portfolio, up to a limit of £5 million.

Investment Security

Investments are defined as being in one of two categories:

Specified investments – these are investments with high security and high liquidity. All specified investments are in sterling and have a maturity of no more than one year. They will be with the UK government, a local authority, a parish council or with an investment scheme or body of "high credit quality" (as judged against the Creditworthiness Policy detailed earlier in this paper)
Non-specified investments – any type of investment that is not a specified investment. The Authority does plan to make any non-specified investments during the year.

Investment Training

Relevant training and updates will be provided to relevant staff by the external treasury management advisors. This will be supplemented by additional training from CIPFA where necessary.

Investment of Money Borrowed in Advance of Need

The Authority does not currently have any money that has been borrowed in advance of need. No further borrowing is planned over the medium term.

Investment Liquidity

In consultation with external treasury advisors, the Authority will review its balance sheet position, level of reserves and cash requirements in order to determine the length of time for which investments can be prudently committed. Investments will be placed at a range of maturities, including having money on-call in order to maintain adequate liquidity.

g) Refinancing and maturity risk

The Authority maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer term risk to the Authority relates to managing the exposure to replacing PWLB Loans as they mature. It is possible that provisions will be made available to meet all PWLB Loans without the direct need to replace loans as they mature, therefore no risk / impairment or other adjustment is required.

A fair value debt calculation of £9.810m has been provided by the PWLB on the Authority's behalf

The maturity analysis of financial liabilities is as follows:

31 March 2013 £000		31 March 2014 £000
(101)	Maturing in less than 1 year	(101)
-	Maturing within 2 years	(515)
(883)	Maturing within 2 to 5 years	(953)
(1,205)	Maturing within 5 to 10 years	(1,620)
(6,177)	Maturing in more than 10 years	(5,177)
(8,366)	Total	(8,366)

h) Market risk

Interest rate risk

The Authority is exposed to interest rate movements on its investments as borrowings are taken at fixed rate and are carried at amortised cost. Movements in interest rates have a complex impact on the Authority, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

- borrowings at fixed rates the fair value of the borrowing liability will fall;
- investments at variable rates the interest income credited to the Income and Expenditure Account will rise.

Borrowings are not carried at fair value on the balance sheet but are carried at amortised cost, so nominal gains and losses on fixed rate borrowings would not impact on the Comprehensive Income and Expenditure Account (CIES). However, changes in interest payable on fixed rate borrowings and variable rate investments will be posted to the CIES and affect the General Fund Balance. Movements in the fair value of any variable rate investments will be reflected in Other Comprehensive Income and Expenditure, unless the investments have already been designated as fair value through the CIES.

The Authority has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the Authority's prudential indicators and its expected treasury operations. From this Strategy a prudential indicator is set which provides maximum and minimum limits for fixed and variable interest rate exposure.

If interest rates had been 1% higher with all other variables held constant the financial effect would be:

	2013/14 £000
Increase in interest payable on variable rate borrowings	-
Increase in interest receivable on variable rate investments	154
Increase in government grant receivable for financing costs	
Impact on Comprehensive Income and Expenditure Statement	154
Decrease in fair value of fixed rate borrowing liabilities which has no impact on the Comprehensive Income and Expenditure Statement	-
Total Financial Effect	154

If rates had been 1% lower the amounts would be reversed.

Price risk

The Authority, excluding its share of assets in the Local Government Pension Scheme does not invest in equity shares.

Foreign Exchange risk

The Authority has no financial assets or liabilities denominated in foreign currencies. It therefore has no exposure to loss arising from movements in exchange rates.

30 - Events After the Balance Sheet Date

Post balance sheet events occur between the balance sheet date and the date the accounts are signed by the Director of Finance and Assets & Chief Finance Officer. Events which have a material effect on the accounts must be disclosed in a note to the accounts.

Following a review by DCLG during August, it was found that injury pension payments that should have been charged to the operating account from 1 April 2006 had instead been charged to the pension account. This has necessitated a prior period adjustment to correct this error (see Note 31)

31 - Prior Period Adjustments

The revised IAS19 standard for accounting periods beginning on or after 1 January 2013 did not have a material effect on prior year balances, so no adjustment has been made in these accounts.

Following the discovery of a historic error relating to injury pension payments, the following prior period adjustments have been made in the accounts:

	As per 2012/13 Accounts	Adjustment	Restated Balance
Balance Sheet as at 31 March 2012			
Short term creditors	(1,952)	(996)	(2,948)
Current Liabilities	(3,238)	(996)	(4,234)
Net Assets	(151,351)	(996)	(152,347)
Usable Reserves	(11,022)	996	(10,026)
Total Reserves	151,351	996	152,347

	As per 2012/13 Accounts	Adjustment	Restated Balance
Balance Sheet as at 31 March 2013			
Short term creditors	(2,064)	(1,187)	(3,251)
Current Liabilities	(3,238)	(1,187)	(4,425)
Net Assets	(163,424)	(1,187)	(164,611)
Usable Reserves	(13,249)	1,187	(12,062)
Total Reserves	163,424	1,187	164,611
	As per 2012/13 Accounts	Adjustment	Restated Balance
Comprehensive Income and Expenditure Statement 2012/13			
Firefighting and Rescue Operations (Net)	30,463	191	30,654
(Surplus) or Deficit on Continuing Operations (Net)	34,581	191	34,772
(Surplus) or Deficit on Provision of Services (Net)	11,489	191	11,680
Total Comprehensive Income and Expenditure	12,073	191	12,264

The Movement in Reserves statement reflects the adjustments above, as well as the additional adjustments shown below:

	As per 2012/13 Accounts	Adjustment	Restated Balance
Movement in Reserves Statement 2012/13			
General Fund			
Net (Increase) / Decrease before Transfers to Earmarked Reserves	(2,646)	191	(2,455)
Transfers to/from Earmarked Reserves	2,646	(191)	2,455
(Increase) / Decrease in 2012/13	-	-	-
Earmarked Reserves			
Net (Increase) / Decrease before Transfers to Earmarked Reserves	(20)	-	(20)
Transfers to/from Earmarked Reserves	(2,207)	191	(2,016)
(Increase) / Decrease in 2012/13	(2,227)	191	(2,036)

There is no net change in the cash position, only an adjustment between the deficit on the provision of services and non-cash movements:

	As per 2012/13 Accounts	Adjustment	Restated Balance
Cash Flow Statement 2012/13			
Net surplus or deficit on the provision of services	(11,489)	(191)	(11,680)
Adjust for non-cash movements	15,515	191	15,706
Net Cash Flow from Operating Activities	2,834	-	2,834

32 - Notes to the Cash Flow Statement

a) Net Cash flows from Operating Activities

2012/13 £000		2013/14 £000
(11,680)	Net Surplus or (Deficit) on the Provision of Services	(10,288)
3,887	Depreciation, amortisation, impairment and downward valuations	2,156
303	Net Movement in Creditors	297
(144)	Net Movement in Debtors	(1,320)
50	Net Movement in Stocks	17
11,709	Adjustment regarding Pension Liability	10,318
(112)	Contributions to/from Provisions	190
13	Carrying amount of non-current assets sold	6
15,706		11,664
(1,172)	Capital Grants Credited to surplus or deficit on the provision of services	(1,193)
(20)	Proceeds from the sale of assets	(6)
(1,192)		(1,199)
2,834	Net Cash Flows from Operating Activities	177

b) Net Cash flows from Operating Activities (Interest)

2012/13 £000		2013/14 £000
76	Ordinary interest received	142
-	Interest received on cash backed funds/reserves	
76		142
(380)	Interest charge for year	(380)

Notes to the Firefighters' Pension Fund Account

1 - Pension Fund Arrangements

Before 1st April 2006 the Firefighters' Pension Scheme did not have a percentage of pensionable pay contribution from employers: rather the Authority was responsible for paying the pensions of its own former employees on a pay-as-you-go basis. Under the new funding arrangements the scheme remains unfunded but will no longer be on a pay-as-you-go basis as far as the Authority is concerned. The Authority will no longer meet the pension outgoings directly: instead they will pay an employer's pension contribution based on a percentage of pay into the Pension Fund. The Authority is required by legislation to operate a Pension Fund and the amounts that must be paid into and paid out of the Pension Fund are specified by regulation. Benefits payable are funded by contributions from employees.

Employers' contribution levels are based on percentages of pensionable pay set nationally by the DCLG and subject to triennial revaluation by the Government Actuary's Department.

Subject to scrutiny and approval by the Secretary of State and Parliament, under the new arrangements the Pension Fund will be balanced to nil at the end of the year by either paying over to the sponsoring department (DCLG) the amount by which the amounts receivable by the Fund for the year exceeded the amounts payable, or by receiving cash in the form of pension top-up grant from the sponsoring department equal to the amount by which the amount payable from the pension fund for the year exceeded the amount receivable.

2 - Pension Fund Accounting Policies

The accounting policies followed are the same as for the main accounts of the Authority.

3 - Balancing the Pension Fund Account

If the Pension Fund Account is not balanced to nil by pension top-up grant receivable or by the amount payable to the sponsoring department the Pension Fund should be balanced to nil by a supplementary contribution from the authority to the Pension Fund or by the Pension Fund returning contribution to the Authority.

This is shown under Short Term Debtors in Note 16 in the notes to the core financial statements.

The Net Assets Statement does not include liabilities to pay pensions and other benefits after the Balance Sheet Date.

4 - Pension Fund Investment Assets

As the Scheme is unfunded there are no investment assets.

5 – Liabilities Shown in the Authority's Main Statements

The liabilities relating to the Firefighters' Pension scheme can be seen in Note 28 of the main statements.

Glossary of Terms

Amortisation / Amortise

The equivalent of depreciation when applied to intangible assets.

Accruals

Used to describe allocating expenditure or income to the relevant financial year. Includes Debtors, Creditors and Prepayments

BMKFA

Acronym for Buckinghamshire & Milton Keynes Fire Authority.

Budget

A statement of the Authority's expected level of service delivery plans expressed in monetary terms and spending over a set period, usually one year.

BCC

Buckinghamshire County Council. BCC provide some services to the Authority under a service level agreement.

Capitalisation

Capitalisation is the addition to the balance sheet as an asset of an amount that will benefit the Authority for more than one year.

Capital Adjustment Account

Provides a balancing mechanism between the different rates at which assets are depreciated under the Code and are financed through the capital controls system.

Capital Financing Requirement

Measures the Authority's underlying need to borrow or finance by other long-term liabilities for a capital purpose. It represents the amount of capital expenditure that has not yet been resourced, whether at the point of spend or over the longer term

Capital Receipts

Proceeds from the sale of capital assets that must be used to finance new capital expenditure or reduce the existing Capital Financing Requirement. Receipts available to finance capital expenditure in future years are held in the Usable Capital Receipts Reserve.

Carrying Amount

The carrying amount refers to the amounts that the Authority has on its books for an asset or a liability. For example, the carrying amount of the authority's rescue pump is the cost of the rescue pump minus the accumulated depreciation on the rescue pump.

CIES

Comprehensive Income and Expenditure Statement. This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation.

CIPFA

Chartered Institute of Public Finance and Accountancy.

The Code

The Code of Practice on Local Authority Accounting in the United Kingdom. Sets out the proper practices for producing the Statement of Accounts.

CPFA

Chartered Public Finance Accountant.

CPI (see also RPI)

Consumer Price Index, a key measure of inflation in the UK.

Collection Fund Adjustment Account

Provides a balancing mechanism for the timing differences between statutory accounting requirements and full accruals accounting for council tax.

Council Tax Support Scheme

Regulations introduced in April 2013 that allow councils to design their own schemes to provide incentives for people to find and stay in work.

Creditors

Amounts owed by the Authority at the Balance Sheet date for goods received or work done.

Curtailment

The early payment of accrued pensions upon retirement.

DCLG

Department for Communities and Local Government.

Debtors

Amounts due to the Authority but remaining unpaid at the Balance Sheet date.

Depreciation

The loss of value of assets due to wear and tear, age or obsolescence.

Derecognition

The removal of a previously recognised financial asset or liability from the balance sheet following the transfer of asset to a third party or expiry of contractural rights to an asset.

EUV

Existing Use Value. The price at which a property can be sold on the open market assuming that it can only be used for the existing use for the foreseeable future.

Fair Value

<u>Asset</u> – the amount at which that asset could be bought or sold in a current transaction between willing parties, other than in a liquidation.

<u>Liability</u>- the amount at which that liability could be incurred or settled in a current transaction between willing parties, other than in liquidation.

Financial Instrument

A legal agreement involving some sort of monetary value. Financial instruments can be classified generally as equity based, representing ownership of the asset, or debt based, representing a loan made by an investor to the owner of the asset

General Fund

The balance held by the Authority against which the council tax is raised. The balance sheet shows the accumulated surplus from previous years.

HMRC

Her Majesty's Revenue & Customs.

IAS

International Accounting Standards which have come into effect with the introduction of International Financial Reporting Standards(IFRS).

IAS 19 (formerly FRS17)

The accounting standard that sets out (amongst other things) the requirements and accounting treatment for retirement benefits.

IFRS

The International Financial Reporting Standards which became applicable from the 1st April 2010. All future accounts will be presented using these standards.

Impairments

A downward movement in the value of assets; the opposite to revaluation (upwards) of asset values.

IRMP

The Integrated Risk Management Plan covers the 3 years 2010 – 13 and explains what BMKFA is going to do to develop its services for the future.

LIFO

Last in First Out is one of a number of methods for calculating the carrying value of inventories.

Loans Outstanding

Loans raised to finance capital spending which have to be repaid.

Local Government Pension Scheme (LGPS)

Is the Pension Scheme provided by the Authority for employees not eligible to join the Firefighters' Pension Scheme.

Lower of Cost and Net Realisable Value

A method for determining an asset's value such that either the original cost or the current replacement cost, whichever is lowest, is used for financial reporting purposes

Materiality

Information is material if its omission or misstatement could influence the economic decisions of users taken on the basis of the financial statements.

Minimum Revenue Provision (MRP)

The minimum amount of the Authority's outstanding debt which must be repaid by the revenue accounts in the year.

National Non-Domestic Rates (NNDR)

Also known as Business Rates, these are collected by local authorities and are the way that those who occupy non-domestic property contribute towards the cost of local services.

NJC

National Joint Council for Local Authority Fire and Rescue Services.

Outturn

The actual level of spending and income in a particular year.

Precept

An amount of money levied by one authority (the precepting authority) which is collected by another authority (the billing authority) as part of the council tax. BMKFA is a precepting authority and the four Buckinghamshire District Councils and Milton Keynes Council are the billing authorities.

Prepayments

Where the authority pays for goods or services before they have been received, any amounts paid but not received by the end of an accounting period are shown in the balance sheet as prepayments.

Provisions

These are sums set aside for a specific purpose, the nature of which is known but the exact amount and due date is not.

Public Works Loan Board (PWLB)

A government body from which a local authority may raise long term loans.

Realised/Unrealised Gains

A realised gain is the capital gain that you make on an asset that you receive in the form of cash. An unrealised gain an increase in the carrying value of an asset that has yet to be sold.

Revaluation

Revaluation of fixed assets is the process of increasing or decreasing their carrying value to reflect changes in fair value.

Revaluation Reserve

Records unrealised revaluation gains arising (since 1st April 2007) from holding fixed assets.

Revenue Expenditure

This is spending on the day to day running expenses of the Authority. It includes expenses such as salary and wages, heating, lighting, rent, rates and stationery.

Reserves

Amounts set aside in one year to fund expenditure in subsequent years

Revenue Support Grant (RSG)

An amount of money given by central government to local authorities each year

RICS

Royal Institute of Chartered Surveyors

RPI

Retail Price Index, a measure of inflation in the UK. CPI excludes most owner occupier housing costs while the RPI includes mortgage interest payments and house depreciation. RPI generally produces a higher inflation figure than CPI.

SAP

The accounting system software used at Buckinghamshire and Milton Keynes Fire Authority.

SeRCOP

Service reporting Code of Practice 2011/12 replaces the Best Value Accounting Code of Practice (BVACOP) produced by CIPFA to establish a reporting protocol to demonstrate transparency and best value in the provision of services to the community.

UITF

Urgent Issue Task Force abstracts are issued by the Accounting Standards Board.

Write Down

A reduction in the book value of an asset due to depreciation or a decline in market value.
