Corporate Risks

| | Head of Service delivery is working with SC's to review reward options HR are reviewing the future promotion and career development options Competent temporary SC's substantiated without full IFE (December 2017) and a review of impact on Watch and Crew will be taking place December 2107. Full suite of appointments planned for 2018 No change to risk score. However, this will be reviewed again in light of any decision staken at the upcoming FBU conference following the votice of the ballot in which FBU members rejected the employer's on notice' of a potential trade dispute with the possibility of industrial action of apy proposal from the employers. – S8% of FBU members took part in the ballot to reject the offer. The Government's application to appeal the Court of Appeal ruling that the transition arrangements for H2015 Firefighters Pension Scheme were unlawful was refused on 27 June 2019. The case will now be remitted back to the employment tribunal for remedy. This decision will impact on retirement dates and staff retention. Workforce plan modelling is underway covering a range of potential iscanaios. The secenarios. Will be refined as the remedy is |

| Fin 14 – Funding and Savings Requirement | Director Finance & Assets | The funding settlement now assumes that a council tax increase is required each year in line with the prevailing capping limit, currently 3% for the Fire Authority, and that local growth meets expectations. If either, or both, did not come to fruition then there is a risk the Authority will not meet its commitment to the PSP 2015-20 and that a fundamental re-think of service provision would be required. | (4) (3) (3) 4 | (4) (4) (4) 4 | (16) (12) (12) 16 | H M H | Proactive management of the MTFP is in force and is very closely aligned to workforce planning. For the present, USAR (S31) grant funding is assumed to continue, though notification now seems to be year on year and often after budget setting. If removed, the Authority will need to cope with a circa £800k cut in funding. The Authority has responded to consultations and lobbied MPs to increase the referendum threshold for fire authorities to £12. | R | 5 June 2018 SMB The Authority has not received any reassurance regarding the long-term viability of USAR grant funding. There is also no clarity as to the level of any pay-award, and whether or not amounts above 1% will be funded centrally or not. Concerns around levels of funding and current uncertainty were raised with the Home Office during a conference call discussing 'Fire Risk and Demand'. There is currently a forecast budget deficit of £440k for 2019-20. If the level of Council Tax surpluses seen in previous years is forthcoming, and if the local business rates pool continues for a further year, the Authority could conceivably set a balanced budget for 2019-20 by restricting non-pay inflationary rises and not approving any other budget increases. Any other non-budgeted increases or overspends could be covered by reserves for one-year (although this would impact on future investment). After 2019-20 the Authority should have a better indication of future funding, as the outcomes of the upcoming Comprehensive Spending Review and Fair Funding Review will be published. Until then, the risk is to remain as 'Red'. 18 September 2018 SMB In addition to the risks noted at 5 June 2018 SMB, further information has been received in relation to employers' contributions to the firefighter's pension scheme (a risk originally anticipated | |

| Risk of physical disruption to Service operations due to UK withdrawal from the EU without a formal exit agreement (the so-called 'No Deal Brexit'. | Heads of Service Develop- ment and Delivery. | Disruption to procurement processes leading to potential shortages of equipment or consumables. Disruption to transportation delaying personnel and or vehicle movements. | P 4 | 1 2 | 8 | M | The likely impact of short-term disruption to supplies of equipment to the Service is considered to be low given that: most Authority procurement contracts are with UK based suppliers; and, the relatively long timescales for procurement within the sector. Advice and guidance from the NFCC and Fire Industries Association in relation to this risk is monitored and acted on as required. The risk of transport disruption is considered relatively low due to absence of ports and international airports within the area served by the Authority. Authority officers are actively involved in in TVLRF risk evaluation and mitigation planning for the wider Thames Valley area. | M | 12 February 2019 SMB Service business continuity plans will be reviewed and updated in light of any localised requirements arising from the ongoing work of the NFCC and TVLRF in relation to EU exit risk evaluation and mitigation planning. Initial risk score remains appropriate given ongoing potential for a 'no deal' Brexit with high likelihood of low / medium impact on the Authority in the short term. The main risks to the Authority are more likely to arise over the medium to long term from the fiscal effect of Brexit and any potential impact on funding streams – especially from central government. These are scenario dependent, as yet unknown, and will be considered within the funding and savings risk when more is known about the likely impact any EU exit arrangements D Sth April 2019) Prime Minister Theresa May wrote to the EU to request another short extension until the 30th June. It is unlikely the EU will provide a short extension, but could provide a 'flex-tension' where a longer date is given up to March 2020 but at the point of a deal (any point earlier) the exit could happen. The Prime Minister has agreed if the UK were in the EU on the 23rd May, MEP elections would take place. MHCLG have advised to still plan for a 12th April 2019 no deal until it is off the table. |

| | | | | 25 April 2019 PMB |
|--|--|--|--|---|
| | | | | EU response to Prime Minister's request was |
| | | | | to offer an extension to 31 October 2019. In |
| | | | | light of this 'no-deal' EU exit scenario |
| | | | | reporting to Home Office, NFCC and TVLRF |
| | | | | has been suspended pending clarification of |
| | | | | new exit arrangements and date. |
| | | | | 14 May 2019 SMB |
| | | | | No change to risk score pending clarification |
| | | | | of likely EU exit scenario. |
