Buckinghamshire & Milton Keynes Fire Authority

MEETING	Fire Authority
DATE OF MEETING	13 June 2018
OFFICER	Lynne Swift, Director of People & Organisational Development
LEAD MEMBER	Councillor Steven Lambert
SUBJECT OF THE REPORT	Update on Buckinghamshire & Milton Keynes Fire Authority Apprenticeship Programme
EXECUTIVE SUMMARY	This report is presented to members of Buckinghamshire & Milton Keynes Fire Authority (the Authority) as an update on the Authority's apprenticeship programme.
	The Authority introduced its apprenticeship programme in 2016, with its key areas of focus being: how apprentices can be utilised most effectively; highlighting the importance of improving the diversity of our workforce; offering career development opportunities to our existing employees, and increasing the resilience of our workforce.
	2017/18:
	At the end of 2017/18, apprentices made up 6.6 percent of the Authority's total workforce, working to a number of different apprenticeship standards (summarised in Annex A). This exceeds (the Government's target of 2.3 percent which equates to the equivalent of 12 full time equivalent (FTE) per year. 2017/18 was the first full year of the Government's apprenticeship reform agenda, and for which all providers have to submit reports to the National Apprenticeship Service by the 30 th September 2018. Whilst targets and the apprenticeship levy were introduced for 2017/18, the aim of the Authority's programme continues to be the strategically targeted and sustainable refreshment of the workforce, rather than designed to meet Government targets.
	2018/19
	Fourteen new apprentice firefighters started their initial acquisition training, known as the Firefighter Development Programme, in April 2018. This 12 week blended training course is accredited by Skills For Justice and delivered under the Training Partnership with The Fire Service College. Once completed, the apprentice firefighters will be placed on station from

	23July 2018.
	In August 2018, the first cohort of apprentices (18 firefighters and two business administrators) who started in 2016 will be finishing their apprenticeships.
	Two of the existing workforce are currently enrolled on apprenticeships in Management & Leadership and, following the appointment of a Management Apprenticeship training provider, a further 20+ of the workforce will be enrolled on these apprenticeships in 2018/19.
	Again, based on these figures, the Authority has exceeded both the Government's target for apprenticeships, and its own as outlined in the Pledge submitted to the Apprenticeship Diversity Champions Network. The total number of apprentices (including support services) compared to total headcount is currently 11 percent. Annex A provides a more detailed update on the Authority's apprenticeship programme. Appendix 1 provides information on the national position – where the Authority makes a significant contribution through its representation on, and participation in, national work groups.
ACTION	Noting
RECOMMENDATIONS	That the content of the update be noted.
RISK MANAGEMENT	The following risks have been identified and mitigated as an outcome of the Authority's apprenticeship programme:
	 Reputation – due to the Authority's pro-active approach to implementing apprenticeships, it is well established with regards to utilising the levy payment and meeting the public sector targets
	 Resourcing – by recruiting apprentice firefighters in 2017 and increasing the number of firefighter apprentices recruited in 2018, pressure on the establishment has been relieved, helping to maintain minimum crewing levels
	 Resourcing – the workforce will be continue to be refreshed using a blended approach to balance the recruitment of apprentices with experienced transferees. In addition the Authority is piloting career pathways for On Call members of staff to whole time via the Flexi FF programme.
	 End Point Assessment (EPA) provision for the new firefighter trailblazer standard is currently limited by the provider accreditation process.

	This is being mitigated by a national procurement exercise which will be completed before the EPA is required in 2020.
FINANCIAL IMPLICATIONS	The apprenticeship levy costs the Authority c. £60k per annum (this cost has included in the budget since 2017/18).
	The Authority is seeking to maximise the return on this investment by introducing Management Apprenticeships at various levels throughout the organisation.
LEGAL IMPLICATIONS	None arising from the recommendation.
CONSISTENCY WITH THE PRINCIPLES OF THE DUTY TO COLLABORATE	The Authority continues to work with its Thames Valley Fire Service partners, through regular resourcing meetings, to determine a collaborative approach to firefighter and apprenticeship recruitment. This has led to the establishment of links with Thames Valley Police on recruitment activity, in particular in looking at improving diversity.
	The Service has worked with other fire and emergency service partners on workforce reform, by supporting national and regional events, and through sharing best practice.
	Royal Berkshire are named on this Service's contract with the Apprenticeship Training Agency (ATA). As such, if they wished to recruit apprentices using the ATA model, they could do so with our provider and without having to go out to tender.
	The Service has collaborated on multiple apprenticeship trailblazer standards at a national level, including the recently approved Emergency Call Handler standard.
	Following the TV Collaboration Steering Group Meeting on 19 March 2018, an action is underway to contact South Central Ambulance Service (SCAS) with regard to the apprenticeship project, and a meeting is to be arranged late Spring/early Summer with the apprenticeship lead from Thames Valley Police (TVP) to explore further possibilities.
HEALTH AND SAFETY	No Health and Safety implications have been identified.
EQUALITY AND DIVERSITY	Integrated impact assessments have, and will be, completed for any change programme which relates to the Authority's apprenticeship programme. The apprenticeship programme provides an excellent opportunity to improve the diversity make-up of the Authority. Targeted "have a go" days were organised
	for female and ethnic minority applicants, and there has been a significant increase in females being

	appointed across the 3 recruitment campaigns.
	Work on apprenticeships is scheduled for Summer 2018, linked to the On-Call operational resourcing programme, now that the part-time rules are clarified.
	In order to improve the diversity of the workforce through apprenticeship recruitment, the Authority endorsed the submission of a pledge to, and were the first from the Fire sector to be accepted by, the Apprenticeship Diversity Champions Network (ADCN).
	Recent apprenticeships networking meetings in Milton Keynes, have enabled engagement with local community groups to help increase applications from BME communities.
USE OF RESOURCES	The arrangements for setting, reviewing and implementing strategic and operational objectives; Performance monitoring, including budget monitoring; achievement of strategic objectives and best value performance indicators;
	The Authority's apprenticeship programme contributes to achieving it's people strategic enabler set out in the Corporate Plan 2015 to 2020:-
	'To optimise the contribution and well-being of our people'
	by using the opportunity provided by apprenticeship programmes to 'adapt and refresh the workforce to improve service delivery and resilience'. This is especially relevant when considered in relation to the steadily increasing age of the operational workforce and the need to develop new skills in the Authority. As a result of the apprenticeship programme, the average age of whole-time firefighters has reduced from 41 to 39 years.
	Communication with stakeholders; A range of methods are used to communicate on workforce reform across the Service. Communication is delivered via the People & Organisational Development Director's blog, the leadership group and the I:drive. The success of the Authority's apprenticeship programme is showcased internally and externally at visits from other services and national events.
	The system of internal control; All significant changes impacting on the Authority will follow an agreed process, including governance and approval. The apprenticeship programme is continually monitored through regular updates to the Authority and internal governance meetings.
	The programme is accredited by Pearson's and yearly audits are undertaken by their representatives to
