Summary

This report is the Council's quarterly performance report comprising:

- A Scorecard
- Report of Cabinet Measures

The Scorecard provides information on four key elements of performance for the Council covering Finance, Business Improvement, Customer Service and HR indicators. These are arranged in four quadrants.

The Report of Cabinet Measures provides a list of measures that informs Cabinet of the progress in achieving the Council's priorities as detailed in the Strategic Plan. In addition to the outturns for these indicators, the report also details benchmarking information where available, commentary to explain each outturn and key improvement actions.

This report concludes performance reporting for the 2018/19 year. At the end of this year, 44 performance indicators are rated as Green which equates to 60% of performance indicators with a Red, Amber or Green status. Compared to the 2017/18 performance report, the proportion of Green indicators has increased by 7 percentage points. Within these indicators are areas of strong performance for the Council including:

- The proportion of births that receive a face-to-face New Birth Visit within 14 days by a health visitor – the Council’s performance is above target and above national, regional and comparator outturns
- The rate of admission of older people into residential and nursing care placements – performance for the Council is lower than the target set for the year, and lower than national and comparator results
- The proportion of pupils attending schools rated good or outstanding by Ofsted – the figure reported for Buckinghamshire at the end of March 2019 is above target and higher than national and regional figures.
- The proportion of Council website pages which meet accessibility standards improved substantially and has now exceeded the target for the year. This performance is also above the national average.

10 indicators are rated as Amber at the end of 2018/19, equating to 14%; and a further 19 indicators are rated as Red, equating to 26%. Work is underway to address these areas of lower performance and actions to drive improvement are documented in the report.
