<b>Priority Description</b>	<b>Potential Solutions</b>	<b>Next Steps/Actions</b>	<b>Lead</b>
Support for families from the pre-natal stage onwards	- more support from health visitors	- Annual update.	
Improve transport	- Improve public transport particularly for smaller communities - Access to health services for those who do not have their own transport	- Encourage the development of Community Transport Schemes -	
Day Care Services for the elderly and infirm	- Liaise with Age Concern and Community Impact Bucks	- Update LAF on 6-monthly basis	
More affordable, decent housing in the villages, particularly for young families	- Toolkit on how Parishes can overcome the complexities and obstacles for developing a suitable scheme in their area.	- Draw CDC into discussions on this.	
HS2		- regular update on progress	
<b>New Idea</b>	- <b>My thoughts</b>	- <b>Timing</b>	
Could we have a think about developing some initiatives to help Parishes identify and implement those aspects of the Localism Act which would develop this Chiltern community.	- There will be no doubt activities by CDC and Community Impact Bucks but something which identifies through a series of workshops and community activities, possibly working up case studies, what local communities led by parishes and community groups, could do that would be useful.	- I see this as needing to wait until it is known when and what is needed to be implemented that is likely to be of interest and benefit to parishes and communities.
