11 CABINET MEMBERS' REPORTS

11a. Report of the Leader of the Council

The Leader informed Council that he was now Chairman of the Health and Wellbeing Board, a key means of delivering policy across District Council and NHS partners in Buckinghamshire.

In relation to national budget announcements, Mr Tett informed Members that the new living wage was a concern to local authorities with a potential impact on services for the most vulnerable, including the potential contraction of the care market. Council heard that the Local Government Association was undertaking work with local authorities to quantify the impact and would be making Government aware of the results.

It was noted that future funding for local government had not been included in the budget but that there would be a Comprehensive Spending Review in the autumn which would significantly impact on the budget and Medium Term Plan.

Mr Tett expressed his disappointment in the lack of reference to devolution or the South East in the budget speech and reiterated the importance of continuing to lobby Government to recognise the importance of the South East to the country's economy.

In response to a question regarding whether the budget had made it more difficult for young people, Mr Tett reiterated his view that the Government was aiming to ensure the country had a successful economy based on the private sector and that people aspired to success rather than developing a reliance on benefits.

In relation to the issue of Cabinet Member decisions in the Council agenda and papers, it was agreed that these would be included in future.

The importance of good co-ordination between Cabinet Members to deliver the Strategic Plan was raised, particularly in relation to improving the health of residents. Council heard that work was taking place with District Councils to fund the extension programme, which would be managed, but not funded, by the County Council. The Leader offered to meet with Mr Lambert to discuss specific concerns.

In relation to Stroke Rehabilitation services, Mr Appleyard confirmed that a response would be circulated to all Members shortly.

In response to a question regarding the provision of hot school meals across the county, Mr Mohammed confirmed that an officer was working in this area.

Concerns were raised in relation to a letter sent from a school to parents in relation to the celebration of Eid. Although only aware of the situation on the morning of Council and not having fully read the letter, Mr Mohammed confirmed his understanding of the allocations set out in the letter.

Clarification was sought in relation to the increase in SEND (pupils with special educational needs or disabilities) between March 2014 and 2015. Mr Mohammed confirmed that the information would be provided after the meeting.

In relation to Children's Centres, Mr Mohammed assured Council that no Centres would be closed as a result of the recent retendering. Centres were being reorganised into clusters and it was acknowledged that Centres were often good community hubs.

A question was raised about the need for improved communication with parents regarding school administration. Mr Mohammed confirmed that he would consider this issue with his officers.

Mr B Bendyshe-Brown thanked Mr B Harrison of Connexions for all his work and wished him luck for his new role as Chief Executive of the UTC in Aylesbury. Mr Mohammed added his congratulations and support to Mr Harrison.

In addition, work is continuing to train social workers locally through links with the University in Wycombe.
