Youth Voice & Local Democracy

Proposer: Bill Chapple
Seconder: Mike Appleyard

In November 2015 a number of young people attended full Council to speak about their experiences of participating in Local Democracy Week, and the Children's Cabinet Take Over Day. Hearing the voices of young people is vital for the County Council. Young people use public services supported by the Council every day – youth services, transport, libraries, schools and country parks. The County Council is committed to supporting young people to have a say in decision-making and fully supports 'Youth Voice' which enables young people to get involved with all of the Councils' decision-making.

Resolution

Council is therefore asked to agree that representatives of Youth Voice are invited annually in November of each year to address full Council. Youth Voice representatives will be invited to speak and represent the views of Buckinghamshire young people in relation to Council issues.
