**Our commitment:**  
Working together to make  
our communities safer

Building on our successes, we will continue to work together to make our communities safer.

We will foster the culture, values and skills needed to deliver an effective and efficient police service which meets the needs of the public we serve.

We will **transform** and **innovate** to meet policing needs **now** and in the **future**.

**An emergency service that keeps people safe and brings offenders to justice**

We will provide a responsive emergency service which, at its heart, focuses on keeping communities safe from harm. We will rise to the challenges of emerging crime types without losing focus on more traditional crimes, striving to prevent and robustly investigate crime, support victims and bring offenders to justice. We will have the resources to achieve this.

## Working together to build stronger, more resilient communities

We will work with our partners and local communities to build stronger, more resilient communities. Together we will focus on problem solving to prevent crime and reduce demand, targeting our resources at the areas of greatest need and to the most vulnerable in our communities.

**A modern police force  
which meets the needs  
of our communities**

We will maximise technology and make the best use of information to deliver a modern, efficient and effective police service. We will work with our partners to reduce cost and duplication providing a better service to our communities. The public can contact us whenever and however is convenient to them and we will maintain our presence within our communities focusing on areas of greatest need.

## A skilled and trusted workforce

We will equip and support our people with the skills, evidence base, technology and environment to deliver the highest professional standards in their service to the public. We will be regarded as an employer of choice by those that work and volunteer for us and, a professional organisation that is trusted by those that we serve.
