5 SETTING THE SCENE Background	10.05	

At the joint review planning meeting on 14 May, members decided that, alongside exploring how the Safer and Stronger Bucks Partnership Board is fulfilling its crime and disorder functions, they would use as a case study for the review the following topic:

'How are we working with partners to reduce the fear of crime and improve how we communicate messages about crime levels to residents?'

This topic has been chosen as reducing the fear of crime is a key priority in the recently agreed Safer Bucks Plan, and there continues to be disparity between falling crime rates overall in Buckinghamshire and residents' perception about the prevalence of criminal activity in their local area.

INVESTOR IN PEOPLE

Purpose

A number of contributors have been invited to talk to members of the task and finish group about their community safety role. They will inform members about current work they are undertaking with partners which is aimed at reducing the fear of crime, and will explain how their organisation communicates messages about crime rates to residents. In addition they will identify where they think improvements could be made to this, and barriers to progress.

Members will have an opportunity at the end of each presentation to ask questions of the contributors.
