

Buckinghamshire Health and Social Care Integration

Partnership Working

Our shared challenges

An ageing population

A growing population

New demands cost the NHS at least an extra £10bn a year

Evolving healthcare needs, such as the increase in obesity and diabetes

Local health services serve a population of **522,200** people in Buckinghamshire and this is predicted to increase by **40,400** by 2025.

18% of the population is **over 65** and this will rise to **21%** in the next **15 years**.

Growing numbers of people...

aged 80 and over in Bucks:

26,800 32,200 38,700 48,200

with dementia in Bucks:

6,826 8,123 9,704 11,522

- 
1 in 5 adults are physically inactive
- 
2 in 3 adults are overweight or obese
- 
1 in 8 adults are at risk of developing diabetes
- 
1 in 9 adults smoke
(1 in 5 adults in manual workers)
- 
1 in 5 adults drink harmful levels of alcohol

Our response to Buckinghamshire challenges:

**your community
your care**
developing Buckinghamshire together

Health and Social Care Integration - Roadmap to 2020

- The 2015 spending review set out an ambitious plan for health and social care to be integrated across the country by 2020. We presented a [report](#) to the **Health and Wellbeing Board** in March 2017 setting out opportunities for Buckinghamshire County Council and the NHS to have more integrated working between commissioners and providers of health, public health and social care services to improve the health and wellbeing of our residents and better managing demand on our services.
- To support the next phase of development we identified **four closely interlinked areas** of work (each underpinned by an action plan which is currently being reviewed by the **Transformation Delivery Group**).
- **Joint Commissioning**
- **Integrated Provision**
- **Back office (One Public Estate, Communications and Business intelligence)**
- **Governance**

Sustainability and Transformation Partnerships and Accountable Care Systems

- The [NHS Five Year Forward View](#) (FYFV) outlines why and how the NHS should change, It calls for better integration of GP, community health, mental health and hospital services, as well as more joined up working with home care and care homes. The FYFV led to the creation of Sustainability and Transformation Partnerships (STP's). Announced in December 2015 as part of [NHS planning guidance](#) there are 44 'footprint' areas for England each required to have a 'place based' plan for better integration.
- [Sustainability and Transformation Partnerships \(STPs\)](#) set out at a high level how services will evolve and contribute to the national '[Five Year Forward View](#)' vision of better health, better patient care and improved NHS efficiency.
- NHS England is looking to accelerate this way of working to more of the country and wants well developed STPs to progress into **Accountable care systems (ACS)**. An Accountable Care System brings together a number of providers and commissioners to take collective responsibility for the cost and quality of care for a defined population with an agreed budget. **Buckinghamshire applied for ACS Status in May 2017.**

What will the ACS do?

- It will allow us to go further and faster in working as one team to improve people's health and wellbeing and make best use of the 'Bucks pound'
- Improve our collective understanding of the needs of our population, based on levels of risk

What it means:

- Agreeing a clear set of shared priorities that we will all deliver
- Better co-ordination of individuals care to enable the right care, in the right place at the right time
- Proactive management of population groups to inform early intervention and prevention
- Stronger, clearer governance arrangements

Why do we think it will succeed in Bucks?

- Simplicity of our public sector landscape and our common boundaries
- Strong track record of collaborating to deliver significant changes in the interests of local people
- Strong clinical leadership and public/patient engagement

Bucks strong track record – what have we done so far

- **Better Healthcare in Bucks** – transformation programme to centralise A&E and emergency services
- **Stroke and Cardiac** - innovative model of care introduced at Wycombe Hospital
- **Redesigned emergency and urgent care** including seven day medical ambulatory care facility
- **Quality and Outcomes framework** – nationally recognised innovation to increase use of Care and Support planning in Primary care
- **System wide quality improvement** – aligned monitoring and governance, e.g. Looked After Children
- **Over 75s community nursing** – delivering ‘upstream’ care to prevent admission and shorten length of stay for our older population

What we are going to do next...

Year One ACS priorities:

- Improving 24 hour access to **urgent primary care**
- Introducing better, simpler models of care for people with **diabetes**
- **Delivering a new streamlined approach for people with musculoskeletal problems** (back/neck/limb)
- **Integrated Community teams and Community Hubs:** Piloting new ways of joining up health and care closer to home, tailored to the needs of local communities

Our Key enablers:

- **One Bucks Commissioning Team:** further developing joint health and care commissioning across NHS and the Council (adult and children's services, public health, mental health etc.)
- **Key providers** are planning a formal collaborative to deliver joined up care (FedBucks [GPs] + Oxford Health NHS Trust + Buckinghamshire Healthcare NHS Trust)
- **Back Office and One Public Estate:** six shared projects, using our property assets to provide better services and value to residents
- **Governance**

Our priorities are aligned across the system

GOVERNANCE

Each organisation is accountable to its own governing body, the shared priorities are driven by **Healthy Bucks Leaders (HBL)** which is made up of the Chief Officers of the Buckinghamshire health and care organisations and is accountable to the **Health and Wellbeing Board**. HBL established the Transformation Delivery Group in 2016 to oversee operation and delivery of Bucks plans.

SHARED PRIORITIES

Next steps and how you can get involved:

- We know that people are the greatest resource in health care so we want patients, carers, staff and local people to be involved in the key decisions we will need to take and view the **HASC** as a key component of this.
- As we implement our plans we will be required to show you how our approaches improve the quality of care we provide, and the health and wellbeing of local people.

Some immediate opportunities for you to get involved:

- **September** – CCG and BHT AGMs dates to be confirmed
- **Autumn date tbc** - Health and Social Care '**Big Tent**' event for stakeholders
