

## Status on Health and Wellbeing Board meeting actions:

## June 2019

Action	Lead officer	Update/ progress	Status
Actions from the Joint Strategic Needs Assessment item:  In response to a comment on the average CO2 admissions being 50% higher than the national average. Dr Burch agreed to check if the statistic is still current.  A member of the board stated that Iver had been declared an Air Quality Management Area (AQMA) and that there was expertise in the environmental	Lead officer  Dr Tiffany  Burch	Response:  The information included is the most recent available, and district council colleagues from a range of disciplines are contributing to the JSNA. We are currently updating chapters for the JSNA, so the transport chapter will be one of those up for review and updating.	Complete
teams in the district councils. Dr Burch confirmed that the district councils were represented on the JSNA Development Group and would check the information with her colleagues.			
Actions from the shared approach to prevention item:  Cllr Macpherson commented that Aylesbury Vale District Council was not listed as one of the partners. It was agreed that Dr Jane O'Grady and Cllr Macpherson would discuss how AVDC could	Dr Jane O'Grady/ Cllr Macpherson	Response:  Dr Jane O'Grady and Cllr Macpherson discussed AVDC's involvement after the meeting and confirmed that AVDC are an active member of the Healthy Communities Partnership supporting the shared approach to prevention work stream and proposed social isolation project.
