FINANCIAL IMPLICATIONS	<p>The continued and increasing financial pressures being faced by all public bodies over the foreseeable future mean that it is more important than ever to ensure that investment in property and facilities is targeted and coherently planned to provide the right property, in the right place and at the right time.</p> <p>There is a need to continue work with other partner organisations to explore co-location initiatives and continue to utilise our property assets to achieve optimum effectiveness and efficiency.</p> <p>This revised property strategy builds upon the existing foundation for the effective and efficient use of all property related assets and provide a platform for structured and rigorous forward thinking and decision making about property management within the Authority.</p> <p>It will also aid the process of responding to property needs from the Public Safety Plan and as a consequence, operational response, as well as meeting the requirements of the Medium Term Financial Plan.</p>

<p>USE OF RESOURCES</p>	<p>The strategy aims to put in place a set of actions to ensure delivery of value for money which is in itself a key strand to delivering the requirements of the Medium Term Financial Plan.</p> <p>No additional expenditure is sought as part of implementing this strategy.</p> <p>The property management process is complementary to good asset management, though the main aim of any property strategy is to ensure value for money in the maintenance or purchase of any property asset.</p> <p>Key principles of good procurement practice in the maintenance and upkeep of the property portfolio are transparency, accountability, continuous improvement and fair competition and these principles are embodied as part of the strategy.</p> <p>Social and environmental awareness issues in respect of property are captured within the strategy.</p>
