The Old Manse, 51 High Street Olney	Watching brief	Archaeologica	2005	Watching brief revealed a pit containing 12 th century pottery including a jug and pottery chimney pot	note
68 High Street Stoke Goldington	Watching brief	Archaeologica	2005	Two cesspits located; one late medieval and the other undated.	note
Orchard Cottage, Watling Street Little Brickhill	Watching brief	Archaeologica	2005	Nothing revealed apart from a post-medieval ditch	note
27 East Street Olney	Watching brief	Archaeologica	2005	The Archaeological Officer advised that an evaluation was required but the planning consent condition was for a watching brief. This was a complex site with features to both the front and rear of the plot. There was evidence for a kiln on the site.	article
Lavendon: Mill : Newton Barn Lavendon	Building recording & watching brief	Archaeological Services	2005	Building recording completed on 18 th century barn but watching brief	note
Reserve Site 6, Fortescue Drive Shenley Church End	Evaluation *	Archaeological Services & Consultancy	2005/01/12	Evaluation of site for sheltered accommodation for the elderly comprised five trenches. Roman features identified in the SE of the site comprising a small pit, probable field ditches and a gravel or sand pit 1.2m deep.	note
Land north of Bow Brickhill Village Bow Brickhill	Metal detector rally	The Weekend Wanderers Detecting Club	2005/02/13	The rally encompassed 4 fields, three along the railway line and one adjacent to the road to Woburn Sands. Coin finds included worn 3 rd -4 th century bronze, one late medieval hammered, one Nuremburg jetton, 1 possible Elizabethan groat, 1 James I st half-groat. Also found a post medieval bronze pot leg.	None
Land adjacent to the White Hart Sherington	Evaluation*	Archaeological Services & Consultancy	2005/02/15	16m of trenching for a new house. Brown sandy silty sub-soil extended to a depth of 0.5m below ground level. This overlay a mid-brown gravelly sand with lenses of clay and infrequent flecks of charcoal. No archaeological features noted	note
The Old Farm, 141 Walton End Wavendon	Evaluation *	Archaeological Services & Consultancy	2005/02/16	Four evaluation trenches identified 4 four linear features, two of these contained Romano-British pottery, one was medieval and the fourth was undated. The area was within the enclosures of the Wavendon Gate Iron-age / Roman site but showed a relatively low level of occupation.	note
Old Wolverton Temporary Locks Old Wolverton	Earthwork survey and evaluation *	Albion Archaeology	2005/02/25	Evaluation located the site of two locks and three basins of the southern flight of locks leading down to the River Great Ouse. The locks had brick sides and areas of concrete were encountered.	article

10 Whaddon Road, Shenley Brook End	Watching Brief *	Archaeological Investigations Ltd	2005/04	No features or finds of archaeological significance	note
Old Rectory garden, Park Road Hanslope	Evaluation	Northamptonshire Archaeology	2005/03	The evaluation revealed some pits / ponds and ditches with very little dateable material. No evidence of occupation.	note
Newport Pagnell High Street Improvements phase 3 Newport Pagnell	Watching brief *	Archaeologica	2005/03/029	Two excavations during the High Street improvements revealed a medieval road surface possibly dating to the C14th.	note
49 Whaddon Way Bletchley	Evaluation *	Archaeologica	2005/03/07	Evaluation for a new house and garage revealed slight evidence for a gully or ditch and five other features but these had been severely truncated by ploughing. The features are probably of Roman date given the proximity of other Romano-British settlements.	note
Tattenhoe Park - site C Tattenhoe	Excavation	Northamptonshire Archaeology	2005/04	Open area excavation revealed a complex of gullies, pits and ditches of a late Iron-Age settlement with at least 8 ring ditches	article
Haythorn Spinney Haversham	Metal detecting rally	Weekend Wanderers	2005/04/24	Metal detector rally on three fields did not reveal any significant finds	None
29 Weston Road Olney	Building recording	Archaeological Services & Consultancy	2005/05	Survey of farm buildings revealed the remains of a bundle thatched roof shelter shed which is probably one of the last examples in Buckinghamshire.
