The guest speakers were excellent and the hard work of the team of officers who arranged the event was commended.

(iii) Councillor Martin – Bucks Waste Partnership

Councillor Martin reported that Bucks Waste Partnership had been awarded a grant of over £800,000 to reduce food waste and increase participation in waste recycling. This was seen as an excellent project and one that would hopefully achieve some good results.

There was also to be a debate in Westminster Hall on HS2, and the tunnelling report was to be included in presentation to Government. Parliament was due to be dissolved on Monday 30 March 2015 and therefore activity would subside but a visit of the Select Committee was planned during May 2015.

88 REVIEW OF EARMARKED RESERVES

Consideration was given to the report which outlined the review of the earmarked reserves held by the Council, and to consider whether to merge some reserves and / or reduce the level of some others.

Earmarked reserves were amounts set aside for specific policy purposes or for contingencies against specific financial risks. For each reserve established, the purpose, usage and the basis of transactions needed to be clearly defined.

Members were reminded that the Council can decide to set aside money from the General Fund to use for a specific purpose; and the use of Earmarked Reserves was delegated to individual officers with approval from the appropriate Cabinet Member.

The Council currently had 17 earmarked reserves; as at 31 March 2014, the balance on these reserves was £3,811K. As at 31 March 2015, the reserves

are estimated to hold £3,924K. Members considered a list of the current earmarked reserves, their estimated balance as at 31 March 2015 and the purpose for which they are held.

Councillor Stannard, Cabinet Member for Support Services reported that a review had been undertaken on the earmarked reserves, and it had been discussed at a Support Services PAG meeting, but further work was required. It was noted that to include a project reserve may be beneficial. A further review of reserves was to be carried out following the May 2015 Elections when the Council was considering priorities and a further report on earmarked reserves was to be presented to a future meeting of Cabinet was proposed. The principle of reviewing the earmarked reserves as part of the budget process was supported. Following detailed consideration it was

RESOLVED:

That a review of earmarked reserves be included in the budget process.

This was broken down into 13 priority Performance Indicators and an additional 32 corporate indicators.

- i) That the Priority Indicator set (as outlined in appendix A) and future performance targets for the next three years be approved;**
- ii) That the Corporate Performance Indicators (as outlined in Appendix B) and future performance targets for the next three years be approved.**

It was reported that the Environment performance figures were provisional as they were being verified to ensure that they were in line with Waste Data Flow.

In response to queries, it was reported that calls to the waste team were now reducing and therefore more manageable; and that further information was

required to analyse the increase in sickness levels of staff between long term and short term sickness.

RESOLVED:

- i) That the performance report be noted; and**
- ii) That a detailed report be submitted to a future meeting of the Personnel Committee for consideration.**

91 CHALFONT ST PETER NEIGHBOURHOOD PLAN

Following the result of the Chalfont St Peter Neighbourhood Plan Referendum the next stage was for the Council to 'make' the plan, following which it would become part of the Development Plan for the Chalfont St Peter Parish Area.

The Chalfont St Peter Neighbourhood Plan had been through the formal stages required and following receipt of the Examiner's Report and this Council's consideration of that report was recommended to proceed to referendum subject to some minor changes. On 5 March 2015 the Chalfont St Peter Neighbourhood Plan was put to a referendum of eligible votes within the parish of Chalfont St Peter. The referendum asked the following question:

Do you want Chiltern District Council to use the Neighbourhood Plan for Chalfont St Peter to help it decide planning applications in the neighbourhood area? Yes or No.

The result of the referendum was:

Yes – 1632 No – 426

If, following a referendum, more than half of those voting had voted in favour of the plan the Council was under a statutory duty to 'make' the plan as soon as possible after the referendum unless the plan was in breach of European legislation or the convention on human rights. The Council had considered the European and human rights implications and it was not considered to contravene those rights.

It was reported that prior to the referendum the Council had received prior notification of the intention to challenge by way of Judicial Review the Council's decision to disagree with one of the Neighbourhood Plan Examiner's recommendations and to let the Neighbourhood Plan proceed to referendum. On 10 March the Council received copies of the formal application to the court for mounting a judicial review; the Council await notification of whether the judicial review will be granted. Members were advised that any recommendation to Council on the making of the Neighbourhood Plan would

have to be the subject of an update report if a judicial review was allowed to take place.

It was noted that if the Chalfont St Peter Neighbourhood Plan was 'made' it would become part of the Development Plan for the Chalfont St Peter Parish area. The Parish Council could decide to review the plan in the future but any such review would be subject to the same consultation procedures as the current neighbourhood plan had had to follow.

RECOMMENDED:

That, unless there is a legal challenge still in progress, the Council makes the Chalfont St Peter Neighbourhood Plan.

92 HOME ENERGY CONSERVATION ACT PROGRESS REPORT

Consideration was given to the report which advised members of the draft Home Energy Conservation Act Progress Report and revised Action Plan; and to seek Members agreement and endorsement of the draft Home Energy Conservation Progress Report and Revised Action Plan.

The two primary purposes of the Home Energy Conservation Act (HECA) were to reduce households in fuel poverty and to increase local energy efficiency. A further key objective of the new reporting requirements was to ensure that Councils had plans in place to promote and generate momentum around the Green Deal, the government's policy for funding energy efficiency improvements at no upfront cost to the householder.

Members were advised of the key priorities for the forthcoming two years, which were to continue to:

- Top up loft insulation to 275mm

- Replace gas boilers with A rated condensing boilers
- Install solid wall insulation, especially for those areas off the gas network or high energy use areas
