- 3.1 As a debt free authority the treasury management activities of the Council are exclusively concerned with the investment of its reserves, as the Council does not undertake any borrowing.
- 3.2 There were no changes in the base rate in the quarter, with the rate having remained at 0.5% since March 2009.
- 3.3 The total of loans outstanding at the end of the quarter was £9,000,000 detailed in the table below.

4. The Prudential Capital Code – Prudential Indicators

4.1 In accordance with the Prudential Capital Code the Council reviews its Prudential Indicators on a quarterly basis. Movements in the Prudential Indicators for the year 2015/16 to date are as follows:

Chiltern District Council Cabinet

4.2 Interest rate exposures

The interest rate exposure on investments has moved as follows:

Date	Investments as a % of total	
	Fixed	Variable
31/03/15	41%	59%
30/06/15	62.5%	37.5%

This Prudential Indicator sets an upper limit on fixed interest rate exposures of 100% and variable interest rate exposures of 100% of net outstanding principal sums. Exposures have been managed within this limit.

4.3 Principal sums invested for periods longer than 12 months

The limit for non-specified investments is 100% of total investments, of which up to 50% only can be greater than 12 months. The figures are as follows:

Date	Total investments	Sums invested for greater than 12 months	% of total investments
31/03/15	£17m	£6m	35%
30/06/15	£9m	£5m	56%

Of the £5m invested for greater than 12 months, £4m of this is for 4 loans with durations of 366 or 367 days. The time periods over which sums have been invested reflect the current level of rates that do not incentivise long term cash investments.

4.4 The fixed term investments have decreased from £17m to £9m between March and June because fewer funds have been invested over fixed time periods. As at the end of June, £9.145m was held in instant access funds for everyday cashflow purposes compared to £325,000 at the end of March. This in part reflects the normal net cash inflow in the first quarter of the financial year compared to the last quarter.

5 Corporate Implications

5.1 The budgeted income from investments for 2015/16 has been set at £110,000. Interest earned in the first quarter is £26,500.
