

# PETITION

## Against Proposals to Develop 900 homes on Land NE of Chesham & Removal of Site #1 from Green Belt Designation

Presented by Phillip Plato - FInstD DipSurv MRICS

of [REDACTED]

Date – 10 January 2017

**INTRODUCTION:** I have been asked to present the following petition on behalf of a group of local residents represented by the Brown Not Green campaign covering the whole of Chesham.

This petition was created in response to the South Bucks & Chiltern District Councils emerging new Local Plan to develop on what is referred to as Preferred Site Option No.1, some 900 new homes to the NE of Chesham and to remove nearly 60Ha of land from Green Belt Designation. The Brown Not Green group commissioned a petition hosted on a specialist online portal known as Petition24.com to identify the general numbers of people who are opposed to development on the Green Belt at the Preferred Site Option No. 1. This has also been supplemented by a physical paper petition. Methodology to the process is described on a separate sheet.

**OBJECTIVE:** This Petition urges Chiltern District Council to remove the Preferred Option Site Number 1 from any further consideration for development or plans to remove its Green Belt designation on the grounds that the area is;

- Unsustainable for development, and any development proposals should follow Government Guidance to develop brownfield sites first (ie: Brown not Green).
- That contrary to National Planning Guidance (NPPF) there are no “*exceptional circumstances*” to justify the area being removed from Green Belt designation &
- Development on the scale proposed will cause significant harm to the wider area of Chesham notably in terms of increased traffic congestion, pollution, air quality, effects on schools and medical services, inadequate local infrastructure and potential injurious affects upon the local wildlife and ecology.

An early copy of this petition has already been submitted to the Planning Dept as part of the public consultation exercise which closed on 12 December 2016. However, many local people have expressed frustration at only becoming aware of the recent public consultation late in the process. **The local community wanted to ensure the Council was fully aware of the strength of feeling against this flawed and ill conceived proposal, and that the views of signatories will be taken into account before any further local plan proposals emerge as such feelings may not be reflected by the number of responses the Planning Dept might have received before the 12 December deadline.**

**SUMMARY OF RESPONSES:** within 56 days of first inviting the public to sign.

Numbers of verified signatures recorded online	1,305
Number of signatures to physical paper petition	459
<b>Total Number of signatories from 15 Nov 2016 to 10 Jan 2017</b>	<b>1,764</b>

## METHODOLOGY:

**Re: ONLINE PETITION** – Petitions24.com: To prevent misuse and fraudulent multiple or computer generated signatories, Petitions24.com use “captcha” at login & also require signatories to verify their signature by clicking on a subsequent email link sent to each recipient.

Although **1,305** are shown as having signed, they are not counted until the signatory verifies by clicking on the link in the subsequent email. At the date of this submission, 1,302 people have verified & are therefore listed within this document whilst 3 are awaiting response to the verification request. Petitions24.com advises that over 1,100 different IP addresses have been used by the on-line signatories.

**Re: PHYSICAL PETITION:** This was created as it became apparent that some people do not have internet access and/or some people prefer to register their opinion in person. The signatories to the paper petition were advised not to sign if they had already signed online and this was recited on every sheet of the paper petition. This has been cross checked with the online names to ensure there has been no misuse.

## The narrative inviting signatories to this Petition was as follows:

*“Chiltern District & South Bucks District Councils are jointly preparing a Local Plan until 2036. Part of the proposal is to expand the town of Chesham by building new homes of which **900** are proposed to be built on agricultural land **currently designated as Green Belt** on the NE of Chesham at a hamlet called Lye Green.*

*The Lye Green community fears these plans, if adopted, will (amongst many other things) result in:*

- *Significant damage to the openness and visual appearance of the area, which is close to an Area of Outstanding Natural Beauty in the Chiltern Hills,*
- *The loss of identity of the community in Lye Green which will then simply become absorbed within Greater Chesham whose sprawl will threaten and adversely impact upon the amenity of other nearby villages & settlements particularly from increased traffic.*
- *Loss of good quality agricultural land and the adverse impact upon the wildlife, flora & fauna on the affected land.*

*The Lye Green Residents also question how the Council can claim “exceptional circumstances” to justify removing this site from the Green Belt. They also question whether Chesham can cope with such an expansion, when the road & drainage infrastructure is at capacity & the Council Highways Dept. have reported that “significant increases in congestion” in the town will occur adding to already bad air quality particularly in Berkhamstead Road. There are also concerns how sustainable such proposals are in terms of being too far from local shops and the Underground Station which itself struggles to cope with existing commuter demands.*

*The community feels that any expansion of the town **must** follow the Government's advice by looking to brownfield sites **first** (ie: unused or derelict employment land, empty offices, & unused areas outside the Green Belt - ie Brown not Green).*

*We question the need and ability of Chesham to cope with a disproportionate share of the new homes being planned in the combined areas of South Bucks & Chiltern District and urge that the proposal to build on the Preferred Option Site #1 on land to the NE of the town be scrapped.*

*Please sign this petition & visit **www.brownnotgreen.weebly.com** for more information on what else you can do to help.”*

## The list of signatories now follows together with the list voluntary comments submitted by 91 individuals:

## IMPORTANT NOTE:

Although signatories to the online petition were not required to make any comment when signing, the software on Petitions24.com offers an opportunity for comments to be made which are now recited in the following pages.

The following points should be highlighted:

- 91 Individuals have voluntarily chosen to offer comments.
- Only 2 comments have been redacted on grounds of being offensive.
- There have been no comments received in support of the Council's proposals regarding the Preferred Option Site No.1.
- Most comments highlight concern that:
  - Brownfield options are not being looked at or exhausted before Green Belt is considered for development.
  - That there is inadequate infrastructure (notably roads, trains & drains) to service the proposed development at this location.
  - Schools, doctors & dentists in the town cannot accommodate such an expansion of Chesham.
  - That Chesham is already very congested with traffic and these plans will make things much worse.
  - The loss of the communities in Lye Green & the effect on other nearby communities such as Orchard Leigh, Welpley Hill Ashley Green & Botley.
  - The damaging effect on local woodland, wildlife, flora & fauna.
  - The effect on the remaining Green Belt & nearby Area of Outstanding Natural Beauty.
  - Loss of agricultural land & the cumulative effects of this proposal combined with HS2.
  - Concerns about flooding & surface water drainage.

I do not think enough effort is being made by councils to make efficient use of brownfield sites when building new homes.

Chesham infrastructure, roads, rail, medical, schools along with wildlife would all suffer further in this Historic town which can not cope now with the capacity.

There are plenty of Brown field sites closer to the Town Centre which should be looked at first before the Green Belt is given up! Local hamlets of Lye Green, Orchard Leigh for instance would be merged into one due to this Urban sprawl and the Openness of the Green Belt would disappear.

Disgusted by the lack of due process. England's Green Belt should remain protected. There are other brownfield sites available to use for new homes. Road and transport infrastructure cannot accommodate the level of development sought in the area.

Can't believe the powers that be think destroying our small and dwindling green belt is their only option. Surely they can be more creative eg: put every car park underground and build apartment blocks above them. Just for example

**#11 (/forum/182723#11)**

I might not live in Chesham but I was born and bred there, still go to Chesham several times a week and do not want to see the countryside ripped apart by money grabbing builders and councils. Greenbelt seems to mean nothing anymore - HS2 also ruining the area. Also how on earth will the roads and facilities cope with all the extra traffic and people?! Ashley Green residents should also be concerned, the increase of traffic will be increased for those traveling to access the A41 and motorways beyond.

The proposal would increase the population by a significant proportion .The medical services ,the roads ,traffic density at certain times and sewage disposal services are at capacity now. Hence a vast amount would have to be invested in these services.

In addition many further school places would have to be provided.

Guest

**#16 (/forum/182723#16)**

I cannot explain how appalled I am by not only the development plans but the inadequate communication by the council. As a local resident it feels wrong that I have received no notification yet friends on the other side of Chesham (who may not be so greatly effected) did. The looming deadline for objections to be submitted seems unacceptable for the level of notice we've had. That aside, people have chosen this area to live in because of the natural beauty and splendor that the green belt land offers. Whilst I appreciate the need for more housing, why can more appropriate land not be used as suggested by several already? I cannot help but question the point in protected land if it's not protected at all.

It's worth noting the obvious at this point. Chesham can barely handle the level of traffic at present. A development of this size in this area will only exacerbate such a problem.

 [Reply \(/forum/post/4322889#messageBox\)](/forum/post/4322889#messageBox) [Remove](#) [Report inappropriate content \(/report.php?type=forum\\_post&id=4322889\)](/report.php?type=forum_post&id=4322889)

Guest

**#17 (/forum/182723#17)**

Apart from the fact that the intention is to be build 900 homes, think of the traffic problems this is going to cause.

I would suggest there will be the best part of 2000 more vehicles in the area.

There are also plenty of brown field sites available, as can be seen with the construction that has been carried out in the area over the last few years.

Enough is enough!

Guest

**#19 (/forum/182723#19)**

I strongly disagree with building on greenbelt land in general. The proposal for Chesham as a whole, is outrageous. Considering the current road infrastructure and issues with adequate School spaces and employment within the area. There simply is not the space for over 1000 new homes, we must improve and develop what we already have before even considering building to this scale, it really is ridiculous.

### #26 (/forum/182723/start/25#26)

Green belt land should stay as such. This piece of land is home to badoers, yellow hammers and various birds of prey.

**#31 (/forum/182723/start/25#31)**

The roads around Chesham and the surrounding areas are already stretched without adding another 900 homes.

This is an area of outstanding natural beauty and should NOT Be touched!

Areas such as Pond park should be rebuilt even if it means doing it stages houses there have huge areas of wasted unused land.

**#35 (/forum/182723/start/25#35)**

Chesham roads are constantly at stand still during rush hour times, this is only going to make matters worse. Where are the extra schools going to be built?

Building will also destroy local woodland.

Put more homes in the high st in empty shops and offices.

Apart from the loss of green belt land, increased population of the area will mean more pressure on Brushwood school and local services. Parking at drop off and pick up times already causes massive congestion in surrounding areas. this will increase 10 fold if this development goes ahead.

**#43 (/forum/182723/start/25#43)**

1.Green belt land should be protected. 2.900 homes probably equates to at least 1400 cars - there is no way that the local roads could cope with that increase in the volume of traffic. 3. The drainage/sewerage system locally is already failing - the infrastructure is just not in place to cope with that volume of houses in that area

 [Reply \(/forum/post/4325896#messageBox\)](/forum/post/4325896#messageBox) [Remove](#) [Report inappropriate content \(/report.php?type=forum\\_post&id=4325896\)](/report.php?type=forum_post&id=4325896)

Nov 17, 2016, 19:14

Guest

**#44 (/forum/182723/start/25#44)**

It's not just the houses, it's the whole infrastructure that supports Chesham and the surrounding villages. Eskdale Avenue and White Hill are already at full capacity and this could risk Cameron Road becoming a rat run (not good with 2 schools on the route). The B4505 is not built for an increase in traffic (nor should it be). The drainage system (via the culvert) in Chesham still floods. The A416 through Chesham and Nasleigh Hill can't support an increase in traffic - does this mean using up more green belt land to build a bypass? This is not NIMBYism, please look at and use the brownfield sites or is that owned by some rich well placed land owner. Our green belt is too beautiful to lose. Thank you for the chance to comment.

Guest

**#47 (/forum/182723/start/25#47)**

I feel that this proposition for building will have a huge impact on an already congested town. It takes forever to get back into Chesham both sides of the town. It took me 20 minutes to move 700 yards today on my way home. Please don't add to this already frustrating problem.

It would have a huge impact on wildlife etc. something we are always being told to be aware of. Such double standards!!!!

I signed it because once land like this is built on it is lost forever and there are still plenty of brownfield sites around the area which should be used first. Developers don't like these because they may have to spend time and money getting the site ready to build on but they should be made to do it. Also, once built the houses should be available to those who want to live there not buy to let landlords hoping to make a quick buck.

**#63 (/forum/182723/start/50#63)**

The infrastructure doesn't support the people who live in Chesham now without adding another 900 homes whether on green belt or not so I say no to this plan

I signed the petition because Chesham doesn't have room for all the extra cars - parking etc Drs Dentists schools overcrowded and most importantly sewage it would be gridlocked on St Mary's Way

Raw sewage is already regularly released into local waterways as the system cannot process it, how the hell will they cope with 1800 new homes! Not to mention destroying beautiful surrounds, this is a joke; perhaps if we all refused to pay council tax they might pay attention to existing residents concerns!

### #76 (/forum/182723/start/75#76)

I agree 100% with the facts that it is not warranted and will only have detrimental effects on the local area and it's resources.

Because I live in the area and the traffic is bad enough now, and it wouldn't be good for the children of brushwood school or others nearby the noise of building work how will they be able to Concentrate and all the dust could mean health problems for them

Chiltern council are happy for land to be taken and trees go be cut down. They just turn a blind eye.

Whilst I can appreciate that the population is expanding there are other ways to find new homes such as sorting out the 635,000 empty properties in the UK some of which have been empty for over 6 months! Buying of second homes.....depriving locals of affordable housing and in turn shoving the prices up. The houses that are built still wouldn't allow my daughter who will become a teacher soon to buy as they will be too expensive and I am sure most of them will be filled by families coming out of London and not by locals.

**#85 (/forum/182723/start/75#85) Re:**

*#83: - (/forum/182723/start/75#83) they are not selling it. The Council proposes to remove Green Belt protection and allocate housing development in it. Once that happens the owners will then be highly motivated to sell! You are correct in that Signing this petition will not by itself stop this idea but it WILL help. If you can make a short comment to the planning dept by 12 Dec will be greater help and we explain how to do this at [www.brownnitgreen.weebly.com](http://www.brownnitgreen.weebly.com) .*

**#87 (/forum/182723/start/75#87)**

Chesham will not be able to cope with 900 new homes. It does not matter if they are on green belt or brownfield sites, the whole infrastructure is already up to capacity.

**#88 (/forum/182723/start/75#88)**

It's a bad idea to build on the green belt for many reasons. It would be much better to build on brownfield with the existing town.

**#90 (/forum/182723/start/75#90) Building of 900 homes**

Nov 22, 2016, 23:02

Brown belt land should be used prior to Green belt and other sites should be considered within Buckinghamshire that are more suitable. This is going to ruin areas of outstanding natural beauty, effect the culture of the area and the Infrastructure is not fit to support an additional 900 houses. The scale of the project should be reconsidered.

Mr Serious

Nov 25, 2016, 13:13

**#91 (/forum/182723/start/75#91) I dispair**

Is this the best Chiltern DC can come up with? They are naive and unprofessional suggesting this idea. It is just the easy option to stick a pin in that area of open fields, rather than finding a creative solution. Then come up with a list of arguments to try to justify it.

They are breaking the fundamental values and undermining Public Trust by taking away precious Green Belt land. Putting unnecessary pressure on Services - Schools, Police, Health, Council etc. Choosing a site that does not have adequate roads infrastructure.

**AND, who the heck came up with the idea of a Gypsy Camp on here too??** And 40% Affordable Housing?? Jeez. Was this Plan created by the local School Children perhaps as part of their Geography lesson one week?

We need a Qualified Chartered Planning Surveyor to help make a case of objection and challenge the fundamentals. Seriously.
