Page 37 was a pre-commencement condition and should read 'Notwithstanding any indications illustrated on drawings already submitted, no development shall take place until there has been submitted to and approved by the District Planning Authority in writing a scheme of landscaping which shall include indications of all existing trees, shrubs and hedgerows on the site and details, including crown spreads, of those to be retained. None of the trees, shrubs or hedgerows shown for retention shall be removed or felled, lopped or topped within a period of five years from the date of this permission, without the prior written permission of the District Planning Authority.

The following informatives were also recommended by the Planning Officer:-

1. Due to the close proximity of the site to existing residential properties, the applicants' attention is drawn to the Considerate Constructors Scheme initiative. This initiative encourages contractors and construction companies to adopt a considerate and respectful approach to construction works, so that neighbours are not unduly affected by noise, smells, operational hours, vehicles parking at the site or making deliveries, and general disruption caused by the works. By signing up to the scheme, contractors and construction companies commit to being considerate and good neighbours, as well as being clean, respectful, safe, environmentally conscious, responsible and accountable. The Council highly recommends the Considerate Constructors Scheme as a way of avoiding problems and complaints from local residents and further information on how to participate can be found at www.ccscheme.org.uk. (SIN35)
2. It is an offence under S151 of the Highways Act 1980 (as amended) for vehicles leaving the development site to carry mud onto the public highway. Facilities should therefore be provided and used on the development site for cleaning the wheels of vehicles before they leave the site. (SIH23)
3. No vehicles associated with the building operations on the development site shall be parked on the public highway so as to cause an obstruction. Any such wilful obstruction is an offence under S137 of the Highways Act 1980 (as amended). (SIH24)
4. **It is the responsibility of the developer/applicant to ensure that the development proceeds in accordance with the approved details and in compliance with any conditions on the planning permission. The condition(s) on this planning permission that appear in bold text are known as conditions precedent. These are conditions which require compliance before any development whatsoever starts on site. Where conditions precedent have not been complied with any development purporting to benefit from the planning permission will be unauthorised and a breach of planning control. The Development Control section will not normally approve details required by a condition precedent retrospectively. A new planning application will usually be required under these circumstances.**

Conditions precedent must be formally confirmed as being complied with by the District Planning Authority prior to commencement of work. Formal discharge/compliance may also be required for other conditions. Any requests

for the discharge/compliance of conditions must be submitted to the District Planning Authority in writing. Each such written request to discharge/compliance any conditions will require payment of a separate fee.
(SIN02)

Councillor M Bezzant proposed that the application be permitted subject to the conditions outlined in the report as amended verbally by the Officer together with the proposed informatives. This proposal was seconded by Councillor M Lewis and agreed at a vote.
