2. Background

 - (ii) Creation and maintenance of Treasury Management Practices, which set out the manner in which the Council will achieve those policies and objectives.

- 3.6 The weighted average interest rate earned on fixed rate investments in the quarter was 0.63%.
- 3.7 Capita Asset Services Treasury is engaged by the Council as its Treasury Management consultants providing advice on investment, performance and regulations where necessary.
- 3.8 The following graph shows how the level of cash and instant access investments fluctuated in 2016/17, and the forecast levels of cash and instant access investments in 2017/18. The purpose of the graph is to illustrate that we always have a sufficient level of cash reserves to meet our immediate short term cash requirements.

4. The Prudential Capital Code – Prudential Indicators

- 4.1 In accordance with the Prudential Capital Code the Council reviews its Prudential Indicators on a quarterly basis. Movements in the Prudential Indicators for the year 2017/18 to date are as follows:
- 4.2 Interest rate exposures

The interest rate exposure on investments has moved as follows:

Date	Investments as a % of total	
	Fixed	Variable
31/03/17	70%	30%
30/06/17	73%	27%

South Bucks District Council

This Prudential Indicator sets an upper limit on fixed interest rate exposures of 100% and variable interest rate exposures of 70% of net outstanding principal sums. Exposures have been managed within this limit.

4.3 Principal sums invested for periods longer than 364 days

The upper limit for sums invested for periods longer than 364 days is £16m. As at the end of June the figures are as follows:

Date	Total investments (excluding bonds)	Sums invested for greater than 364 days	% of total investments
31/03/17	£16m	£11m	69%
30/06/17	£14m	£8m	57%

Of the £8m that is invested for greater than 364 days, £3m is for 3 loans for a period between 365 and 367 days. £5m is invested for greater than 367 days. Sums invested reflect the current level of rates that do not incentivise long term cash investments.

5 Corporate Implications

- 5.1 The budgeted income from investments for 2017/18 has been set at £200,000. Investment income earned in the year to June is £28k. The budget assumed an interest rate of 1% on medium term loans and 0.35% on short term loans. If interest rates remain at their current levels, the budgeted rates are unlikely to be achieved and therefore the 2017/18 budget is unlikely to be met.
