A call-in request has been submitted from Councillor Anders Christensen, supported by 23 Councillors. The reasons for the call-in request are set out below.

Title

Cabinet meeting

7 June 2022

Reasons for the call-in request

The request for Call-In is attached. The Monitoring Officer considers that the first ground Call-In relating to the ACV is not valid but the second ground for Call-In is valid, namely the statement from Councillor Anders Christensen that:

“9.1. States that the results of a 'pre-planning consultation will be considered' before a decision is made. The result of that consultation was not included in the papers before cabinet and have yet to be published to either members or the public. Until the results of the pre-planning consultation are published I do not believe the decision to proceed with the development of the site can be considered Safe.”
