Question from Councillor Robin Stuchbury to Councillor Peter Strachan, Cabinet Member for Planning and Regeneration

I have received an update from the archaeological department on the draft scope for the excavation work from Network Archaeology for the West End Farm site in Buckingham, outlining what analysis will be taking place as part of the post excavation assessment which includes radiocarbon dating to determine how old the skeletons are and the DNA analysis to assess and look at whether there was any family relationships. This information has been shared with experts at Historic England, who provided some useful feedback and suggestions. The Archaeological Team are awaiting information from Network Archaeology on the programme of works. Please could I have any additional information which you can share with me and also what information can be given to the wider community on the subject, including whether it would be possible to work with the local museum within Buckingham who could promote these historic findings.
