In 2022, the HASC Select Committee set up an inquiry group to review the development of primary care networks (PCNs) in Buckinghamshire. PCNs were set up to bring general practices together to work at scale, improving the ability of practices to recruit and retain staff, manage financial and estate pressures and to provide a wider range of services to patients. In Buckinghamshire, there are 13 PCNs.

The inquiry group's report made 17 recommendations which were aimed at both the Council and health partners. The progress in implementing the recommendations was reviewed by the Committee six months ago and this is an opportunity for the Committee to review the progress a year on.

Philippa Baker, Place Director, Integrated Care Board

| 7 | Director of Public Health Annual Report
Each year the Director of Public Health produces an annual report on the health of the population.

This year the report focuses on mental health. The Director of Public Health Annual Report 2023 describes the factors that support good mental health, identifies groups that are at risk of poorer mental health and makes recommendations for the Council and its partners to promote mental health and wellbeing. The report is a call to action for partners in Buckinghamshire.
