Amber from Mama Bee gave an update on the youth café project and how it moved to the park from Sept 18th there have been 6 sessions. It became apparent from early sessions that there were many vulnerable young people attending the provision. 12-15 age group seem more dysregulated and more difficult to engage with due to a lack of understanding of youth work and provision. As a result, they have decided to work with young women in additional to the original offer. They
