

Ridgeway Delivery Group Meeting 8th September 2020:

- Covid-19 hasn't prevented mowing on the Ridgeway;
- Promoting the Countryside Code continues, with the addition of Covid-19 related messages;
- Covid-19 guidance has been put in place for event organisers using the Ridgeway, although this may change following announcements on 9th September 2020;
- Scheduled monuments were discussed near and along the Ridgeway and why these should be considered when managing public access. This will be followed-up later.
- Ridgeway Riding Route – an online survey has been done which shows demand for the project. Looking into funding for benches, cycling tool stations and mounting blocks.
