Background

As part of our work to become a single local authority, we have undertaken a full review of all traffic regulation orders (TROs) across Buckinghamshire. This is to make sure that they are all appropriate and have the correct road markings and signage.

The TRO review began in January 2020 and we have completed surveys of all our existing signs and restrictions. The new legal orders have now been prepared and reviewed by our legal department.

One benefit of the review is that all the orders are now digital, and map based. This means they are easier to view and amend in the future.

What happens next?

We will consider all comments before we make the new Buckinghamshire Council traffic regulation orders. The signs and lines will be very similar to what there is now, but if any minor changes are necessary, we will display them on the new TRO website (<https://www.buckinghamshiretraffweb.uk/consult/main.html>).
