

Youth Views

Aylesbury Community Board Meeting – 22nd July 2021

Summary

Identifying Need

- Enhancing the Lives of Our Youth Action Group discussed local need- how to understand the needs of young people without speaking to them?

Community Conversations

- The group considered methods of engagement to ensure that the views of Aylesbury's diverse community were captured

Collaboration

- Youth Views created as a collaborative project between Aylesbury Youth Action (AYA) & The Cloudy Foundation

Phase 1 Data Design

Young people develop the questions at 3x 1.5 weekly sessions per age group at Queen's Park Arts Centre (11-14, 15-18, 19-24)

Young people explored different topics stemming from community board priorities & the things they think would be helpful for the council to know

Young people to consider how questions should be formed and asked (open, closed, photo, video etc)

Phase 2- App Design

Cloudy
Foundation

UTC students will work with the Cloudy Foundation to develop 'apps' to turn the questions in to a research method. This could be a competition for students

They will showcase to a panel on 2 July and best one will be turned in to an app

- 3pm – An exhibition of all work to be presented to the community and team presentations to judges at Bucks New University
- 3.30pm – Awards ceremony

We will invite Community Board members to join the event (booking system/process TBC)

Phase 3

Launch & Engagement

- App goes live. Second week of July (date to be confirmed)
- As much engagement before School holidays is critical to success. App will stay live over summer holidays.

Promotion

- We need support from Community Board members to promote the survey & encourage people to participate. A wide demographic is key.

What happens next?

- Data published and shared by Community Board
- Youth views to be fed in to all action groups and priorities of Aylesbury Community Board
- Projects to be considered based on evidenced needs
