

**Proposed CCTV Camera Locations\***

Site Number	Predicted or Deployed?	Dates Deployed	Town	Site Location	Comments	Looking For?
15	deployed	31/03/21 -	LITTLE MISSENDEN	A413, Amersham Bypass ,to side of and up from junction Keepers Lane	Proposed location on grassed verge Amersham Byass ,to side of and up from junction Keepers Lane, offer good visibility for carmers but also possible location 493515 , 198634 A413, Amersham Bypass side of Mop End Lane also a good vantage point but believe this is not only used a PRoW but for access of residents nearby and owners of fields off?	Focus on construction vehicles performing U Turns - agreed with HS2 Ltd that they should use roundabouts and not the break in the central reservation used by traffic accessing Keepers Lane
18	deployed	31/03/21 -	CHARNDON	Edgcott Road, Cross roads at School Hill or Werner Terrace	Proposed location on grassed verge sitting camera off Edgcott Road its self but better know as Calvert Green, Edgcott give good over all views and traffic volumes and flow within the area	Focus on number of HGV movements
22	deployed	28/06/21 -	QUAINTON	Blackgrove Road/The Willows junction	Proposed location on south east verge of junction	Focus on traffic congestion following removal of temporary traffic lights installed to improve safety as this junction is on the diversion route for Station road closure operated by Fusion
5	Predicted		BEACONSFIELD	A40 London End/A355 Park Lane roundabout	Current Easting and Northing site the camera upon the round about of A40 London End,beaconsfield ,of which Camera and trailer would not fit with Gaurding surrounding it etc as well as run the risk of being struck by larger vehicles turning and over running kerb line / round about . 494839 , 190146 upon the footway opposite site has possibly enough space for camerposition, guarding etc as keeping footway open and clear views upon A355 & A40. On Schedule 17 Lorry Route which has been appealed.	Traffic conditions/congestion, to determine adequacy of mitigating measures by HS2 Ltd
6	Predicted		BEACONSFIELD	A355 Amersham Road/Ledborough Lane priority junction	Current Easting and Northing site for this camer is within the middle of the carriageway and surgest 494869 , 191737 A355 side of Ledborough Lane within the unmade / grass created road parking at the of this before the start of the bus stop / layby so not to obstruct any visability of motorist also. On Schedule 17 Lorry Route which has been appealed.	Traffic conditions/congestion, to detrmine adequacy of mitigating measures by HS2 Ltd
9	Predicted		WADDESDON	A41 Waddesdon crossroads,Junction Blackgrove Road	Current Easting and Northing sites the camera in the carriageway near to small central traffic islane. 475781 , 216705 is a more suitable location on verge off the junction/ Cross road to side of Waddesdon Hill , if sited a back and away from the junction its self for visability concerns etc this would then allow a good view and anglas of A41 and down BlackGrove Road.	Traffic conditions/congestion, to determine adequacy of mitigating measures by HS2 Ltd
12	Predicted		GREAT MISSENDEN	A413 London Road, Junction of former London road	Proposed location on grassed verge just off old Londen Road to side of Chiltern Hospital, would be able to monitor A413 traffic flows. On Schedule 17 Lorry Route which has been appealed.	Traffic conditions/congestion, to determine adequacy of mitigating measures by HS2 Ltd Focus on turning movements and the exit from London Road in particular
23	Predicted		AMERSHAM	A355/A413 Gore Hill roundabout	Exact location t.b.c. On Schedule 17 Lorry Route which has been appealed.	determine adequacy of mitigating measures by HS2 Ltd
24	Predicted		DENHAM	A412 at Denham to monitor verge parking outside Shell Garage	Align have offered to undertake remedial work to address damage.	Focus on identifying construction vehicles parking on and causing damage to grass verge.

\* Please note that locations are listed in order of expected deployment, however this is subject to change if a higher scoring location is identified.
