			<p>See the following additional measures as being necessary and proportionate in this instance:</p> <ul style="list-style-type: none"> • A reduction in the terminal hour of the supply of alcohol to 23:00 daily • The exclusion of all regulated entertainment (and where music is permitted before 23:00 by virtue of the Live Music Act 2012 that the control measures within any Operating Schedule relating to noise control are applied before that hour} • The exclusion of late night refreshment 	
	Admission			
1	The designated queuing area shall be enclosed within appropriate barriers and ensure that a minimum width of 1.8m [or specify if greater] is maintained			

	on the footway to allow safe passage by pedestrians.			
2	An ID scanning system approved in writing by the licensing authority must be operated at the premises at all times it is open to the public. All persons entering the premises must provide verifiable ID and record their details on the system.	Conditions 2, 3 and 4 essentially requires all persons entering the premises to have their ID scanned and to be searched physically and with a hand held wand, on entry and re-entry, at all times the premises is open. The proposed opening times are from 12:00 until 01:00, 02:00 on Fridays and Saturdays. If this is the case there are significant cost implications for the applicant in terms of maintaining sufficient staff to fulfil this obligation and it is highly questionable whether this is sustainable. Furthermore it would be highly unusual for customers to be subject to such stringent requirements when visiting a “bar” or “shisha café”, particularly when visiting during the day.		An ID scanning system approved in writing by the licensing authority must be operated at the premises at all times it is open to the public. All persons entering the premises must provide verifiable ID and record their details on the system. The system must be able to photograph the person.
3	All persons entering or re-entering the premises must be searched by an SIA registered door supervisor [and all searches must be monitored by the premises CCTV system].			
4	No patron shall be admitted or readmitted to the premises unless they have been searched using hand-held electronic search wands and, if the search equipment is activated, have been physically searched in accordance with a procedure agreed with Thames Valley Police, which must include a 'pat			

	down search' and a full bag search. Search equipment must be kept in working order.			
5	No customer will be permitted to enter or re-enter the premises between the hours of 12.00am and 1 am save for persons who have temporarily left the premises (e.g. to smoke).	This is vague and open to a broad/lax interpretation of the word "temporarily". Furthermore, there is no reference to what happens after 1am, which means patrons could then continue to enter and re-enter if the premises were open to 2am, resulting in potential disturbance to neighbouring residents later into the evening.		No customer will be permitted to enter or re-enter the premises between the hours of 12.00am and closing time.
6	Between the above times no customer will be permitted to enter or leave the Premise.	Contradicts condition 5, and states between the above times no customers will be permitted to enter or leave. Not only is this contradictory but likely to be illegal if the intention is to stop customers leaving should they wish to do so.		
7	No more than 80 customers will be permitted on the premises at any one time.	Plans accompanying the application indicate accommodation for approximately 105. Furthermore condition 49 restricts the number of customers to 80 in the shisha		

		area at any one time. If the capacity of the premises is restricted as per condition 7, then condition 49 is not necessary.		
8	The premises licence holder shall ensure a suitable method of calculating the number of people present during licensable activities is in place.			
	Door Supervisors			
9	Door supervision must be provided on Monday through to Sunday from 12.00 until 3.00. Door supervisors must be on duty from opening until the close and must remain on duty until the premises are closed and all the customers have left.	Stipulates that door supervisors must be provided every day from 12:00 to 03:00, if this is what is truly intended again there will be significant cost implications which are likely to render this arrangement unsustainable.		Door supervision must be provided on Monday through to Sunday from 12.00 midday until closing. Door supervisors must be on duty from opening until the close and must remain on duty Until the premises are closed and all the customers have left. (Repeated)
10	On all days from opening time to close at least 5 SIA registered door supervisors must be on duty at the premises.	Again this arrangement would be extremely costly and is unlikely to be sustainable.		On all days from opening time to close at least 5 SIA registered door supervisors must be on duty at the premises. 2 of these being female

11	Door supervisors shall be employed at the ratio of 10 door supervisor for every 100 customers (or part thereof).	Assuming a capacity of 80, this means that a minimum of 8 door supervisors must be employed. Once again this would be extremely costly and unlikely to be sustainable.		
12	Door supervisors shall be employed by the premises based upon a risk assessment carried out in relation to the following factors: (i) Size of the venue (ii) Expected attendance (iii) Type of event taking place (iv) Location of the premises (v) Time of year (vi) Special occasion (New Year, Halloween, Local events etc.) (vii) Premises Licence Conditions 18. At least 2 female door supervisor(s) shall be on duty at the premises at such times as door supervisors are required to be provided.	Given that there is minimum of at least between 5 and 8 proposed, this condition implies that the numbers of door staff required could be even higher. Once again this would be highly irregular for a relatively small bar or shisha café to require such high numbers of door supervisors.		
13	All door supervisors, and other persons engaged at the premises for the			All door supervisors, and other persons engaged at the premises for the purpose of supervising or controlling queues or customers, must wear [high visibility jackets

14	Any door supervisors on duty at the premises must be supplied by an SIA-Approved Contractor Scheme company.

The Designated Premises Supervisor or on-duty manager (must be a personal license holder) must ensure that all door supervisors on duty at the premises are correctly displaying their current SIA accreditation and are briefed on their responsibilities and relevant company operating procedures before they commence duty.
16	Door supervisors must be provided with radios to enable them to contact each other and the duty manager at the premises.			
17	Where SIA registered door supervisors are used at the premises, a record			

	must be kept of their SIA registration number and the dates and times when they are on duty.			
	CCTV

It would be clearly appropriate that if door supervisors are required to 3am to promote the licensing objectives that the CCTV system should be in operation until at least the same hours.</p>		<p>The premises licence holder must ensure that:</p> <p>(i) CCTV cameras are located within the premises to cover all public areas including all entrances and exits [The location of cameras could also be specified on the plan attached to the premises licence].</p> <p>(ii) The system records clear images permitting the identification of individuals.</p> <p>(iii) The CCTV system is able to capture a minimum of 24 frames per second and all recorded footage must be securely retained for a minimum of 28 days.</p> <p>(iv) The CCTV system operates at all times while the premises are open for licensable activities from 12.00 until closing.</p>
