Reasons for Decision

The work of SKIDZ is to instill key skills in the field of motor mechanics and vehicle maintenance and facilitate young people in their progression into employment or further training. Classes are conducted in pursuit of formal qualifications under the moderation of the Institute of the Motor Industry. There has been a significant reduction in SKIDZ income since 2009 to date. SKIDZ has provided a financial forecast to 2017 – 2018 to achieve a minimum reserve level of £100k. A decision has been made to award SKIDZ a grant of £15,000 to strengthen its current operational position when bidding for additional funding.
