

Community Food Growing Sites in Bucks

Have you always wanted to grow your own fruit and vegetables, but don't know where to start

You don't need any previous experience to get involved with your growing site. Everyone is welcome and you will be shown what to do.

Our community gardens are a great place for:

Providing a space for people to socialise by gardening and taking part in other activities.

Positively impacting your physical health and wellbeing.

Growing your own produce and having a positive impact on the environment.

In Buckinghamshire, there are a number of community food growing sites where local people meet and garden together. Please turn over for full details of the Grow It, Cook It, Eat It community gardens.

Sowing the seeds of a healthy, happy and connected neighbourhood

Community Food Growing Sites in Bucks

The Grow It, Cook It, Eat It garden details are listed below should you want to get involved.

Remember no experience needed! A garden always gives back more than it receives and brings people together
