

Frith Hill (SHL) Footway - unsafe July 2022

Upper part of the footway was dangerously overgrown

- Leaves on the narrow footway in the winter and overgrown in the summer
- Incident: 11 year old was struck on the arm with a car wing mirror
- Deemed a safe route to school so no school bus – we need to make it safe!

Strimmed

Flailed but still not enough

BC Highways have flailed and are to side-out the upper part. However, the hedge needs cutting back severely and in some places the edge digging out, followed by the footway widened to at least 1 metre and re-asphalted.

Frith Hill (SHL) Footway - unsafe July 2022

No footway in the lower part; have to walk in the road to get to the church and The Misbourne school with traffic speeding up the hill

Propose new footpath in **green** along the field including a ramp and railing down to the junction with the B485.
