

Are you worried about nuisance phone calls?

Unfortunately nuisance phone calls are on the increase. Many of them are scams that aim to con people out of money. A **trueCall** device will block unwanted phone calls to help give you peace and quiet at home, while allowing your friends, family and other trusted people to call you.

trueCallTM
STOPS NUISANCE CALLS

What is a nuisance call?

Any kind of unwelcome phone call you receive. For example, market research and sales calls. Or scammers trying to get your personal and financial details by pretending to be from a bank, well-known company or government agency.

How does it work?

trueCall is a small device that plugs into your landline's phone socket. It takes the stress out of answering the phone by allowing your friends, family and other trusted people to call you, while blocking everyone else.

How do I get one?

To find out if you are eligible for a free **trueCall** device please phone Citizens Advice on **0808 223 1133** and ask for a call blocker from Buckinghamshire & Surrey Trading Standards.

Or email us at trading.standards@surreycc.gov.uk
