**Flag Status:** Completed

Brian

Thank you for this information - and I am happy to see there has been serious consideration to noise impact to neighbours

However - per the attached diagram - it appears the organiser and/or environmental team are not aware of the 4 residential properties indicated (of which I am one) so my objection still stands as I believe additional sound checks are required on the north side of the park - in the area circle on the attachment

Regards

Morning,

The stage is shown as broadly north east facing. Colleagues at Env. Health who are the lead agency for preventing a public nuisance have responded that they do not object to the application.

I have this morning received the latest noise management plan from the organisers, as attached. I would be grateful if you could review this document and then let me know if you wish to withdraw your objection to the licence application. Or if your objection is to remain?

Thank you

**Subject:** [EXTERNAL] Re: Licensing more info Octoberfest

Thanks Brian

Yes - I have the info I need - although I did comment that I'd like to know more detail about the location of the tent for the event and - more specifically - the direction of the sound system within the tent.

At a previous event - not sure if same organisation - the speakers were directed towards our property (there are other directions with less impact) and the base was so loud it could be heard above our TV

I did record this comment on the application and will to provide more details if required at review time

Regards
