

North West Chilterns Community Board Action Plan 2023/24

Introduction

Community Boards are at the heart of the council's ambition to be a council that understands and responds to the needs of our communities – empowering and enabling them to come together with the council and the people, organisations and groups that have the skills and passion to make changes and improve things where they live.

Community Boards provide the opportunity to refocus, and reinvigorate how we all – the council, partners, residents, charities, businesses and community organisations – work together for the benefit of Buckinghamshire. We share the common goal to improve the lives of the people who live and work in Buckinghamshire and there's no doubt that we are stronger, better and more effective in doing that when doing it together.

The North West Chilterns Community Board covers the following town and parish areas:

- Bledlow-cum-Saunderton
- Bradenham
- Downley
- Ellesborough
- Great and Little Hampden
- Great and Little Kimble
- Hughenden
- Lacey Green
- Longwick-cum-Ilmer
- Piddington and Wheeler End
- Princes Risborough

- Radnage
- Stokenchurch
- West Wycombe

This action plan sets out how the North West Chilterns Community Board (NWCCB) will work with the local community to address community priorities and take action on local issues.

The NWCCB will address those matters that mean the most to our local community, using data and local intelligence to help it determine the priorities our board will focus on. We will involve residents, partners, local groups and organisations in understanding what the local issues and priorities are.

Furthermore, the board will link those local issues to our corporate priorities around improving the environment and supporting economic recovery, including activities around transport and road issues and community resilience, which for example, will look at ways it can support our young and older people and implement preventive measures around crime and antisocial behaviour.

These priorities will help us determine where we take action and allocate funding to improve the local area. An overview of each one is detailed in the section below.

The overall aims of the NWCCB are therefore:

- To develop good working relationships with the community to understand and address local issues.
- To understand what is important to the community board area.
- To develop action groups to explore key areas of focus and identify how to take action as a community.
- To identify opportunities and projects that meet the community board priorities for funding.
- To promote the community board and the community board fund to the local community and encourage engagement.
- To support the council in delivering strategic priorities at a local level.

Community Board Priorities for 2023/24

Community Resilience: To support the community around physical, behavioural, social and environmental health and wellbeing, as well as crime and antisocial behaviour.

Economic Regeneration and Development: To seek schemes and initiatives that support new and existing local businesses (urban and rural) and to prioritise schemes and initiatives that help achieve the council’s Climate Change and Air Quality Strategy.

To support businesses, organisations and individuals by evaluating their needs to improve economic competitiveness and prosperity.

Environment and Climate Change: To seek and support schemes and initiatives that help achieve and inform the Council’s Climate Change and Air Quality Strategy, and those that have a sustainable and lasting effect on the North West Chilterns area, improve the built or rural environment, reduce the impacts and increase awareness of climate change, and reverse environmental damage.

Transport and Road Issues: To work on local issues and initiatives to improve road safety, cycling and walking. To address specific parking, speeding and highways issues and support broader objectives to help reduce carbon emissions from transport.

Community Board Action Plan - Tasks

Aim	Action	Proposed completion date	Lead	Progress update / completion date
Develop good working relationships with the community to understand and address local issues				
Raise the profile of the Board locally and encourage active engagement from local residents and stakeholders.	Develop a communications and engagement plan.	31.08.23	Jackie Binning
