3: Who will be affected by the activity / change /procedure/ project, and how? Consider members of the public, employees, partner organisations etc.

The People Strategy will impact on all employees, prospective employees, partner agencies and the wider communities of Buckinghamshire & Milton Keynes. Evidence can be seen of this with the cultural shift to home working and hybrid working.

- 4: What information is already available that tells you what impact the activity / change / procedure/project has/will have on people? (please reference) Consider quantitative and qualitative data, consultation, research, complaints etc. What does this information tell you? The Strategy has been "live" for three years and is produced to be in its existing format for a five-year period. The Strategy sets out a framework for engaging and developing Service employees to enable cultural changes which will support the delivery of our visions and strategic priorities. The results of the Services culture survey provided evidence relating to areas of the culture survey where further progress can be made.
- 5: Does the activity/change policy/procedure/project have the potential to impact differently on individuals in different groups? Complete the table below by $\sqrt{}$ the likely impact.

This will involve significant collaboration with key stakeholders, representative bodies and partner agencies (including other Fire Services) The accurate recording of EDI data will enable to Service to identify and evidence where progress is being made and where further progress can be made.

On-going engagement with employees will allow the Service to understand cultural changes and future challenges, this will be formalised through employee surveys and working groups.

Internal review of employee development such as IFE examination pass rates and development centre participation will enable the Service to identify likely workforce models and to identify the need for external recruitment and development.

The Workforce Planning Group will review progress regarding recruitment and retention of both operational and support staff to ensure that the Service employs the required number
