1.4 The draft Audit Findings Report for the Buckinghamshire Pension Fund for the year ended 31st March 2023 is attached as Appendix 2. The audit work was completed remotely by Grant Thornton during August to October. Grant Thornton's work is substantially complete and they have not identified any adjustments to the financial

statements which have an impact on the Pension Fund's reported financial position. Grant Thornton anticipates issuing an unmodified audit report opinion. An unmodified opinion is expressed when the auditor concludes that the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting framework.

- 1.5 The formal sign off for the Pension Fund accounts will take place at the same time as the formal sign off for Buckinghamshire Council's accounts which is anticipated to be during the latter months of 2024. On 15th November 2023 the Buckinghamshire Pension Fund Statement of Accounts 2022/23 were presented to the Buckinghamshire Pension Fund Committee.
- 1.6 The audit work identified an issue in respect of the valuation of Level 3 investments. The 31st March 2023 value in the accounts was overstated by £6.323m compared to the value in the 31st March 2023 capital statements. The capital statements are provided by the investment managers quarterly in arrears. The 31st March value in the accounts is based on the previous 31st December valuation adjusted for any payments to the fund or distributions received. There will always be a difference which will vary depending upon the volatility of the financial markets during the final quarter of the financial year. Although a large monetary amount, the £6.323m represents 0.16% of the Buckinghamshire Pension Fund net asset value and management propose not adjusting the Statement of Accounts since the amount is not material.
- 1.7 The audit work identified an issue in respect of the valuation of Level 2 investments. The 31st March 2023 value in the accounts was overstated by £19.587m compared to the value in the 31st March 2023 capital statements. The capital statements are provided by the investment managers quarterly in arrears. The 31st March value in the accounts is based on the previous 31st December valuation adjusted for any payments to the fund or distributions received. There will always be a difference which will vary depending upon the volatility of the financial markets during the final quarter of the financial year. Although a large monetary amount, the £19.587m represents 0.52% of the Buckinghamshire Pension Fund net asset value and management propose not adjusting the Statement of Accounts since the amount is not material. Grant Thornton are conducting some additional investment checks and this value may change on finalisation of those checks, the Buckinghamshire Pension Fund Committee required the additional investment checks to be completed before endorsing management's proposed treatment of areas identified by the auditor.
