1.2 The Pension Fund Accounts and Net Assets Statement show that in the year to 31st March 2023 the value of the Pension Fund decreased by £171m to £3.742bn. This is the net result of income received (£189m) including employers' and employees' contributions, transfers in from other pension schemes and other income; payments

out including benefits (£133m), payments to and on account of leavers (£17m); management expenses (£22m) plus net losses on investments (£188m).

1.4 The draft Audit Findings Report for the Buckinghamshire Pension Fund for the year ended 31st March 2023 is attached as Appendix 2. The audit work was completed remotely by Grant Thornton during August to October. Grant Thornton's work is substantially complete and they have not identified any adjustments to the financial statements which have an impact on the Pension Fund's reported financial position. Grant Thornton anticipates issuing an unmodified audit report opinion. An unmodified opinion is expressed when the auditor concludes that the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting framework.

1.5 The formal sign off for the Pension Fund accounts will take place at the same time as the formal sign off for Buckinghamshire Council's accounts which is anticipated to be during 2024. On 15th November 2023 the Buckinghamshire Pension Fund Statement of Accounts 2022/23 were presented to the Buckinghamshire Pension Fund Committee. On 27th November 2023 the Buckinghamshire Pension Fund Statement of Accounts 2022/23 were approved by the Audit and Governance Committee.

1.6 The audit work identified an issue in respect of the valuation of Level 3 investments. The 31st March 2023 value in the accounts was overstated by £6.323m compared to the value in the 31st March 2023 capital statements. The capital statements are provided by the investment managers quarterly in arrears. The 31st March value in the accounts is based on the previous 31st December valuation adjusted for any payments to the fund

or distributions received. There will always be a difference which will vary depending upon the volatility of the financial markets during the final quarter of the financial year. Although a large monetary amount, the £6.323m represents 0.16% of the Buckinghamshire Pension Fund net asset value and management propose not adjusting the Statement of Accounts since the amount is not material the external auditors support this approach.

1.7 The audit work identified an issue in respect of the valuation of Level 2 investments. The 31st March 2023 value in the accounts was overstated by £16.5m when compared to the Level 2 investment price valuations in statements provided by third parties. The most significant difference in the price valuation was the Legal & General (LGIM) passive world developed equity where the price valuation statement was dated 27th March and based on the value of the underlying assets on 24th March 2023. The 31st March 2023 value in the Buckinghamshire Pension Fund Statement of Accounts uses the price valuation statement dated 3rd April 2023 which is based on the value of the underlying assets on 31st March 2023. Although a large monetary amount, the £16.5m represents 0.44% of the Buckinghamshire Pension Fund net asset value and management propose not adjusting the Statement of Accounts since the Statement of Accounts is based on the value of the underlying assets on 31st March 2023, the external auditors support this approach.
