

Health & Wellbeing Board

Buckinghamshire

Health and Wellbeing Dashboard

Date: 14th December 2023

Author/Lead Contacts: James Robinson, Business Intelligence Business Partner (Adults & Health); Marcus Grupp, Power Platform and Tools Manager; and Karen Bulmer, Business Intelligence Analyst, Buckinghamshire Council

Report Sponsor: Jane O’Grady, Director of Public Health

Considerations: **Information** **Discussion**
 Decision **Endorsement**

Please indicate to which priority in the Joint Local Health and Wellbeing Strategy, [Happier, Healthier Lives Strategy \(2022-2025\)](#) your report links to.

Start Well	Live Well	Age Well
<input checked="" type="checkbox"/> Improving outcomes during maternity and early years	<input checked="" type="checkbox"/> Reducing the rates of cardiovascular disease	<input checked="" type="checkbox"/> Improving places and helping communities to support healthy ageing
<input checked="" type="checkbox"/> Improving mental health support for children and young people	<input checked="" type="checkbox"/> Improving mental health support for adults particularly for those at greater risk of poor mental health	<input checked="" type="checkbox"/> Improving mental health support for older people and reducing feelings of social isolation
<input checked="" type="checkbox"/> Reducing the prevalence of obesity in children and young people	<input checked="" type="checkbox"/> Reducing the prevalence of obesity in adults	<input checked="" type="checkbox"/> Increasing the physical activity of older people

This dashboard links to all priorities as it shows the Strategy indicators in a visual way.

Description

1. The Health and Wellbeing Dashboard is a tool that helps the Board and its partners, stakeholders, and residents to monitor the impact and outcomes of the Buckinghamshire Health & Wellbeing Strategy. The dashboard will be demonstrated at the meeting.
2. The dashboard displays key indicators related to the four strategic priorities and the data is publicly available via the Council website. The dashboard also provides context and analysis of the data, highlighting trends, targets, benchmarks, and what the data means. The dashboard will be updated quarterly and is intended to inform decision-making.

3. The dashboard is built in a software package called Power BI, which means it is interactive and enables people to be able to drill down into each individual indicator for further information. The dashboard includes the 29 priority indicators within the Start Well, Live Well, and Age Well themes and may be viewed at the Board meetings as well as being accessible between meetings.
4. The dashboard also provides definitions for the indicators to ensure there is no confusion over what is being measured.

Next steps

Once approved by the Board, the dashboard will be made available on the Health and Wellbeing pages of the Buckinghamshire Council website.
