

# TWO RIVERS WALK

An improved walking route between Old Amersham and Chesham.

## Background

Chiltern Society and Chilterns National Landscape team have been working with Sustrans to identify a new and accessible walking route in the River Chess catchment. This collaboration forms part of the **Smarter Water Catchment Programme** funded by Thames Water.

## Online survey

This work led to a recommendation to develop a new, **more accessible walking route** between the River Misbourne and the River Chess called the **Two Rivers Walk**. As such, we have launched a **5-minute online survey to gather feedback** on the idea from local people. Two Rivers Walk aims to connect up Old Amersham, Amersham, Chesham Bois and Chesham High Street using existing footpaths and bridleways. **This survey closes on Saturday 30th November 2024.**

Use your phone camera to scan the QR code and fill in the 5-minute survey
