The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Authority or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

1. Introduction & headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Buckinghamshire Pension Fund ('the Pension Fund') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Buckinghamshire Pension Fund. We draw your attention to both of these documents on the [PSAA website](#).

The current environment

As you are no doubt aware, the unprecedented global response to the Covid-19 pandemic has led us to consider the impact on our audit approach this year. The significance of the situation cannot be underestimated and the implications for individuals, organisations and communities remains highly uncertain. For our public sector audited bodies, we appreciate the significant responsibility and burden your staff have to ensure vital public services are provided. The Fund will also be specifically facing a number of tough challenges around covenant strengths, funding, investment, governance and communications to members. As far we can, our aim is to work with you in these unprecedented times, ensuring up to date communication and flexibility where possible in our audit procedures.

Management and those charged with governance are still required to prepare financial statements in accordance with the relevant accounting standards and the Code of Audit Practice, albeit to an extended deadline for the preparation of the financial statements up to 31 August 2020 and the date for audited financials statements to 30 November 2020, however we will liaise with management to agree appropriate timescales. We continue to be responsible for forming and expressing an opinion on the Fund's financial statements.

In order to fulfil our responsibilities under International Auditing Standards (ISA's (UK)) we have revisited our planning risk assessment. We may also need to consider implementing changes to the procedures we had planned and reported in our Audit Plan to reflect current restrictions to working practices, such as the application of technology to allow remote working.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Pension Fund's financial statements that have been prepared by management with the oversight of those charged with governance (the Regulatory and Audit Committee).

The audit of the financial statements does not relieve management or the Regulatory Audit Committee of your responsibilities. It is your responsibility to ensure that proper arrangements are in place for the conduct of your business, and that public money is safeguarded and accounted for properly.

Our audit approach is based on a thorough understanding of your business and is risk based.

1. Introduction & headlines

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Management override of controls;
- Level 3 asset valuations.
- Impact of Covid 19

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined materiality at the planning stage of our audit to be £30m (PY £28m) for the Pension Fund, which equates to approximately 1% of your prior year net assets for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £1.5m (PY £1.4m).

Audit logistics

Our interim visit will take place in March and our final visit will take place in June and July. Our key deliverables are this Audit Plan and our Audit Findings Report. Our audit approach is detailed in Appendix A.

Our fee for the audit will be £26,275 (PY: £19,275) for the Pension Fund, subject to meeting our requirements set out on page

Independence

We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements..

2. Key matters impacting our audit

Factors

The wider picture and political uncertainty

- Local Government funding continues to be stretched with increasing cost pressures.
- The market value of LGPS funds at end of March 2019 was £287.2 billion (an increase of £16.3 billion or 6.0%) but for the first time, the LGPS in England & Wales is now cashflow negative, with benefit payments rising to £10.4bn while contributions fell to £9.3bn. There are now over 18,000 employers. Local authorities represent around 74% of scheme members.
- LGPS has undergone a full revaluation in 2019 in line with the triennial programme. This will be reflected in your 2019/20 financial statements.
- The UK left the EU on 31 January 2020 and the Coronavirus is spreading across the globe. The economic impact of these factors remains uncertain as is the wider global economic picture. You will need to ensure that your investment strategy has considered potential outcomes.

Governance

- The Scheme Advisory Board (SAB) has published the *Good Governance – Phase II Report*. Proposals include having a single named officer responsible for the delivery of LGPS related activity for a fund, an enhanced annual governance compliance statement and establishing a set of key performance indicators.
- SAB is also consulting on Responsible Investment guidance to assist and help investment decision makers.
- tPR continues to apply pressure on pension schemes to improve the quality of scheme member data. The 2019 valuation process will likely have thrown up some data issues (large or small) that need addressing.

Financial reporting and audit – raising the bar

The Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge, and to undertake more robust testing as detailed in Appendix 1.

Our work across the country in 2018/19 has highlighted areas where financial reporting, needs to be improved (in particular level 3 and financial instrument investment valuations and disclosures), with a corresponding increase in audit procedures.

Our response

- We will consider the valuation of the pension assets in light of the impact of Brexit and the Coronavirus.
- We will review the disclosures in your financial statements and Annual Report against our knowledge of you as an entity.
- We will undertake additional work over your member data accuracy and completeness as requested by Scheme Employer auditors in this the triennial valuation year.

- We will consider your responses to the SAB initiatives and whether they impact upon our risk assessment.
- We will consider the impact of any data issues raised as part of the 2019 valuation and recent internal audit reports prior to testing member data as part of our audit.
- We will consider the internal environment in relation to your member data processing at Surrey County Council in light of the recent internal audit report which resulted in a rating of 'no assurance'.

- As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and financial reporting. Our proposed work and fee is set out on page 10 of this Audit Plan.

3. Significant risks

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
The revenue cycle includes fraudulent transactions (rebutted)	<p>Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue. This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.</p>	<p>Having considered the risk factors set out in ISA240 and the nature of the revenue streams at the Fund, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:</p> <ul style="list-style-type: none"> • there is little incentive to manipulate revenue recognition • opportunities to manipulate revenue recognition are very limited • the culture and ethical frameworks of local authorities, including Buckinghamshire County Council and Buckinghamshire Pension Fund, mean that all forms of fraud are seen as unacceptable <p>Therefore we do not consider this to be a significant risk for Buckinghamshire Pension Fund.</p>
Management over-ride of controls	<p>Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. The Fund faces external scrutiny of its spending and stewardship of funds and this could potentially place management under undue pressure in terms of how they report performance.</p> <p>We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate the design effectiveness of management controls over journals; • analyse the journals listing and determine the criteria for selecting unusual journals; • test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration; • gain an understanding of the accounting estimates and critical judgements applied by management and consider their reasonableness with regard to corroborative evidence; • evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.

3. Significant risks

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
<p>Covid-19</p>	<p>The global outbreak of the Covid-19 virus pandemic has led to unprecedented uncertainty for all organisations, requiring urgent business continuity arrangements to be implemented. We expect current circumstances will have an impact on the production and audit of the financial statements for the year ended 31 March 2020, including and not limited to;</p> <ul style="list-style-type: none"> • Remote working arrangements and redeployment of staff to critical front line duties may impact on the quality and timing of the production of the financial statements, and the evidence we can obtain through physical observation • Volatility of financial and property markets will increase the uncertainty of assumptions applied by management to asset valuation, and the reliability of evidence we can obtain to corroborate management estimates • For instruments classified as fair value through profit and loss there may be a need to review the Level 1-3 classification of the instruments if trading may have reduced to such an extent that quoted prices are not readily and regularly available and therefore do not represent actual and regularly occurring market transactions. • Whilst the nature of the Fund and its funding position (i.e. not in a winding up position or no cessation event) means the going concern basis of preparation remains appropriate management may need to consider whether material uncertainties for a period of at least 12 months from the anticipated date of approval of the audited financial statements have arisen; and • Disclosures within the financial statements will require significant revision to reflect the unprecedented situation and its impact on the preparation of the financial statements as at 31 March 2020 in accordance with IAS1, particularly in relation to material uncertainties. <p>We therefore identified the global outbreak of the Covid-19 virus as a significant risk, which was one of the most significant assessed risks of material misstatement</p>	<p>We will:</p> <ul style="list-style-type: none"> • Work with management to understand the implications the response to the Covid-19 pandemic has on the organisation's ability to prepare the financial statements and update financial forecasts and assess the implications on our audit approach • Liaise with other audit suppliers, regulators and government departments to co-ordinate practical cross sector responses to issues as and when they arise • Evaluate the adequacy of the disclosures in the financial statements in light of the Covid-19 pandemic including management's assessment of the impact of Covid 19 upon employer covenants and forecast cashflows. • Evaluate whether sufficient audit evidence using alternative approaches can be obtained for the purposes of our audit whilst working remotely • Evaluate whether sufficient audit evidence can be obtained to corroborate management's fair value hierarchy disclosure • Evaluate whether sufficient audit evidence can be obtained to corroborate significant management estimates such as Level 3 asset valuations, including direct property • Discuss with management any potential implications for our audit report if we have been unable to obtain sufficient audit evidence

3. Significant risks

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of Level 3 investments	<p>You revalue your investments on an annual basis with the aim of ensuring that the carrying value of these investments is not materially different from their fair value at the balance sheet date.</p> <p>By their nature level 3 investment valuations lack observable inputs. These valuations therefore represent a significant estimate by management in the financial statements due to the size of the numbers involved (£153 million) and the sensitivity of this estimate to changes in key assumptions.</p> <p>Under ISA 315 significant risks often relate to significant non-routine transactions and judgemental matters. Level 3 investments by their very nature require a significant degree of judgement to reach an appropriate valuation at year end.</p> <p>Management utilise the services of investment managers and custodians as valuation experts to estimate the fair value as at 31 March 2020.</p> <p>We therefore identified valuation of Level 3 investments as a significant risk.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate management's processes for valuing Level 3 investments; • review the nature and basis of estimated values and consider what assurance management has over the year end valuations provided for these types of investments; against the requirements of the Code; • independently request year-end confirmations from investment managers and custodian; • for a sample of investments, test the valuation by obtaining and reviewing the audited accounts at the latest date for individual investments and agreeing these to the fund manager reports at that date. Reconcile those values to the values at 31 March 2020 with reference to known movements in the intervening period; • in the absence of available audited accounts, we will evaluate the competence, capabilities and objectivity of the valuation expert; • test revaluations made during the year to see if they had been input correctly into the Pension Fund's asset register; • where available review investment manager service auditor report on design effectiveness of internal controls.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings Report in July 2020.

4. Other matters

Other work

The Pension Fund is administered by Buckinghamshire County Council (the 'Council'), and the Pension Fund's accounts form part of the Council's financial statements.

Therefore, as well as our general responsibilities under the Code of Practice a number of other audit responsibilities also follow in respect of the Pension Fund, such as:

- We read any other information published alongside the Council's financial statements to check that it is consistent with the Pension Fund financial statements on which we give an opinion and is consistent with our knowledge of the Authority.
- We consider our other duties under legislation and the Code, as and when required, including:
 - Giving electors the opportunity to raise questions about your 2019/20 financial statements, consider and decide upon any objections received in relation to the 2019/20 financial statements;
 - Issue of a report in the public interest or written recommendations to the Fund under section 24 of the Act, copied to the Secretary of State.
 - Application to the court for a declaration that an item of account is contrary to law under Section 28 or for a judicial review under Section 31 of the Act; or
 - Issuing an advisory notice under Section 29 of the Act.
- We carry out work to satisfy ourselves on the consistency of the pension fund financial statements included in the pension fund annual report with the audited Fund accounts.

Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Going concern

As auditors, we are required to "obtain sufficient appropriate audit evidence about the appropriateness of management's use of the going concern assumption in the preparation and presentation of the financial statements and to conclude whether there is a material uncertainty about the Pension Fund's ability to continue as a going concern" (ISA (UK) 570).

Currently, the accounts of the Pension Fund are expected to be prepared on a going concern basis. We will review management's assessment of the going concern assumption and any material uncertainties and evaluate the disclosures in the financial statements.

5. Materiality

The concept of materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality for planning purposes

We have determined financial statement materiality based on a proportion of the net assets of the Pension Fund for the financial year. In the prior year we used the same benchmark. Materiality at the planning stage of our audit is £30m (PY £28m) for the Pension Fund, which equates to approximately 1% of your prior year net assets for the year.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

Matters we will report to the Regulatory and Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Regulatory and Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Pension Fund, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £1.5m (PY £1.4m).

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Regulatory and Audit Committee to assist it in fulfilling its governance responsibilities.

9. Audit logistics & team

Iain Murray, Key Audit Partner

Iain will be the main point of contact for the Chief Executive and Members. Iain will share his wealth of knowledge and experience across the sector providing challenge, sharing good practice and acting as a sounding board with Members and the Regulatory and Audit Committee. Iain will review all reports and the team's work, focussing his time on the key risk areas of the audit.

Sheena Phillips, Audit Manager

Sheena will work with senior members of the finance team ensuring testing is delivered and any accounting issues are addressed on a timely basis. Sheena will ensure our audit is tailored specially to you and a high-quality audit is delivered efficiently. Sheena will undertake reviews of the team's work and draft reports for the Regulatory and Audit Committee, ensuring they remain concise and understandable.

Omer Awais, Audit Assistant Manager

Omer will lead the onsite team and will be the day to day contact for the audit. Omer will monitor the deliverables, including managing the query log with your finance team and highlighting any significant issues and adjustments to senior management. Omer will undertake the more technical aspects of the audit, coach the junior members of the team and review the teams' work

Client responsibilities

Where clients do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other clients. Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations, we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations, we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the deadline you have agreed with us, including all notes, the narrative report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

7. Audit fees

Planned audit fees 2019/20

Across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing. Within the public sector, where the FRC has recently assumed responsibility for the inspection of local government audit, the regulator requires that all audits achieve a 2A (few improvements needed) rating.

Our work across the sector in 2018/19 has highlighted areas where local government pension fund financial reporting, in particular, scrutiny of the valuation of hard to value investments needs to be improved. Combined with the FRC requirement that 100% of audits achieve a 2A rating this means that additional audit work is required. We have set out below the expected impact on our audit fee. The table overleaf provides more details about the areas where we will be undertaking further testing.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting. Our proposed fee at the planning stage is set out below, with further analysis overleaf.

	Actual Fee 2018/19	Proposed fee 2019/20
Pension Fund Audit	£19,275	£29,275
Total audit fees (excluding VAT)	£19,275	£29,275

Assumptions:

In setting the above fees, we have assumed that you will:

- prepare a good quality set of accounts, supported by comprehensive and well-presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards:

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with staff of appropriate skills, time and abilities to deliver an audit to the required professional standard.

Audit fee variations – further analysis

Planned audit fees

The table below shows the planned variations to the original scale fee for 2019/20 based on our best estimate at the audit planning stage. Further issues identified during the course of the audit may incur additional fees.

Audit area	£	Rationale for fee variation
Scale fee	19,275	
Raising the bar	£3,500	The Financial Reporting Council (FRC) has highlighted that the quality of work by all audit firms needs to improve across local audit. This will require additional supervision and leadership, as well as additional challenge and scepticism in areas such as journals, estimates, financial resilience and information provided by the entity.
Valuation of level 3 investments	£4,500	The Financial Reporting Council (FRC) has highlighted that the quality of work by all audit firms in respect of valuations of hard to value investments needs to improve across the sector. Accordingly, we plan to enhance the scope and coverage of our work to ensure an adequate level of audit scrutiny and challenge over the assumptions and evidence that underpin the valuations of level 3 investments this year to reflect the expectations of the FRC and ensure we issue a safe audit opinion.
Triennial Revaluation	£2,000	We will need to carry out additional work this year in respect of the triennial revaluation carried out by the actuary.
Revised scale fee (subject to PSAA approval)	29,275	

8. Independence & non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

We confirm that we have implemented policies and procedures to meet the requirements of the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in December 2017 and PSAA's Terms of Appointment which set out supplementary guidance on ethical requirements for auditors of local public bodies.

Other services provided by Grant Thornton

For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Pension Fund. The following other services were identified.

Service	£	Threats	Safeguards
Audit related:			
Provision of IAS 19 Assurances to Scheme Employer auditors	7,000	Self-Interest (because this is a recurring fee)	The level of this recurring fee taken on its own is not considered a significant threat to independence as the fee for this work is £7,000 in comparison to the total fee for the audit of £29,275 and in particular relative to Grant Thornton UK LLP's turnover overall. This mitigates the perceived self-interest threat to an acceptable level.

The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with your policy on the allotment of non-audit work to your auditors. All services have been approved by the Audit Committee. Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

None of the services provided are subject to contingent fees.

The firm is committed to improving our audit quality – please see our transparency report - <https://www.grantthornton.co.uk/globalassets/1.-member-firms/united-kingdom/pdf/annual-reports/interim-transparency-report-2019.pdf>

Appendices

A. Audit Quality – national context

Appendix A: Audit Quality – national context

What has the FRC said about Audit Quality?

The Financial Reporting Council (FRC) publishes an annual Quality Inspection of our firm, alongside our competitors. The Annual Quality Review (AQR) monitors the quality of UK Public Interest Entity audits to promote continuous improvement in audit quality.

All of the major audit firms are subject to an annual review process in which the FRC inspects a small sample of audits performed from each of the firms to see if they fully conform to required standards.

The most recent report, published in July 2019, shows that the results of commercial audits taken across all the firms have worsened this year. The FRC has identified the need for auditors to:

- improve the extent and rigour of challenge of management in areas of judgement
- improve the consistency of audit teams' application of professional scepticism
- strengthen the effectiveness of the audit of revenue
- improve the audit of going concern
- improve the audit of the completeness and evaluation of prior year adjustments.

The FRC has also set all firms the target of achieving a grading of '2a' (limited improvements required) or better on all FTSE 350 audits. We have set ourselves the same target for public sector audits from 2019/20.

Other sector wide reviews

Alongside the FRC, other key stakeholders including the Department for Business, energy and Industrial Strategy (BEIS) have expressed concern about the quality of audit work and the need for improvement. A number of key reviews into the profession have been undertaken or are in progress. These include the review by Sir John Kingman of the Financial Reporting Council (Dec 2018), the review by the Competition and Markets Pension Fund of competition within the audit market, the ongoing review by Sir Donald Brydon of external audit, and specifically for public services, the Review by Sir Tony Redmond of local Pension Fund financial reporting and external audit. As a firm, we are contributing to all these reviews and keen to be at the forefront of developments and improvements in public audit.

What are we doing to address FRC findings?

In response to the FRC's findings, the firm is responding vigorously and with purpose. As part of our Audit Investment Programme (AIP), we are establishing a new Quality Board, commissioning an independent review of our audit function, and strengthening our senior leadership at the highest levels of the firm, for example through the appointment of Fiona Baldwin as Head of Audit. We are confident these investments will make a real difference.

We have also undertaken a root cause analysis and put in place processes to address the issues raised by the FRC. We have already implemented new training material that will reinforce the need for our engagement teams to challenge management and demonstrate how they have applied professional scepticism as part of the audit. Further guidance on auditing areas such as revenue has also been disseminated to all audit teams and we will continue to evolve our training and review processes on an ongoing basis.

What will be different in this audit?

We will continue working collaboratively with you to deliver the audit to the agreed timetable whilst improving our audit quality. In achieving this you may see, for example, an increased expectation for management to develop properly articulated papers for any new accounting standard, or unusual or complex transactions. In addition, you should expect engagement teams to exercise even greater challenge management in areas that are complex, significant or highly judgmental which may be the case for accounting estimates, going concern, related parties and similar areas. As a result you may find the audit process even more challenging than previous audits. These changes will give the audit committee – which has overall responsibility for governance - and senior management greater confidence that we have delivered a high quality audit and that the financial statements are not materially misstated. Even greater challenge of management will also enable us to provide greater insights into the quality of your finance function and internal control environment and provide those charged with governance confidence that a material misstatement due to fraud will have been detected.

We will still plan for a smooth audit and ensure this is completed to the timetable agreed. However, there may be instances where we may require additional time for both the audit work to be completed to the standard required and to ensure management have appropriate time to consider any matters raised. This may require us to agree with you a delay in signing the announcement and financial statements. To minimise this risk, we will keep you informed of progress and risks to the timetable as the audit progresses.

We are absolutely committed to delivering audit of the highest quality and we should be happy to provide further detail about our improvement plans should you require it.
