

APPENDIX 7

Object

Reason The prevention of crime and disorder; The prevention of public nuisance; Public Safety

Objection to Proposed Changes in Alcohol Service Conditions at the Local Sports Club Dear Licence comity, We, the residents of 10 Pound Lane, write to express our serious concerns regarding the proposed changes to the alcohol service conditions at the sports club facility opposite our residence. The request to extend alcohol service to the outside spaces of the club could significantly impact the residential aspects of our area, and we wish to articulate our objections along the following lines: Prevention of Crime and Disorder: The proposed changes could potentially lead to an increase in crime or disorderly conduct. The extension of alcohol service to the outside spaces might attract a larger crowd, increasing the likelihood of incidents related to excessive alcohol consumption. This could disrupt the peace and security of our residential area. Public Safety: Our concerns extend to the safety of the public. With more people frequenting the sports club for longer hours, there could be issues related to crowd control. Additionally, the risk of fire safety could increase with the extended hours of operation and alcohol service. Prevention of Public Nuisance: The proposed changes could result in noise and light pollution, especially during the late hours. This could significantly disturb the tranquility of our residential area and affect our quality of life. Moreover, the increased footfall could exacerbate the existing parking issues in our area. We kindly request you to consider our objections and the potential negative impacts on our residential area before granting the change of license to the sports club. We believe that maintaining the current conditions of alcohol service would best serve the interests of our community.

Thank you for your attention to this matter.

Sincerely, Nir Feldberg
